April 21, 1915

Purity Ice & Refrigerating Co.,
Highland Park, Ill.,
Gentlemen:

The sample of water which you submitted to us for analysis taken from our Water Purifier and Filter showed that it contained four grains of lime per United States gallon. The mud, silica, organic matter and bacteria was all removed, that the water is absolutely pure and the ice that you are making is better than any that is made in the city of Chicago or any suburban town.

Very truly yours,
The Greer Chemical Co.
