One of the prettiest weddings of the season was that of Miss Mildred Thayer, daughter of Mr. and Mrs. Henry J. Thayer of N. Sheridan road and Mr. Theodore C. Erringer, Jr., son of Mr. and Mrs. Theodore C. Erringer of Los Angeles, California, which took place at the home of the bride's parents, Thursday evening, October twenty-first, with Dr. Jenkin Lloyd Jones officiating. The bride was charming in a simple gown of white bride's satin made in the empire-style embroidered in pearls, with sleeves of duchess lace and a full length court train. Her veil was held in place with lilies of the valley; she carried a shower bouquet of butterfly sweet peas and lilies of the valley. The bride was attended by her father who gave her away in marriage. Cleaver and Spafford Thayer stretched the ribbons. Three pieces of Benson's orchestra furnished music. At the reception which followed the ceremony, over two hundred guests were present. The house was beautifully decorated in autumn leaves and yellow chrysanthemums, with an abundance of baskets filled with flowers which blended artistically with the general decoration. The dining room was decorated in pink, while the other rooms were decorated in yellow. After the reception Mr. and Mrs. Erringer left for California where they will be at home after January first at Piru, Santa Clara Valley, California.

The Philathea Class of the United Evangelical church held its annual banquet on Thursday evening at the home of the Misses Elsie and Esther Dreiske of Ravinia when a five course dinner was served to twenty-five members of the class. On Tuesday a number of friends of Miss Louise Kirst surprised her by coming in to help her celebrate her birthday anniversary.

A number of friends were entertained by Miss Dorothy W. Baker at her home on W. Vine avenue on Saturday evening, October twenty-third. The house decorations were autumn leaves and Jack O'Lanterns; the color scheme of black and orange was carried out in decorations of crepe paper and favors of Halloween suggestiveness. A general frolic, including fortune telling, passed the evening hours pleasantly for the young folk.

Little Catherine Carqueville was hostess to eight friends at a dinner party at her home on Hazel avenue, Tuesday evening, the occasion being her eighth birthday anniversary.

Mr. and Mrs. H. H. Chandler and Mr. and Mrs. Otis L. Beardsley entertained informally Monday evening in honor of Dr. and Mrs. Walter Lane of Milton, Mass. Dr. Lane is a brother of Mrs. Beardsley and has just returned from three months' hospital service abroad. He gave a most interesting talk of his experiences.

The next meeting will take place on Tuesday, November ninth, at the home of Mrs. George Wright on Glencoe avenue, with Mrs. Lyle Gourley and Mrs. Wright as hostesses.

Tomorrow afternoon at Orchestra Hall, where the Chicago Symphony Orchestra has begun its winter concert season, the soloists are to be Mr. Alexander Zukowsky and Mr. Harry Weisback, in the Bach D minor concerto for two violins, and Ban-tock's "Fijine at the Fair." It will be remembered that both Mr. Zukowsky and Mr. Weisback played at Ravinia Park this summer.

Miss Catherine Dean was hostess on Wednesday of last week at luncheon, followed by two tables of bridge complimentary to her guest, Miss Marie McShane, of Omaha, Nebraska. Yellow chrysanthemums decorated the luncheon table.

Miss Mona Bahr will entertain twenty of her friends at a Halloween party Saturday evening.

Miss Valencia Rafferty of Prospect avenue, was hostess to eight out of town guests on Friday evening at dinner.

Mr. Samuel Knox of S. Sheridan Road was hostess at five tables of bridge, informally, Tuesday evening.

Mrs. A. E. MacCaughy will be hostess this afternoon and tomorrow afternoon at several tables of bridge, both parties being part of a series which she is going to give. Other bridge parties will follow later.

Mr. and Mrs. F. McDonald Lowe of South Sheridan Road were host and hostess to twenty Chicago friends at dinner on Saturday evening, followed by informal dancing. The guests were members of a dancing class to which Mr. and Mrs. Lowe belong. The party motored out from Chicago.

A number of children from Highland Park will attend the Halloween party at the Girton school in Winnetka, on Friday evening.

THE ONE NEWSPAPER IN ITS OWN CLASS

(From "The Scoop," Chicago, of September 18, 1915.)

Admiration for The Christian Science Monitor is admiration for a newspaper, without reference to the sect (or church, or profession of belief and practice) with which its name connects it. That connection is nominal merely. One-quarter of a page in each issue is given to a doctrinal preaching, invariably well written, with never a word that could offend a non-believer. Excepting that small space, The Monitor is a newspaper in a class by itself. It prints all the news of all the world. That phrase as here applied means a great deal which to other newspapers is not included in the news domain.

This one widens that domain to include every department of life. It surveys mankind from China to Peru, and cleanly, sanely, gives you a daily record of all human affairs. Science, art, industry, literature, history, sports, humor, all the better things, come within its scope. It has only one touchstone—truth—for all things. Taken from day to day it is a safe and liberal educator. It is alert to novelty so far as novelty is decent. It never prints a questionable line. The polemic or propagandic work of the church that owns it is taken care of in other publications. The Monitor is anomalous in that it bears a sectarian title and is non-sectarian. Its editorial mind is broad and cool. The editorial page is a model all newspaper writers could study with profit to themselves and good to their public. It follows in spirit and letter the advice of St. Paul:

"Whatever things are true, whatsoever things are honest, whatsoever things are just, whatsoever things are pure, whatsoever things are lovely, whatsoever things are of good report; if there be any virtue, and if there be any praise, think on these things."

FAKED VENTRILOQUISM.

The Deception Made Possible by the Loud Speaking Telephone.

A great deal of ventriloquism is not ventriloquism at all. In fact, the modern wonder in this line of pleasant and deceptive art needs to have none of the old time ventriloquist's ability at all. He may—and often does—stand on the opposite side of the stage from his mannikin and puff a cigar gulf contentedly, to the amazement of the audience. The dummy answers with a ready line of repartee, delivered in stentorian tones. Nor is that all, for he turns and twists his head, waves his arms, kicks up his feet and otherwise acts in a very lifelike manner.

The secret of the dummy's voice is the loud speaking telephone and of his actions various electro magnets. As may be guessed, both are operated by some one off the stage. In order to produce all the desired effects the dummy figure is fitted inside with a loud speaking telephone receiver, with the horn or large mouthpiece pointing toward the audience. The receiver is connected with a special transmitter in an anteroom some distance away. An ordinary operator's breast transmitter is also concealed in the body of the dummy, so that whatever is said by the ventriloquist on the stage is transmitted to the operator in the anteroom, enabling him to speak for the dummy at the proper time—Argument.

WONDERS OF THE ALPS.

Changes Nature Wrought to Uplift Their Towering Peaks.

Nothing in the world's history is more impressive than the story of the Alps. Ten or twelve million years ago, possibly far more, a long unseen line of weakness, a crack of fissure in the earth's crust, stretched away from France eastward hundreds of miles. On this line followed huge volcanic outbursts.

Next ensued a vast slow subsidence, which went on through geologic epochs until where Mont Blanc now rises its summit 15,780 feet was a sea fringing an old continent. Large rivers emptied into it. Deposits of mud, sand, gravel were laid one on another as the sinking went on until the layers became 50,000 feet, nearly ten miles, thick.

Then at last commenced a great uplifting; the struggling subterranean forces raised a huge load. For ages this went on until the rocks, crumpled, crushed, contorted, rose above the waters and continued to rise, forming lines of mountain chains and making Switzerland a tableland.

Every hour since then rain and snow, river, glacier and avalanche have been sculpturing into peaks and carving into lakes and valleys that vast platform with its recent sedimentary covering and mineral wealth.

It Takes a Pile of Baking to satisfy our customers. It is wonderful how much of our bread, cake and pies people can eat and still want more. And many of our best customers are women who are first-class bakers themselves. But as long as they can get such excellent things here they wisely avoid the bother of home baking. That's a hint for you.
