LINCOLN SCHOOL

Tonight the seventh and eighth grades will give their illustrated talk on "Yellowstone Park." The proceeds of admission will go toward purchasing lantern slides for the school. The spring vacation takes place next week.

It's a comparatively new idea in domestic architecture, born in the United States and come to stay. Yet,

The scheme of the Living Room is best worked out when Electric Light is used, because the lighting effects essential can then be fully realized.

This is due to the Flexibility of Electric Light—a quality that adapts it to any condition. You can have light where you want it and in the quantity you want it.

Any old house not provided with Electric Light can easily be equipped for it. We do the work.
