An Eccentric Bishop.  
Bishop Wilson of Calcutta had as  
housekeeper a venerable lady who re-  
membered the duel between Sir Philip  
Francis and Warren Hastings on Aug.  
17, 1780. On entering the cathedral on  
a Sunday morning, fully robed, lawn  
sleeves and all, and passing the pew  
where the old lady sat he would pause  
and give her the "kiss of peace" before  
all the congregation, and this although  
he had met her at breakfast.

His sermons, too, were racy. Preach-  
ing against dishonesty, especially in  
horseflesh, as one of the great English  
fallings in India, he went on, "Nor are  
we, servants of the altar, free from  
yielding to this temptation." Pointing  
to the occupant of the reading desk be-  
low him: "There is my dear and ven-  
erable brother, the archdeacon, down  
there. He is an instance of it. He  
once sold me a horse. It was unsound.  
'I was a stranger, and he took me  
in.'"

**Golf Defined.**  
On the terrace of a country club a  
group of nongolfers were talking tea.  
A male nongolfer said thoughtfully:  
"Golf might be defined as billiards  
gone to grass."  
"Spleen on the green, I'd call it,"  
said a female nongolfer.  
"Or the last flicker in the dying fire  
of athletics," sneered a young football  
player.  
"The misuse of land and language,"  
suggested a tennis champion.  
"No, no; you're all wrong," said a  
famous angler. "Golf is simply a game  
wherein the ball lies badly and the  
player well."—Washington Post.

**What the Simplex will Iron**

The Simplex will iron 80 per cent of the family ironing—anything plain or flat—  
all the heavy pieces that take so much time and strength. It will take care of  
Table Cloths, Napkins, Center Pieces, Doilies, Dresser Scarfs, Curtains, Sheets,  
Bed Spreads, Pillow Slips, Blankets, Towels, Night Dresses, Pajamas, Hosiery, Child-  
ren's Rompers, etc. Some articles, such as Petticoats, can often be partly ironed  
with the Simplex and the ruffles done by hand. This means a great saving.

**Where it Saves**

An ironing that takes you half a day or so by hand, the "Simplex" does easily  
in one hour.  
The "Simplex" costs only two cents an hour to heat by gas. It requires much  
less heat per hour than ordinary irons and always maintains a uniform, evenly dis-  
tributed heat which does not make the room uncomfortably warm.

**TO BUILD FIVE NEW HOUSES**

O. A. Lewis & Co. Plans Improvement  
of New Subdivision on Waukegan Ave.

O. A. Lewis & Co., have designed  
and are about to commence the con-  
struction of five two story homes of  
the "Lewis Expanding House" type,  
in their subdivision at Waukegan  
Avenue and Orchard Street. The  
houses will be originally built of four  
rooms and by an ingenious arrange-  
ment, the owner can afterwards add  
first two rooms in the second stage  
of construction and then add three  
or four more rooms at the third stage  
of construction. These additions  
through the careful arrangement of  
doors and windows can be added to  
the house without interference with  
or wrecking any part of the original  
buildings, thereby enabling a man  
whose house begins to get too small  
for him, to add to it with a minimum  
cost of labor and material. The new  
additions to the house serve rather  
to detract from its appearance and if  
these houses meet with approval in  
Highland Park, O. A. Lewis says that  
he will probably build five or ten  
more during this season. All the  
buildings will have concrete base-  
ments, modern plumbing and will be  
lighted by electricity.

**Ship of the Desert.**  
For safety and endurance in travel-  
ing in desert regions the camel has  
been found unequaled by any other ani-  
mal. Its foot is a soft cushion, pecu-  
liarly well adapted to the stones and  
gravel over which it is constantly walk-  
ing. During a single journey through  
the Sahara horses have worn out three  
sets of shoes, while the feet of the  
camel, traveling over the same course,  
were not even sore.

**Not Grasping.**  
"What a grasping fellow you are,  
Hawkins! You've bothered me about  
this bill fifty times in ten days."  
"You wrong me, Jarley. I'm not  
grasping. I've bothered you about the  
bill. I admit, but I haven't been able  
to grasp anything yet."

**Cholera.**  
Cholera was first recognized by the  
Portuguese in India as far back as  
the middle of the sixteenth century.  
It has the peculiarity of following a  
well defined route, with progress just  
equal to that of an average journey  
on foot.
