Trinity Church Notes

The mission was a most gratifying success and made a deep impression upon the large number of people who attended the service day by day. It will leave a lasting effect for good upon the congregation of Trinity Church and upon the community in general.

Doctor Page won the gratitude and respect of all who heard him by his wisdom, his clear vision and his consecrated common sense. He was of great help to many who came to consult him about their personal problems.

The thank offering made up of sums placed in the alms box and of the offerings at the early service Sunday morning was one hundred dollars, this will be used by Dr. Page for his work in the mission-district of Spokane. Altogether the week of mission will not soon be forgotten.

Sixteen men of the congregation attended the Church Club dinner at the Auditorium Hotel on Tuesday evening by the Church Club of Chicago in honor of Dr. Page and Dean Summer.

The Junior Auxiliary girls will give a pretty play, "Every Girl" in the parish house on Wednesday evening, and enjoy an hour of dancing afterwards.

The Thanksgiving service are at 7:30 and 10:00 o'clock.

The ladies of Trinity Guild had an all day meeting in the parish on Monday with luncheon at noon. They are working for local charities and for the Red Cross.

The Sunday School sent ten dollars to the Evening Post Belgium Flour fund.

The choir is to give a concert in the parish house, on Monday evening, Nov. 30. A very high class program is to be given. Miss Carver is to play and there will be solos and choruses by members of the choir under the direction of Mr. Dietch.

Highland Park Club

The Cabaret Vaudeville given at the Highland Park Club Saturday evening, was indeed a very pretty affair and certainly much credit is due those whose untiring efforts made the affair a perfect success.

There were about forty tables arranged on the stage and the ball room, in the center of which the cabaret took place. Nearly one hundred and fifty guests were entertained. Those who took part in the program were: Miss Grace Andrews, appearing in a dance; Miss Marjorie Loudon and Ellis Faxon, as Mr. Castle and sister in modern dances, which were charming; Mrs. A. C. Torbert, in negro costume who had many entertaining and funny songs; Mr. George Jones with his violin was very good and much applauded; Miss Dorothy Loudon and Mr. Ellis Faxon were entertaining in a Chinese dance, while Miss Laura Kennedy and Mr. F. N. Baylies kept the company amused by their novel "take off" on all which had been done during the evening. Perhaps the part of the program most enjoyed was the negro minstrel show which was given by the following gentlemen who, dressed as negroes and served the guests: Messrs. Gerard Van Schaich; W. R. Tapper, J. M. Tuttle, and J. L. Martin.

The orchestra which was very good was comprised of one piano, one violin and two drums. Refreshments of tea, coffee, gingerale, grape juice, cider, and sandwiches were served. The entertainment ended with an informal dance.

ANIMAL TRAPPING A CRUEL INDUSTRY

Continued from First Page

intended for the traps. It has been estimated that 25 per cent of the creatures caught are animals with worthless pelts, birds and cats and dogs. The golden eagle was a victim of this sort, and his experience should serve to show the necessity for securing legislation to abolish the torture inflicted upon innocent animals by the steel trap. Particularly should this be accomplished in Illinois and Michigan, in which states the trapping of small fur-bearing animals has become quite an industry.

Massachusetts has begun a reform in this direction by enacting a law with the following:

"Any person who shall set, place, maintain or tend a steel trap with a spread of more than six inches or a steel trap with both jaws, or a 'stop-thief' or choke trap with an opening of more than six inches shall be punished by a fine of not exceeding one hundred dollars."

"Any person who shall set, maintain or tend a steel trap on enclosed land of another without the consent in writing of the owner thereof, and any person who shall fail to visit at least once in twenty-four hours, a trap set or maintained by him shall be punished by a fine of not exceeding twenty dollars."

Tennessee has also made a marked advance in the protection of animals and birds in this respect, and many other states are beginning to have strong convictions in regard to the matter. No state in the Union should tolerate the steel "jump" trap.

The atrocious cruelty connected with trapping is just becoming known to the public, and when it is thoroughly understood our men and women will find out how furs are procured before they purchase and wear them, and their revulsion of feeling when possessed of the facts will finally result in the enforcement by law of the use of none but humane traps and many restrictive measures that will reduce the cruelty to a minimum.

Many people, aware of the suffering entailed, have solved the problem for themselves by ceasing to wear furs, substituting warm woolen garments instead. This is the direct road to complete reform as far as the individual is concerned, but those who do not feel called upon to give up the luxury of furs should certainly be willing to assume the moral responsibility of seeing that provision is made by law for the quick and painless death of the creatures which are sacrificed for their coats.

The animals killed for food are given instantaneous death, the system in use in our modern stock-yards having been reduced to a science. This has long since been a necessity—a demand of humane sentiment. Why should not this sentiment extend to the animals slain for clothing? Why permit them to die by inches from half a dozen forms of suffering when a spark of humanity on man's part ought to be sufficient to reveal some humane method?

Lincoln Ave. School Notes

The pupils of the school gave a Thanksgiving program in the assembly room Wednesday afternoon. The grades contributing to the exercises were: Mrs. Freeman's seventh and eighth grades, Lucius Hine, who read the President's "Proclamation", and others whose declamations were on the subject of "Peace"; Miss West's fifth and sixth grades, who presented tableaux suggestive of Thanksgiving; Miss Allan's grades, Thanksgiving dialogues, and Mrs. Bastin's grades, a "Thanksgiving Drama."

There will be the usual two days vacation at the Thanksgiving season.

to sell the most remarkable bargain in the magazine world this year.

A monthly salary and a liberal commission on each order. Salaries run up to \$250.00 per month, depending on the number of orders. This work can be done in your spare time, and need not conflict with your present duties. No investment or previous experience necessary. We furnish full equipment free. Write for particulars to

The Ridgeway Company
Spring and Macdonald Streets, New York

IT'S THANKSGIVING ALL THE YEAR ROUND WITH A ROUND OAK CHIEF STEEL RANGE.

High School Notes

A short musical program was given on Monday during the regular singing period, at which time Raymond Geer, Mandolin, Seward Baldwin, banjo, and Mr. Pertz, assistant manual training teacher, piano rendered "Barcarolle" from "The Tales of Hoffman" very beautifully.

On account of the Illinois Conference, held at Urbana Ill. Friday and Saturday of last week, some of the faculty were not present at school and the school was visited by many teachers from other schools.

Mrs. S. Simmer, who underwent an operation at the Augustana Hospital last week, is doing nicely and will soon be able to come home.

Dr. Herbert Francis Evans will preach at the First Baptist Church next Sunday morning at 11:00 o'clock. Sunday school at 10:00 o'clock.

Next Tuesday the women will meet in an all day session at the Presbyterian Church to sew for the Red Cross. Those coming in the morning are requested to bring their lunch.

The SUCCESS of the NATION

Depends on the health of her people, and the chief cause of ill health is directly traceable to defective, inferior and frequently insanitary equipment in the kitchen. Good health and economy demand the modern, improved range, which reaches its highest type in the justly famous "Round Oak Chief" (cabinet or leg base). If the Round Oak folks could make the Chief better, they would do so.

The triple-wall construction of copper-fused non-corrosive metal; the oven and high closet oversize (we show you with our rule); the exclusive reservoir construction, enabling you to heat the water quickly and perfectly, and bake at the same time; the double amount of asbestos in wall and bottom of the flue is all essential to the perfect range and is found only in the Round Oak Steel Chief. You will be an enthusiastic booster for this masterpiece of stove construction once you get acquainted with it.

Let us "show you" these vital improvements.
