WOULD RAISE \$10,000 FOR STREET UPKEEP

(Continued from page 1)
sioner of Streets Bahr has already
accomplished a great task, as far as
funds permitted in making over and
repairing, and in filling in holes which
were a menace to all traffic. The situ-
ation is a difficult one. In the first
place, the streets were not made for
present day traffic nor for the weight
of vehicles which go over them today.
Builders of roads of even ten years
ago could not have foreseen that
eighteen ton trucks were likely to
pass through Highland Park, as hap-
pened last week. Now that the
streets are in better repair than they
have ever been before, it seems a
timely moment to form an associa-
tion which will take pride and inter-
est not only to keep them so, but to
continue to improve the highways and
byways of this beautiful North Shore
city. Mr. Hastings said further that
if this association be formed and
could raise by yearly subscription the
sum of \$5,000.00 or more, the city
council, he thought, would be willing
to add another \$5,000.00, so that \$10-
000.00 would be available yearly for
the upkeep of our streets. After
these remarks, it was unanimously
voted that a Greater Highland Park
Association be formed, and the chair
called for nominations for officers;
the following nominations were made:
for chairman, Mr. Walter Baldwin;
vice-chairman, Mr. Joseph Schoen-
inger; secretary, Mr. George Vetter;
treasurer, Mr. Irving Randall, with
Mrs. Elinor B. Fyffe and Mr. Her-
mann Thomas, as members of a com-
mittee in charge of affairs; all were
unanimously elected. The newly
elected chairman, Mr. Walter Bald-
win, begged Mayor Hastings to con-
tinue to preside over the meeting
during the evening. Mr. Schofield
moved that a set of by-laws be sub-
mitted to the council as the first work
of the committee. Many valuable
suggestions and remarks were made
by some of those present. Mr. Obee,
who was listened to attentively, re-
marked that while the repairing of
the roads was important, the building
of them for present day purposes was
more so and that great care should
be taken in seeing that material used
and work done should meet the re-
quirements of the present time and
for years to come. When called upon
to speak, ex-Alderman Moses said he
had no suggestions to offer, that he
had absolute confidence in the present
administration and felt they would
do the best in their power for the
city's good. One member present
suggested that the city should have
a designated route for heavy traffic
while other streets could be used for
lighter weight vehicles. Mr. Fletch-
er, Mr. Vetter, Mrs. Terry and Mrs.
Fyffe all made valuable suggestions.
Mr. Warner drew the attention of
those present to the fact that many
of the newly built streets have not
stood the wear and tear as some of
the older ones had—Vine avenue for
instance. Commissioner Bahr ex-
plained very clearly the difficulties
and trials of the commissioner of
roads and of the cost of repairing,
which was greatly increased for the
want of proper equipment. With suf-
ficient funds, store houses could be
built at certain places where stone
and other materials as well as tools
could be kept thus avoiding so much
cartage—and the work could be ef-
ficiently and promptly attended to.
After some further remarks from the
chairman, the meeting adjourned;
the committee to meet at the call of
the chairman of the Greater Highland
Park Association.

**FINED FOR BREAK-
ING QUARANTINE**

Joseph Check, a farmer residing
near Libertyville, was arraigned in
Justice Morris' court at Libertyville
on Monday, charged with having bro-
ken the foot and mouth disease quar-
antine. He was fined \$25 and costs,
amounting in all to considerably over
\$30. The foot and mouth disease
had made an appearance on Check's
farm. Before the quarantine was
lifted and the place fumigated Check
is said to have left the premises and
walked down the highway. His ar-
rest and conviction shows how care-
fully the officials are working to see
that the disease is not spread. As-
sistant State's Attorney W. M. Run-
yard of Waukegan prosecuted the case.

**Parents and Teachers'
Association**

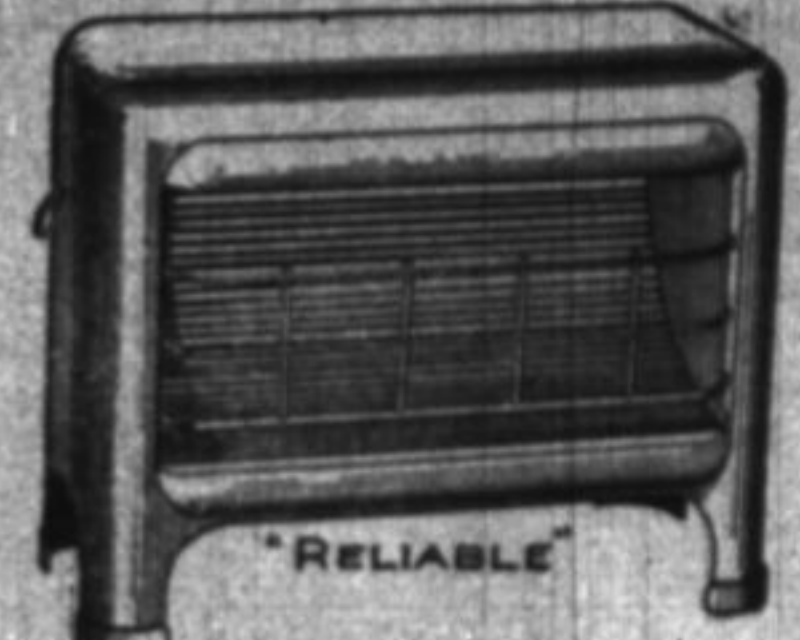

The high school division of the Par-
ent-Teachers association will hold its
first meeting early in November, the
date and program to be announced
later.
On Friday (tomorrow) evening, the
South Division Parent-Teachers will
hold its next meeting at Lincoln
school to be in the form of a social
meeting to which a cordial invitation
is extended to every one who is in-
terested in the association. The
speaker of the evening is to be Mrs.
B. F. Langworthy of Chicago, chair-
man of Illinois Congress of Mothers
and Parent-Teachers' Association,
whose subject is "Raising the Stand-
ard of Home Life." Music, including
solos by Mr. Charles E. Weeks, of
Ravinia will complete the program.
The next meeting will take place at
the school, December first, with Mrs.
R. J. Beatty on the program.

est.

Fort Sheridan

The Business Men's Army Training
camp which has been stationed at Fort
Sheridan for the past month broke up on
Sunday. President Wilson's personal flag
floated over the camp on Saturday. The
flag was sent from Washington as an ex-
pression of the president's satisfaction
over the work of the camp. The presence
of the flag is equal to a visit from the
president himself. There will not be
another encampment until next year.

**Copper Reflector
Reliable
Gas Heaters**

Are of beautiful appearance and of simple and durable construction nicely
rounded corners of drawn steel eliminating entirely the use of bolts and rivets
equipped with an electrically welded and coppered fender and finished with an
ebony black enamel.
Let a *Reliable Gas Heater* take the gloom out of these cold night-like mornings
and like the chill of the icy bath rooms.

WE ARE MOVING

WE WISH to announce to our many patrons
and friends that we are moving our **Shoe
Store** from its present quarters at 17 St.
Johns Avenue to our own building, at 12
N. Sheridan Road, this week. Our new build-
ing is better adapted to our needs and we
will be better able to display our shoes. Our
fixtures are all new, and modern in every re-
spect which will make the surroundings
pleasant for all. Our shoe repairing department is better
equipped to take care of your work. The best and most up-
to-date machinery has been installed to take care of this depart-
ment. We invite you and your friends to give us a visit when
in our new quarters.

OUR SHRINKING SUN.

Its Diameter Becomes About Four
Miles Less Each Century.
There are various theories to account
for the enormous store of heat and
light in the sun. The theory now gen-
erally accepted by physicists is that
the gradual contraction of the sun is
cooling is the chief source of apparent
inexhaustible energy. It has been cal-
culated that at the present rate of ex-
penditure of heat the sun's diameter
would contract four miles in a century,
and in a few millions of years it may
become as dense as the earth.
The sun is supposed to be composed
of much the same materials as the
earth, except that they are at a much
higher temperature. About forty of
the seventy terrestrial elements have
been identified by the spectroscope as
existing in the vapors around the sun.
Astronomers think that they find traces
there of very few substances not al-
ready known. Even these may be dis-
covered on the earth some day.
It has been calculated that the heat
thrown on a square mile exposed at
noon under the equator would melt in
an hour 26,000 tons of ice. This amount
has to be multiplied fifty million times
to arrive at the quantity of heat re-
ceived by the earth's surface during a
single hour. Yet this enormous supply
is even less than one two-thousand-
millionth part of what the sun pours
forth in all directions in space.

stands to reason that this inconcep-
sible outpouring of heat must be accom-
panied by a gradual though impercepti-
ble diminution in the size of the sun.—
Philadelphia Press.

Telling Time in West Africa.
Because of the scarcity of clocks in
West Africa events are timed by the
regular daily occurrences. For ex-
ample, a native wrote that she had re-
ceived news of her sister's illness "a
little while before the guinea fowl
talk"—that is, about 5 o'clock in the
morning.

Why He Was Sed.
"Why so sad and downcast?"
"My wife has threatened to leave
me."
"Cheer up. Women are always
threatening something like that, but
they hardly ever do it."
"That's what I was thinking."
Houston Post.

In the Hospital.
"That policeman who has just come
in has a professional affliction."
"What might it be?"
"He has a couple of felons on his
hands."—Baltimore American.
