

IT'S THIS WAY

Any residence in the country which lacks the proper surroundings of Trees, Shrubs, green Lawn and Flowers, cannot be called attractive no matter how expensive it may be, how grand its architecture, or how simple its outlines.

While there are many beautiful Home Grounds in Highland Park, there are a whole lot more which could be made so, some of them have been planted so long that everything is in need of rearranging, thinning out and changing; others again, where, by proper planting, a look of coldness could be transformed into one of cheerfulness and warmth.

After all it matters little how much a Home costs in dollars and cents or whether one has a 50-foot lot or a 30 acre estate if those around the dinner table are a happy lot and make the best of things as they are, they have the secret of happiness on this earth and usually show it on the grounds outside.

You can pretty well tell by the looks of a place as you pass by who dwells inside. If things look inviting, cheerful, friendly and bid you come just a little closer, don't hesitate in making up your mind that you are welcome, but if you behold a solid stone front, heavy pillars, a cold concrete drive and walk and but little planting you had better keep on walking.

Everything that is good, beautiful and true starts at Home and from there on it keeps on spreading out into the world to effect others, that means to make everything in and about the Home just as attractive as we can possibly afford to.

The way the Grounds around the Home are laid out and kept up affects everyone inside from Granddaddy on down to the

baby, the attractiveness of them makes us think more of the Home itself, our neighbors, our town in which we live and those outside of town, the association with Flowers, Evergreens the Honeysuckle, Lilacs, the Oaks and the Green Turf all are bound to have a beneficent influence on us and there can't be anything more fascinating, more restful, more interesting for the busy man or woman than coming in contact with Gardening, an occupation for which no one is too high or too low.

Now here is the question: Are you, patient reader, getting any benefit out of it as yet, or have you never considered it worth your while? If either is the case, you are missing a whole lot, the love of Flowers, Shrubs and Trees is like music, it matters little what your nationality, what particular church or political party you belong to, it effects us all alike.

We want to get you started on the road toward attractive Home Grounds, whether it is a new lay-out, a Lawn, Driveway, Planting of Shrubs, Trees, Hardy Flowering Plants, Water Garden, the building of a Pergola, Walks and any and everything pertaining to Gardening.

We will submit, free of charge, a sketch, a planting plan and estimate. If you don't know just what to do, why not call on us? No matter who does your work, we don't care as long as you make your grounds attractive, we are benefited by it, so let's hear from you. You have the choice of two phones 44 and 85. After 11 p. m. Uncle is usually home but no sweeter alarm than a ring on 78, he'd rather talk Flowers with you at 2 a. m. than sleep, suppose you try it.

Deerfield News Items

Mr. and Mrs. William Selig of Chicago were the guests at the home of the former's parents, Mr. and Mrs. Fred Selig, last week.

Miss Hermina Haunschild was the guest of her sister, Mrs. J. Bernard of Libertyville Tuesday.

Mrs. B. H. Kress was the guest at the home of Mrs. J. Dunlap of Chicago Wednesday.

Miss Mamie Faust of Libertyville was the week end guest of Miss Elda Horenberger.

Mr. and Mrs. George W. Sticken announce the birth of a baby girl, born Monday, October 4.

Miss Gloria Beacham had as her week end guest of Miss Florence Helmick of Fort Sheridan.

Miss Hermina Haunschild was hostess at the regular monthly meeting of the Mu Sigma Chi at her home Thursday evening.

The evening was spent in playing five hundred, at which Miss-Marie Kress was awarded the first prize and Miss Ruth Kress the consolation prize.

Among the young people from Deerfield who motored to Libertyville where they attended the dance given in the auditorium Tuesday evening were the Misses Marie, Loretta and Ruth Kress, Elda Horenberger, Mildred Whiting and Hermina Haunschild, Messrs. Elmer Clavy, Walter Antes, Alex Willman, Lester Stanger and Harry Muhlke.

Mrs. Eugene Ender entertained a number of her friends Tuesday afternoon, the occasion being in honor of her birthday anniversary.

Mr. and Mrs. Fred Selig, Mr. and Mrs. Charles Selig, Mrs. Fred Horenberger, Mr. and Mrs. Albert Antes, Mrs. A. Winter and Ewald Winter and Rev. J. Lueder attended the seventy-fifth anniversary of the German Evangelical church which was celebrated at Orchestra Hall, Chicago, Sunday afternoon.

A number of women from the Presbyterian church attended the union rally for missions at the Second Presbyterian church, Evanston, Thursday.

The K. L. C. E. of the U. E. church had for its subject Sunday evening "Be a Leader; Be a Follower," and was led by the president.

The Mission Band of the United Evangelical church will hold their regular meeting in the church Saturday afternoon.

Miss Mabel Horenberger spent the week end in Minneapolis, Minn.

The Christian Endeavor Society of the United Evangelical church held a business meeting at the home of Mr. Milton Frantz Friday evening.

Rev. Orsborn's Sunday morning sermon to the children was on "The Lord loveth a cheerful giver." The text of the regular morning sermon was from Hebrews 12:25 to 29.

Fort Sheridan

News from the 27th infantry, which left the fort in September and sailed from Galveston, Texas, on the sixth of last month, reached the fort this week. It is reported that a mountain slide has obstructed the Panama canal at Panama City, and this stops further navigation until repairs are made. The infantry will be delayed until the first of November.

Mrs. Tate, who has been at West Point visiting her son, Joseph, will return to the fort this week.

Mrs. Robert Porter and son, Francis, who have spent the summer in Virginia, returned last week to the post.

On Thursday Mrs. E. A. Helmick was hostess to six guests at luncheon, honoring Mrs. Bannister, Mrs. Bernard's guest. The table decorations were of pink.

Mrs. E. A. Helmick and daughter, Florence Helmick, leave the post this week for Dallas, Texas, where they will join Major Helmick, who goes to station at Galveston next month.

Mrs. F. H. Sargeant and Miss Alice Sargeant, who have been in the east for the past three weeks, returned to the fort on Tuesday.

Little Virginia Taylor entertained twenty-two little friends at a birthday party Saturday afternoon. The decorative scheme was all pink, carried out in every detail, of cakes, candy, place cards and favors. Games were enjoyed, which passed the afternoon pleasantly. Mrs. Robert Crane and three children of Winnetka were the out of town guests.

Trinity Church Notes

On Monday afternoon at 2:30 the Women's Auxiliary met in the parish house at which time the speaker was Mrs. Jessie Woodworth of White Bluff, Tenn., who spoke on the topic of Trinity Church missionary work in the mountain region of that state. Afternoon tea was served.

TONNAGE OF A VESSEL.

Just What It is and the Methods by Which It is Measured.

To find the tonnage or displacement of a ship is rather puzzling. The tonnage of a ship is the measure of its cubical or carrying capacity expressed in tons. At the present time there are four methods in use of expressing the tonnage of a ship, known respectively as the gross tonnage, the net register tonnage, the deadweight tonnage and the displacement tonnage.

In calculating the gross tonnage the whole interior capacity of the ship below the tonnage deck is found, including that of all covered in spaces on deck used for storage, and the result in cubic feet is divided by 100.

The net register tonnage is the gross tonnage minus all the spaces used for the accommodation of the crew and instruments and the working parts of the ship. It is on the net register tonnage that almost invariably dues are paid.

The deadweight tonnage is the measure of the exact amount of cargo that a ship can carry without sinking too deep in the water.

The displacement tonnage is the space occupied by the ship in the water. The amount of water displaced by a ship is, of course, equal in weight to the ship and all it contains. As one ton is equal to thirty five cubic feet of water, the displacement tonnage is found by dividing the number of cubic feet of water displaced by thirty-five when the ship is immersed up to its draft or load line—London Standard.

GEOLOGIC PERIODS.

Stories of Time Told by Fossilized Plants and Animals.

Scientists hesitate to estimate geological time in terms of years. Such estimates have, however, been made, and one published by Professor Charles Schuchert in 1910 states that about 12,000,000 years have elapsed since the close of the carboniferous age, an age as the name suggests, in which great deposits of carbon, in coal, were being formed in many parts of the world. This age has been divided by geologists into the Mississippian, Pennsylvanian and Permian epochs, of which the Mississippian is the oldest and the Permian the youngest. The Pennsylvanian epoch alone is estimated by Schuchert to have covered 2,100,000 years, and animal life is supposed to have existed on the earth for over 14,000,000 years before that time.

Geologic periods are recognized primarily by the animals and plants that lived in them, so that the study of fossils plays a very vital and important part in the progress of geologic knowledge.

Rocks of carboniferous age, as shown

of their fossils, have a wide distribution in the United States, and they are apt to abound in those remains of plant and animal life. The fossil shells which are found in them, however, may vary greatly from point to point, because the animals they represent lived in different periods of geologic time or in different regions in the vast boundless ocean—Argonaut.

Languages.

The principal languages of the world are listed in order as follows: English spoken by more than 150,000,000 people; German, more than 120,000,000; Russian, more than 90,000,000; French, more than 80,000,000; Spanish, more than 55,000,000; Italian, more than 30,000,000, and Portuguese, more than 30,000,000. These seven are the principal languages of Europe and America. There are said to be 3,424 spoken languages or dialects in the world—1,324 in America, 137 in Asia, 587 in Europe and 276 in Africa. Among other important languages are the Chinese, Japanese, Scandinavian languages, Slavonic speeches and dialects and the various languages of India, Persia, Arabia and modern Greece.

A Poor Present.

A wounded soldier expiated his grievance to his nurse.

"You see, old Smith was next me in the trenches. Now, the bullet that took me in the shoulder and laid me out went into his arm. Of course I should be wasn't 'urt bad, but he's stuck to my bullet and given it his girl. Now, I don't think that's fair. I'd a right to it. I'd never give a girl a mine a second 'and bullet." Exchange

New York City's Pensioners.

New York city has eight pension funds. They are the public school teachers' retirement fund, the police pension fund, the fire department relief fund, the department of health fund, the College of the City of New York fund, the supreme court appellate division fund, the street cleaning department fund and the city of New York employees' retirement fund—New York Mail.

Diplomacy.

"John," said the indignant parent, "why didn't you come home when I called you?"

"I didn't hear you," replied truthfully John.

"Then why did you run away?"

"Because I was afraid that I might hear you."—Richmond Times Dispatch

Family Joy.

"When you were courted by me," said his wife, "you declared that you'd marry another woman in the world (the me)." "Yes," replied her husband, "and I'm glad of it for the sake of other men."
