LINCOLN SCHOOL MAY HAVE KINDERGARTEN

ENROLLMENT MUST BE 20 CHILDREN

Board Meeting Held September 13th. Competent Teacher to Conduct if Necessary Requirements are Met With

At a meeting of the Lincoln school board September 13 it was decided that the board would permit the use of the beautiful, light, airy auditorium for a kindergarten if the residents of the district pay the teacher's salary. It will require at least twenty children at one dollar a week for a full term of thirty-two weeks, or private donations to make the undertaking possible. This sum must be guaranteed before the kindergarten can be opened.

Under this arrangement children of the ages from three to six may attend. It will not be necessary for the children to reside in the district.

Mrs. J. S. Glidden, 314 Oakwood avenue, telephone 368, is in charge of the enrollment of the children. All those interested should see or telephone Mrs. Glidden as soon as possible, as prompt action will be necessary to get the school started in the short time left before the first of October.

Will You Have Your Children Handicapped Upon Entering School?

Precious time wasted before children fall into the routine of the school is used to advantage by children who have had the privilege of kindergarten training and can thus finish easily and without strain twice the amount of work an untrained child is able to accomplish and yet the permanent value of the kindergarten has little if any connection with the number of years required to go on through the grades. The kindergarten concern is with the content of the years rather than with their number: with the fullness of the life of the child rather than with the economy of time. Power to think and do, a tendency to assume right attitudes towards life and ability to work and play happily with one's fellows are some of the results of a kindergarten education, for in the heart of every child is an instinctive love of noble and unselfish deeds, and with right training the hearts of little children can easily be turned in the right direction.—Contributed.

LECTURE ON CHRISTIAN SCIENCE

Friday Evening, October First at the Church Edifice on Hazel Ave.

Friday evening, October 1, at 8 o'clock, in the church edifice on Hazel avenue, near St. John's avenue, a lecture on Christian Science will be given by Dr. Francis J. Fluno, C. S. D., member of the Board of Lecturers of the mother church, the First Church of Christ, Scientist, in Boston, Mass. The lecture is free and the public is cordially invited to be present.

LOSES CATTLE AND HOGS

Hoof and Mouth Disease Hits Frank Siljstrom's Cattle

Last Sunday government inspectors visited the farm of Frank Siljstrom, west of Deerfield, and killed 35 cattle and 112 hogs which were infected with the hoof and mouth disease. He was paid a market price for the stock, but many were full blooded animals and were worth about four times that amount. His loss is estimated at between \$2,000 and \$3,000.

BAZAAR PLANNED FOR OCTOBER 13th

Members of St. Johns Evangelical Church Busy Making Final Arrangements

The ladies of the St. Johns Evangelical church on N. Green Bay Road, are planning a supper and bazaar for the afternoon and evening of October 13th, Wednesday, and 14th Thursday. There will be supper served at five o'clock, followed by a bazaar in the evening when aprons, fancy work, home made candies, quilts and caps, will be sold in the tent connected with the church. Mrs. Charles Werhane is in charge of the bazaar.

EXTRA! 12 O'CLOCK

As we go to press the Highland Park Fire Department was called to assist in a fire which broke out in St. Joseph's Institute at Teckney, Ill., at 11 o'clock this morning. The fire began in the machine shop when one of the students' clothing caught fire. The Evanston, Wilmette, Glencoe and local fire departments were called to assist. Further particulars not available as fire is still burning.

DENTIST CLINIC IN ELM PLACE SCHOOL

TO CARE FOR TEETH OF NEW CHILDREN

A Nominal Charge to be Made in All Cases Where it is Possible. Nurse to Have Regular Rooms

The Highland Park Visiting Nurse Association has opened a dentist clinic in the Elm Place school. The object of the clinic is to care for the teeth of new children whose parents cannot pay a regular charge. The money, over \$500, was given last spring, but due to the plumbers' strike it was not possible to install the apparatus till August. Mr. Julius Rosenwald, who is much interested in the care of the teeth, gave half the amount needed.

Highland Park has to thank for its up-to-date, well-equipped clinic, first, Mr. Rosenwald, then the following citizens: S. M. Hastings, H. H. Hitchcock, William E. Bletsch, Carlton Mosely, J. P. Smith, A. J. Metzler, B. Metzler, E. Tyner, Robert W. Carr, R. J. Beatty, A. R. Carqueville, and R. S. Kirchberger.

Dr. Watson has been most generous in planning the apparatus, seeing that the best prices were obtained and looking after the installment. Our four dentists, Dr. Watson, Dr. Hamilton, Dr. Sexsmith and Dr. Fritsch, will give a half day a month each at the clinic. Miss Young will be there with the children and a nominal charge will be made for the work in all cases where it is possible. The schools are having dental cards sent to the parents showing what work is necessary. The importance of having the teeth in order is explained and their co-operation will be asked for.

After October 1 the Visiting Nurse Association will have an office in the Erskine Bank building, where the nurse will have regular rooms and can be reached by telephone. A full report of the work done during the first year will be published in November.

TEACHER'S PENSION LAW

Notices Being Sent to School Boards and School Directors of the County

Of the 400 teachers in Lake county there are at least 60 who automatically come under the teachers' pension law, which went into effect this year. T. Arthur Simpson, county superintendent of schools, is busy sending notices to the school boards and school directors of all the schools in the county, notifying them of the provisions in the new law and pointing out what they must do to comply with it.

NEW "SAMPLE" LIGHT POST INSTALLED

Located at the Corner of Central Avenue and Green Bay Road

On Tuesday the Public Service Company installed another "sample" electric light post. It is located at the corner of Central avenue and Green Bay road and is for the inspection of the public. It is of the concrete type with granite finish and a 400-candle power light. This post, together with the ones located at Laurel and St. Johns avenue, were installed at the request of the Highland Park Business Men's Association and one of them will probably be selected as the style for the illumination of the business district.

HIGHLAND PARK CLUB OPENS OCT. 12

Dance to be Given. Motion Pictures Every Friday as in Previous Years

The club will be formally opened on Tuesday evening, October 12, when a dance will be given. This is to mark the formal opening of the club, although motion pictures will be shown on Friday, the 8th of October. The Friday evening motion picture entertainments are to begin at 7:30 from now on. Many new improvements have been added to the club, in the form of repairs, and a new macadamized area on the east side of the house for the parking of automobiles. The programs for the winter entertainments are now being prepared and notice will be made public as soon as arrangements can be made.

BAHR'S NEW FLORAL SHOP

The above illustration represents a corner of Bahr's Flower Shop, which just opened in the Fletcher building next door to the post office. If there are more beautiful and artistically arranged flower stores in Chicago than this one, we haven't come across them. How much appreciated this new venture of our home florist, Mr. F. Bahr, on the part of the public was shown by the fact that over six hundred visitors inspected the establishment last Saturday, over five hundred roses were presented to the la-

"ROOKIES" BEGAN REAL ARMY LIFE TUESDAY

FIND FIRST NIGHT IN TENTS CHILLY

Are Allowed Two Hours a Day to Take Care of Their Business Affairs. Near Four Hundred and Fifty Citizen-Soldiers

When the taps sounded in Fort Sheridan Monday evening at ten o'clock, nearly 450 citizen soldiers lay in their tents after their first day of instruction in the art of war. True, the north wind chilled the rookies, but wrapped in their two army blankets they made the best of it. On Monday the day was spent in pitching the tents, each tent holding six men, laying out the company streets, getting their equipment in shape and receiving company assignments. Tuesday the actual training commenced, when they spent their first day of drills. It has been arranged that between the hours of four and six o'clock in the afternoon there will be no drilling, so that the business men may have two hours a day in which to care for their business affairs.

The various companies are composed of men of the same profession; for instance, company D is composed largely of lawyers, company E of physicians and board of trade men, etc. Officers drafted from the regular army have been selected to do the training. The camp officers are: Commander—Col. W. J. Nicholson, U. S. cavalry.

Adjutant—First Lieutenant E. R. W. McCabe, 5th cavalry. Quartermaster—First Lieutenant J. H. Barnard, 5th cavalry. Surgeon and medical instructor—Lieute.-Col. W. B. Banister. Senior instructor—Capt. John E. Stephan, 3d field artillery. Signal instructor—Capt. Paul M. Goodrich. Additional instructors—Lieut. J. W. Everington and Lieut. LaRoy Sherrburne. Information bureau—Major Doherty.

ATTRACTIONS AT LOCAL THEATRE

"Hearts in Exile" Sunday the 26th and "The Kindling" September 29th

The Highland Park Theatre offers as its chief attractions for the following week: "The Running Fight," from the book by William Hamilton Osborne, dramatized by Louis Albion and David Perkins, for Saturday night, featuring Violet Heming. On Sunday night, September 26, Clara Kimball Young will be seen in "Hearts in Exile," in five acts, while on Wednesday night Miss Charlotte Walker will appear in "Kindling," a forceful drama of tenement life by Charles Kenyon.

REGULARS CLIMBING IN CHAMPIONSHIP RACE

DEFEAT OPPONENTS IN FOURTH GAME

Series Become More Exciting. Count now Stands Two Won, One Lost and One Tie. Score 3 to 0

Highland Park's county champions journeyed to Waukegan Sunday and defeated Waukegan by a score of 3 to 0. The succumbed were completely outclassed in fielding and hitting, and at no stage of the game had any chance of winning, as Cantwell showed himself master of the situation at all times. Waukegan was fully fifty per cent stronger than they were at any time of the year, but could do nothing with Cantwell's benders. Charlie Stewart, formerly of the Cubs, swung high and low and took three healthy swings each time up, and struck out four successive times. He showed some speed in the field, as he raced back and with some luck pulled down a drive by Kilby that looked as if it would crash against the center field fence. Shore of the Chicago Cubs, who was on the mound for Waukegan, was hit freely, and was in danger at all times, as the Regulars had on their batting clothes and drove the ball to all corners of the lot. He was saved by excellent fielding of Murphy and Stewart. Delaney, formerly of the city league, caught a fairly good game, but could do nothing with Shore's wild pitches. It looked as though Delaney was erratic, but Shore was to blame. The pitching of Cantwell was the greatest ever seen on any ball field, and he had them eating out of his hand. Although the smallest pitcher that ever entered the leagues, he is a monster on the mound, and will be back next Sunday. He struck out fifteen of the hard hitting major leaguers and allowed only four hits, and kept them so well scattered that there was no danger of counting a run. His best exhibition was in the eighth inning, when there were men on second and third with no one out. Shore hit to him and he bluffed Voss back to third and threw his man out at first, and then whiffed Stewart and Cross, something that cannot be seen at all ball games. Reed caught his usual good game, and made a beautiful play at home when he blocked Murphy off the plate. His catching in this series has been marvelous. The infield, with the addition of Cronin and Johnson, looks to be the strongest that has ever been put together on the prairies. Cappy Cronin was there with two blows and pilfered three sacks, and looks to be the Keystone King. Duffy reached his hitting stride again and delivered two safeties. Shannon delivered a double that counted and Collins, whom all will re-

SPECIAL MEETING OF COMMISSIONS FRIDAY

HARRIS TRUST & SAVINGS BUYS BONDS

Eight Bids Received for street improvement and Bridge Bonds. Council Passes Street Numbering Ordinance

Council meeting Friday evening was delayed for a few minutes owing to the absence of Commissioner Hitchcock and the tardiness of Commissioners Bahr and Willits. No doubt the overseeing of the finishing touches to his new and beautiful flower display accounted for Commissioner Bahr's tardiness; Commissioner Willits came in from a distance to vote upon the last subject under consideration.

Mayor Hastings announced that there would be a meeting of commissioners, members of special committees and of all connected with the city government Friday evening, September 24, in the council room, to give reports and to talk over plans for future work.

Bills to the amount of \$1,071.80 were presented and a motion to pay the same was carried. A motion to install city scale with latest automatic registering device to cost \$390 was approved.

Commissioner of Public Health reported that a thorough cleaning of the septic tank on Deerfield avenue had put it in a sanitary condition.

Bids were received for the sale of \$25,000 street improvement bonds and \$10,000 bridge bonds. The Harris Trust & Savings Bank submitted a bid in the sum of \$33,301. This being the best bid received, Commissioner Huber moved that the bid be accepted and that the bonds be sold to the Harris Trust & Savings Bank of Chicago. The motion prevailed.

Following is a complete list of bids:

N. A. Halsey & Co.	\$33,133.00
P. W. Chapman & Co.	33,055.00
Hanchett Bond Co.	33,000.00
Hoehler, Cummings & Praden	33,106.50
Continental & Commercial Trust & Savings Bank	33,261.25
E. H. Rollins & Sons	33,166.00
Harris Trust & Savings Bank	33,301.00
Highland Park State Bank	33,210.70

Commissioner Bahr moved the adoption of an ordinance repealing an ordinance establishing a system of street numbering, passed on the first day of November, 1904. The motion prevailed.

Commissioner Bahr moved to pass an ordinance entitled "An ordinance establishing a system of street numbering for the city of Highland Park." Said ordinance to remain on file with the city clerk for public inspection, complete in form, until its final passage. The motion prevailed.

The division of the city and the numbering of lots and buildings will be done in the following manner:

Division of the City
For the purpose of easily locating any number on the streets, the city shall be divided into two divisions by a division line running easterly and westerly drawn from the lake to the city limits through the center of Central avenue.

That part of the city lying north of Central avenue shall be known as "North," and all streets in that division shall bear the additional appellation of "North" to denote that section of the city. That part of the city lying south of Central avenue shall be known as "South."

Numbering Buildings

All building numbers shall run north and south from Central avenue and from east to west from the lake to the westerly boundary of the city on a basis of one number to each twenty-five feet of frontage. On the north and south streets the odd numbers shall be placed on the east side of the streets and on the east and west streets the odd numbers shall be placed on the north side of the streets.

For the purpose of facilitating a correct enumeration, plats of the streets within the city showing the proper number of all lots or houses shall be prepared and kept on file at the office of the city clerk, and will be open for the inspection of owners or occupants of buildings.

AUTOMOBILE ACCIDENT KILLS ANNA O'MALLEY

JOHN ROUSE RECEIVES SKULL FRACTURE

Car Leaves Road at Skokie Bridge One-Half Mile West of Highland Park and Crashes into an Electric Light Pole

Miss Anna O'Malley, a nurse girl in the home of C. M. Vall, was killed and Policeman John Rouse lies in the Evanston Hospital in a critical condition as a result of an automobile accident at the skokie bridge west of Highland Park shortly after midnight Monday. (The other occupants of the car were Andrew Horn, chauffeur for P. D. Block, who was driving the car, Albert Taber, chauffeur for Melville N. Rothschild and Miss Elsie Lawrentz, all of whom escaped without injury.)

The car was being driven toward Highland Park, the party having been in Deerfield, and as it crossed the first skokie bridge west of here one of the rear wheels dropped into a ditch, causing the car to skid and crash into an electric light pole. Miss O'Malley and Mr. Rouse both received skull fractures, the former dying about an hour later in the office of Dr. Bergan.

Early in the evening, between 6 and 9 o'clock, the two chauffeurs had been making some repairs on the Rothschild car, then started out to make a last, Rothschild's chauffeur, John Taber, doing the driving. At the corner of Laurel and Dale avenues they met Miss O'Malley and Miss Lawrentz, who asked for a ride. The chauffeurs took them in and at the Laurel avenue viaduct they were hailed by Policeman Rouse, who asked to accompany them. They then proceeded to Deerfield, and it was on the return trip that the accident occurred.

Andrew Horn had changed places with Taber and was driving at the time of the tragedy. Bert Raymond, chauffeur for H. J. Sels, was following a short distance behind, and upon seeing the wrecked car drove immediately to Highland Park and notified Policeman Meyers of the accident. Both proceeded back to the scene and took Miss O'Malley, who was still alive, and Mr. Rouse in their machine, then telephoned to Dr. Lloyd M. Bergan to meet them at his office. Miss O'Malley died about one hour later. Dr. F. M. Ingalls, who was assisting Dr. Bergan, and Marshall Bond then took Rouse to the Evanston Hospital, where he lies in a critical condition.

The inquest over the body of Miss O'Malley was held in Prior's undertaking rooms Tuesday noon, and was continued until yesterday morning at 9 o'clock, at which time the following verdict was rendered: "We the jury find that Anna O'Malley came to her death by being thrown from an automobile driven by Andrew Horn and taken by Albert Taber, who was also in the car, from his employer, Melville N. Rothschild, without the knowledge or consent of the owner. We the jury find that said accident was caused by the machine leaving the road and striking an electric light post about one hundred feet east of the skokie bridge, one-half mile west of Highland Park, Illinois, on the Deerfield road, at 12:15 a. m., September 21." Coroner Taylor's jury were James Duffy, foreman, William L. Meyers, Fred Shafer, Archie Johnson, William Denzel and James Halpin.

HORSES BEING SHIPPED TO EUROPE
One Car Load Sent a Few Days Ago. Plan to Send a Car Load Each Week.

In their efforts to secure sufficient horses to equip the armies now engaged in a death struggle in Europe, agents of the allies have now turned their attention to Lake county and are buying up all the available horses in the county. An agent for the French army is in the county now, busily engaged in going from one farmer to another, purchasing horses. At the present time he is working in the vicinity of Antioch and Round Lake.

One carload of horses has just been shipped from those two places and another carload is ready to be shipped this week. The plan is to send a carload of horses out of Lake county each week if sufficient animals can be secured.
