Opening Day at Panama-Pacific Exposition Broke All Exposition Attendance Records

ALL attendance records for expositions were broken at the opening of the Panama-Pacific International Exposition in San Francisco on Feb. 20. Vast crowds thronged the grounds when President Wilson pressed the button in Washington, and each day since the attendance has been enormous. The huge buildings and beautiful thoroughfares hummed with activity and have continued to do so. The Exposition has already demonstrated at this early date that it will be a great success in every way.

ON the Avenue of Commonwealths at the Panama-Pacific International Exposition. Crowds passing before the beautiful New York State building, which is one of the finest of the state buildings at the huge Exposition in San Francisco.

LOCAL BOWLERS TAKE FIRST PLACE

North Shore Tournament Now on at Lake Forest. Highland Parkers Invited to Attend

After a very close race, the Highland Park Bowling team took first place over Lake Forest College by the margin of one game while the Knights of Columbus landed third place, three games behind the leaders, with the Royal Arcanum team finishing fourth. The Eastwoods tied Lake Forest team for the cellar championship only six games behind first place. It will be noticed that the Highland Park team stand third in total pins both the College and K. of C. teams getting more pins, but it was games that counted and the Highland Park team got their good games where they counted most. Following is the individual standing of the local team: J. Ori, average, 193 7-39; W. J. McNally, Jr. average, 174 22-45; J. Richards, average 164 8-24; F. Moon, average 156 28-45; and A. Flynn, average 154 3-42.

There will be a small league formed the first part of May to run up into June. Highland Park bowlers both new and old are invited to partake of this interesting warm weather game.

National Gas Range Week
 The Birthday of the

FIRST GAS RANGE

FIFTY-ONE years ago the first gas range cooked its first meal. It didn't look much like the wonderful new gas ranges of 1915. It was clumsy---imperfect---but even at that it quickly proved its superiority over other ways of cooking.

This week April 26 to May 1st is being celebrated all over the country as **National Gas Range Week**, in honor of this father of all gas ranges. We are going to celebrate this week by offering you a special inducement to discard your old gas range or antiquated coal stove and give it to us in part exchange for a new 1915 Model Cabinet Gas Range like those shown in this ad.

During this week only, we will allow you from \$5 to \$10 for your old gas or coal stove with the same liberal monthly payment plan and the same low prices as before

Whether you are thinking of buying a new range or not, we want to show you the wonderful improvements that have been made in gas ranges in the last few years—changes that make it more than ever the ideal stove for home cooking.

It will only take a few minutes of your time and we know you'll find it interesting

RELIABLE GAS RANGES

The Critic Boomed.
 "I have just sold that picture for \$2,000!" said the jubilant artist.
 "I congratulate you on your ability," replied the critic.
 "Thank you. It makes a difference, doesn't it?"
 "Makes a difference? I don't understand you."
 "I mean that it makes a difference when a man succeeds. Up to this time you have never uttered a word of praise or encouragement to me. Two or three times you have made slighting references to my ability as a painter. Now that I have sold a picture for a good price you begin to see that I have artistic talent."
 "Oh, I'm not congratulating you on your artistic talent, but on your ability as a salesman."—Chicago News
