

TIMELY SUGGESTIONS

This is the time of the year when we all are getting anxious again to do things out doors. The grounds need cleaning up, just a few more days and Rakes, Spades and Wheelbarrows will be kept busy in order to put everything in proper shape.

For the present nothing is perhaps of greater importance than a good dose of Fertilizer and Grass Seed for the Lawn, both can be applied even before the leaves are raked off.

Every Lawn needs nourishment of some kind and stable manure is not only unsightly but contains weed seed of every description, while Fertilizer costs less, contains a higher percentage of actual plant food and acts immediately.

There is hardly a Golf Club in the country which hasn't given up the use of manure and is making use of Fertilizer instead and better results are obtained.

We can supply you with the very best brand of Fertilizer in existence at \$2.00 per bag of 100 pounds and would be only too glad to furnish estimates for any sized lawn.

In Grass Seed we have the proper mixture for permanent results and in the past 20 years have helped to create many fine Lawns along the North Shore.

We charge 25c per lb. or \$1.00 for a 5 lb. sack and you can't get better seed at any price.

If you intend having work done pertaining to Gardening, no matter what, consult us; let us give an estimate whether it is for Rough Grading, New Lawns or getting old ones to do better; driveways, concrete work of every description, shrub borders, flowerbeds, Pergola Effects, Fountains, Swimming Pools, Aquatic Gardens. Anything and everything. We can please you.
