I. C. S. TRAINING
BRINGS A BIG SALARY

Difference in training is what makes the difference in men's positions. The president of the company in his office, or the day laborer in the works—each finds his own proper place according to the training he has acquired. Put the trained man down and he is sure to rise to a bigger place—put the untrained man in a good job and he is just as certain to fall down.

Training bridges the gap between the chief and his helpers—training makes men equal. If you have the training you can rise to any position you desire. Employers are quick to recognize the ability that comes from right training—and to pay big money for it.

In every business the trained man is given a prominent position, while the untrained man is laid off at the first sign of a slack season. The trained man gains promotion after promotion—the untrained man's place can very easily be filled at any time by "any old kind" of man.

You can fit yourself to become one of the big men in any occupation that appeals to you through the aid of the International Correspondence Schools. You need only to be able to read and write, and to be ambitious, to gain the proper training.

Every month more than 400 students write to the I. C. S. to tell how they have bettered their positions and increased their salaries through I. C. S. training. **You can do the same.**

It doesn't matter what kind of work you are doing, or how little spare time you have, or how little you earn, the I. C. S. will come to you, right in your own home, and aid you to rise to a better position with bigger pay.

The fall classes are now being formed which affords a limited number only, an opportunity to save considerable on their courses. The special offer to just a few—Be sure to call early at the window display at Lencioni's Confection, corner St. Johns and Central Avenues to get this special rate. The expert in charge will gladly give you detailed information about the successes along any line thru the I. C. S. method. If you can't come to the window display mark and mail the coupon NOW.

WHAT POSITION DO YOU WANT?

International Correspondence Schools, Scranton, Pa.
 Please explain, without further obligation on my part, how I can qualify for a larger salary in the position, trade, or profession, or gain a knowledge of the subject, before which I have marked X.

"Rockwood Park," created by Adolf F. Meisner at 1432-34 N. Talman Avenue, one and one-half blocks south of North Avenue, Chicago, is indeed a wonderland. It is certainly the most remarkable and artistically arranged city lot, and the public should take advantage and visit this "Country Home in a City." The Chicago Plan Commission shows several stereopticon slides in its lectures and highly recommends its builder for his unique work. Noted landscape gardeners admire the place and are surprised over his fine arrangement to bring out the scenes.
