Community Use of the High School Natatorium During the Summer

The High School Board of Education desire to know whether there is enough demand for the use of the school natatorium during the summer vacation to warrant their keeping it open to the public. If open, a charge of three dollars will be made for adults and a dollar and a half for children. This would include lessons in swimming. The use of the tennis courts and base ball grounds will be open and free to the public during the summer except that baseball games on Sunday are forbidden.

It is proposed to open the pool on Monday, Wednesday and Saturday of each week from 10 a. m. to 12 m. and from 2 to 6 p. m. and from 8 to 9.30 p. m. The work will be in charge of Mr. and Mrs. Ralph Perrine. The schedule is as follows:

Monday, Wednesday and Saturday—	
Women and Girls	10.00 to 11.00
Grammar School Boys	11.00 to 12.00
Grammar School Girls	2.00 to 3.00
Women	3.00 to 4.00
High School Boys	4.00 to 5.00
Men	5.00 to 6.00
Evenings—	
Monday—Women	8.00 to 9.30
Wednesday—Men	8.00 to 9.30
Saturday—Family Night	8.00 to 9.30

If interested, tear out, sign and mail immediately.

BOARD OF EDUCATION,
DEERFIELD-SHIELDS HIGH SCHOOL,
HIGHLAND PARK, ILL.

Gentlemen:

I wish to secure a Membership Card ^{Adult}_{Child} entitling me to use the High School Natatorium during the vacation months beginning June 28.

Signed,

Exmoor Club Notes

Mrs. John M. Tuttle and Mrs. John Glass were hostesses at the first Thursday luncheon and bridge party of the season. One hundred and twenty-five ladies enjoyed the afternoon. Decorations were the pink peonies and delightful music was furnished during luncheon. These parties will be held at the club every Thursday during the season.

Saturday's golf results are: eighteen hole match play against par, winner in classes A and B, A. L. Rutter, five down to par, winner in class C, T. McKenzie, seven down, winner in class D, B. H. Keeney, twelve down.

Moraine Hotel Notes

Those who entertained at dinner parties at the Moraine preceding the Arden Short benefit Tuesday evening were: Messrs. and Mesdames F. B. Hunsley, J. Hastings, R. B. Gregory, R. K. Buchanan, Jr., Mrs. J. M. Gregory Adams, Miss Drake Mr. W. H. Busey and Dr. J. P. O'Neil.

First United Evan. Church

Next Sunday is to be "Surprise Sunday" in Sunday School. The Superintendent has announced that a surprise will be given to each person that is present on time. The lesson will be the review of the previous lessons of the quarter.

The subject of the morning discourse at 10:45 will be "The Effects of Preaching the Cross;" and in the evening Rev. Van Evera will speak on "Certainties."

The Music Committee under the leadership of Anna Kraeger will have charge of the Christian Endeavor Service, the topic being "Song and its Meaning."

Preparations are being made for a Patriotic Service to be held on Sunday evening, July Fourth.

The Philathea Class will hold their monthly meeting at the home of Mrs. F. C. Noerenberg on Friday evening.

The boys of the O. H. B. Class entertained the Sunshine Circle at a beach party on Monday evening.

MISSING LINKS.

Pages of Geological History That Nature Has Destroyed.

New details are continually being added by geologists to the known history of the earth, including the development of plants and animals. However, that history, which is recorded in the rocks, is still fragmentary, like a badly mutilated book. One of the great defects in the record in the Atlantic and Gulf coastal plain regions of this country is the absence of the later part of the cretaceous and the early part of the eocene chapters—perhaps eight to ten millions years ago. A report by the geological survey discusses this missing part of the record and shows that the break must cover a very long period of time.

It is known that at that time the continents were at least as large as and probably larger than they are now, and the oceans were accordingly smaller. Any rocks that were then formed in the sea seem to have been weathered and washed away. Hundreds of kinds of plants and animals that lived before and hundreds that lived after this great period are known, but not one which lived during the period. Strange to say, few if any of the species which existed before the unknown period lived through it.

It is like a play in which the places of one act remain the same as in the preceding but the characters are all new, and yet many of the new players resemble the old ones so much that one is compelled to admit that they are close relatives. In each of the states bordering the Atlantic ocean are layers of rock which were formed before and after the period whose record is missing. In these layers are entombed sea shells of many kinds, but apparently not one species lived through from cretaceous to eocene time.

BECKONING THE DEAD.

The Call of the Indians to Which the Sea Responded.

On the rugged coast of Washington by the Copalis stands there is a lower from which the Indians watch for sea otter. They are very eager after that game, for the hide of one of these creatures is worth all the way from \$500 to \$2,000. Two young Indians were watching one day when they saw a sea otter off in the surf. Two shots from their rifles killed the otter, and then they rushed down to their surf-boat. The sea was heavy, and when they were out some distance from the shore their boat broke in two over a comb, and the men were thrown into the sea.

One of the Indians drifted ashore on a piece of wreckage. The other, although a splendid swimmer, was drowned. The news soon spread to the reservation, and the Indians from far and near came to the beach and stood on the sands, silently beckoning to the sea to give up its dead.

It was a solemn, impressive sight—the stalwart, rugged, copper-colored men and women standing at the verge of the sea foam asking the sea by the motion of their hands to send the body ashore. For three days they waited and beckoned, and then a dark object was seen drifting into shallow water. Sometimes it was buried completely from view by the heavy surf; then it was seen again a little nearer, and so the body of the dead Indian came ashore at the call of his tribesmen.

The Lion

Water Heater has been called the King of Water Heaters. Whether for a 30 gallon or a 100 gallon tank it does the work quickly and efficiently, consuming the minimum amount of gas and producing hot water almost instantly. It is easily lighted, easily cleaned, is absolutely safe and will last practically forever.

\$2.00 with order and \$2.00 each month with your gas bill, makes it easy to pay for this great convenience

\$15.00 to \$20.00 Installed

COUNCIL PROCEEDINGS
Continued from page 1

The historical data relating to the administration of city affairs in Highland Park, and with your approval, I would like to appoint Mr. Theodore Clark as chairman and Capt. O. H. Morgan and Capt. F. D. Everett." The appointment was approved.

In asking the council to approve of his appointment of a commission to prepare a building code, the mayor said:

"This administration has found that Highland Park has no established building code, and it would seem a city of this size with its continual growth ought to have some suitable ordinance or code prepared to govern the buildings within the limits of the city of Highland Park. To get the best results and most modern methods along this line, it occurs to us that we should have a building code commission, and with your consent, I should like to appoint Mr. George R. Roberts as Chairman, together with Mr. W. D. Mann and Mr. Julius Zimmer." Council approved.

The commission of Public Health and Safety submitted the following report: To the mayor and commissioners:

Bids for the furnishing of 400 tons (more or less) of coal for the pumping plant requirements, for the period beginning July 1st, 1915 and ending June 30th, 1916 were received on June 18th, as follows: Frank Siljestrom, at \$4.92 per ton, delivered in bin at the pumping station; North Shore Fuel & Supply Co., at \$4.85 per ton, delivered in bins at the pumping station; Geo. E. Pope & Co., at \$4.15 per ton, F. O. E. cars, Highland Park, subject to contingencies of missing transportation and other causes beyond their control.

The bid submitted by the North Shore Fuel & Supply Co. being the lowest and best bid, was accepted and the contract awarded them with the understanding that they furnish a satisfactory bond in the sum of \$500.00, conditioned on the faithful performance of said contract. Respectfully submitted, E. G. Huber.

Commissioner Willits moved the adoption of the report. Motion prevailed.

Commissioner Huber reported that Fire Marshal Adolph Gieser, had tendered his resignation as a member of the fire department.

Commissioner Willits moved the adoption of the following resolution:

WHEREAS the resignation of former Fire Marshal, Adolph Gieser, has been tendered as a member of the fire department of the city of Highland Park,

BE IT RESOLVED that the same be accepted and the city clerk is hereby directed to convey Mr. Gieser the sincere appreciation and thanks of the council of the city of Highland Park for the long years of earnest, faithful and efficient service rendered to the city by him as a member of the fire department; and

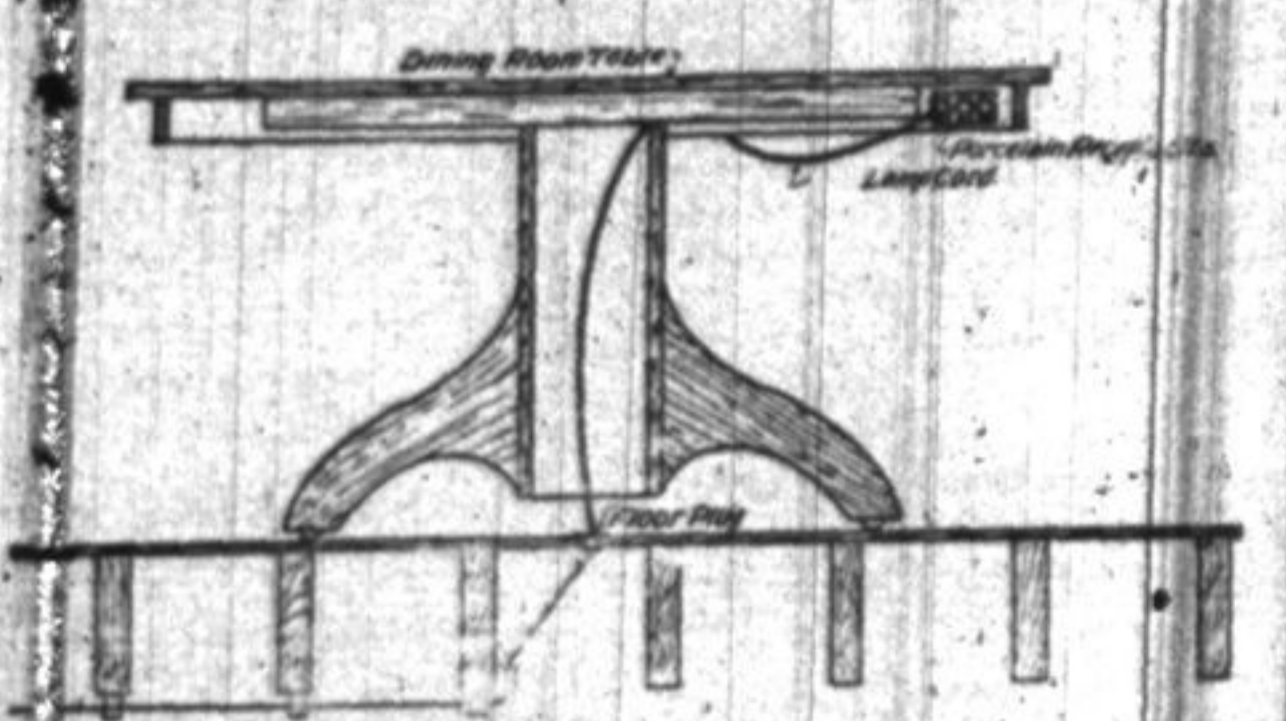

BE IT RESOLVED that as a further mark of the council's appreciation of such service these resolutions be engrossed upon the records of the city and a duly authenticated copy of the same be transmitted to Mr. Gieser. Motion prevailed.

Commissioner Huber moved that the fire department be granted permission to use the Lake Front Park for a picnic on Saturday, August 7th, 1915. Motion prevailed.

Commissioner Hitchcock moved the adoption of an ordinance entitled "An Ordinance creating and defining election districts in the city of Highland Park." A copy of this ordinance will be found on another page of this issue, giving the boundary lines of the new voting precincts.

Commissioner Hitchcock moved that John R. Washburn be elected city treasurer. Motion prevailed.

The Board of Local Improvements submitted and recommended the adoption of an ordinance providing for the construction of an eight inch main sanitary sewer, together with manholes and house junctions to be constructed and laid in, Judson Ave. Ordinance Adopted.

Electric Cooking Utensils used in the dining room need not be hitched to the chandelier, when special tap points are provided. They are easily figured out.

This picture shows an example—three porcelain wall sockets on the inside edge of the table, connected with the house circuit through a flush receptacle fixed in the center of the floor. In this case, the cord is brought up through the middle leg of the table. If the latter doesn't happen to be provided with that support there are other ways of leading the cord up and concealing it. Of course it and the floor plug are detachable so the table can be moved at will. One or all three of the sockets can be used at once.

We do this and all other kinds of electric wiring work
