Highland Park's Population 7000

Maybe you have noticed the little announcement in last week's issue of The Press about the official census of Highland Park--7,000 inhabitants-- that is remarkable to say the least, not that we are anxious of becoming a Waukegan or Kenosha, but the increase of 2000 souls in 6 years proves more than anything that Highland Park is the most desirable suburb along the North Shore.

It proves that we are going ahead, full steam, our Lake Shore, beautiful Ravines, Skokie and all we are blessed with in making our town ideal to live and enjoy life in, to build a home and to bring up a family in are being appreciated.

Highland Park is leading and setting an example to other towns, with its 40 miles of improved roads, excellent schools, Moraine Hotel, Ravinia Park, Exmoor Club, splendid train service, Sheridan road, its bridges, modern stores and well kept up business section, all these appeal to those who are in search of an ideal place to build their homes, but every bit as important are the Home-grounds of our good town.

It is the Grounds around the Home which attract the visitor as much if not more so than the Home itself-- have you ever stopped in front of such a Homeground? The house nestled among the Trees, groups of Shrubs along the edge of a spacious Lawn, the flower border along side of the winding walk, through the Vine-covered Arbor just a glimpse at the Rustic Seat, away in the distance across the Ravine the little formal Garden with the Sundial, the birdhouses in the trees and every one occupied, the Evergreens and the Fountain. Some one dwells here, every bit as happy as the surroundings-- its always that way-- the cheerfulness of a place starts from its owner.

Highland Park has a whole lot of just such grounds, they dif-

fer in size from the 50 foot lot to the 20 acre estate, and almost every one is growing more beautiful with each year. More and more attention is paid to them, more window and porch Flower-boxes, more beautiful shrubs, Trees and Evergreens are planted each season--we keep on going ahead and we will keep on inviting others to join us in order to make our Town still more charming.

Now how about you and your grounds? Are you satisfied with them? You can't be if you are progressive, there is room for improvement on all sides, nothing more fascinating, enjoyable nor interesting than getting real busy outdoors, among the things which grow which thrive and develop under your care--are you ready to do something to beautify your Home surroundings, to improve them and make them more attractive?

Maybe you would like a little help, suggestions for laying out your flower or Shrub borders, getting your Lawn into shape, your driveway needs repairing, maybe that you want a sketch for a Rose Garden, Swimming pool, water garden, a Fountain or a Plan for remodeling your entire grounds, a design for a concrete or stone bridge, a tea or summer house or pergola effect. Maybe you would like to get ideas on how to lay out a formal garden, a winding path with stepping stones, a suitable entrance planting for your grounds-- if so call on us.

We are here to assist you in everything pertaining to outdoor work on your grounds, whether it is for a 5c package of Marygold seed or a \$5,000 contract. It doesn't cost you a anything to call us up. Whenever you are in doubt is the time to consult us, your interest is our interest, we are here to beautify the Home grounds and get as much pleasure out of it as our patrons do.

FRITZ BAHR

Is your drive in poor shape, let us tell you just what to do. Why not ask us about your Lawn? We carry everything in Seeds and Fertilizer, Bulbs, Shrubs or Hardy Plants. Store and office right next door to the Postoffice. Take a look at the Windows the next time you go for mail.
