### Don't Be a Victim of Substitution

There is but one genuine ROUND OAK stove. For over forty years the Round Oak. Folks have concentrated their efforts in the production of this heater, which is to-day, in principle, scientifically correct. The prestige of this stove has stimulated over one hundred other manufacturers to imitate it in appearance and name, but as every imitation is always inferior to the original, so has it been with the imitations of this strong, simple, durable, which has always "delivered the goods."

Burns all fuels successfully and economically. Holds the fire forty-eight hours, and gives a lifetime of service. So well recognized is the prestige and value of this stove, that after fifteen or twenty years of service, it brings more secondhand, than cheap imitations do on the dealer's floor.

Insist on securing the original. We recommend and sell it.

### Lincoln Ave. School Notes

The opening meeting of the South Division Parent-Teachers' Association, was quite a successful, pretty affair. It was held in the Auditorium of the school which was beautifully decorated in autumn leaves; the meeting was in the form of a greeting to Mr. Clark Gage Wright, the new principal; Mrs. R. J. Beatty was chairman of the meeting. The program was very delightful and consisted of a talk on "The Mothers' Congress" by Mrs. Orville T. Bright, followed by Miss Ethel Marley of the faculty staff of the Sherwood School of Music, at the piano who played "Romance" by Grensseld and a scherzo by Grieg. The committee had planned to have a vocal selection but the singer failed to appear, and Mrs. R. J. Beatty gave two charming little French-Canadian sketches by Dr. Henry Drummond.

After the program there was a short business meeting at which time it was decided that this division send delegates to the Mothers' Congress of which Mrs. O. T. Bright is a member.
