High School Notes

On Friday afternoon of this week some of the faculty and eight students will go to Chicago University where the students will enter the prize examinations and the reading contests. Those entering the reading contests are: Esther King, Clayton Youker and Joseph Gibson.

A large number of very good interior and exterior pictures have been taken for the school year-book, the pictures include class-rooms, gymnasiums, shop, domestic science rooms, and engine rooms. In the collection there are pictures of the different school clubs, classes, and faculty.

The domestic science class, under the direction of Miss Tucker, the teacher, prepared a very dainty luncheon for the Lake county manufacturers' association on Tuesday at the high school. On the menus which were neatly typewritten by the stenography class, the exact cost of the meal was computed, including amount of heat used, and the amount of food value in each article of food. After luncheon the men visited the new buildings, spending much time in the industrial arts building, where there were exhibits of work done in that department.

On Monday the students were delightfully entertained by Mrs. C. G. Alexander, who sang "My Treasure," "The Songs My Mother Taught Me," and "The Land of the Sky-Blue Water," accompanied on the piano by Mr. Sidney Arno Dietch.

On Thursday evening the Girls' Glee Club, is to sing for the meeting of the Lake Forest Woman's Club.

Lincoln School Notes

The pupils of the upper grades are planning a very interesting program for their parents on Thursday evening, April 22. The object of the meeting is to show the parents the work done in the school and the new slides on the Panama canal which will illustrate the talk which the seventh grade will give. The eighth grade is to present the court scene from the Merchant of Venice. Special music is to be arranged for the entertainment. There will be a small charge of admission the proceeds of which will go to the purchase of more slides for the school lantern.
