

THOUGHTS of SPRING

WITH the appearance of the first robin as a messenger of spring you are sure to meet Bahr's experienced gardeners on our streets going somewhere to make things attractive. They are helping nature to clean house; fertilizing and seeding the lawn and rolling it so as to prepare for a green velvety carpet all summer; here they get ready for planting Larkspur, Poppies and Shasta Daisies to cheer and brighten up the walls of green created by the shrub borders; and there, to get busy with those majestic native oaks or elms which form such wonderful contrast against the ceiling formed by the sky they need pruning and spraying to encourage a healthy growth and perfect foliage to walk under this summer. We have been at this for over thirty years, planning and planting. Twenty years ago the old man by himself with a wheelbarrow, a spade, a rake, a light lunch, and brimful of confidence in the good things which were going to happen. Today there are over forty of us and busier

than ever, experienced men and every order, no matter how small, receives our personal attention. *Next to Yourself it is Us who take the Greatest Pride in Your Grounds* for it is of vital interest to us and if there is anything wrong with your grounds both of us are to blame. Let's avoid it, let's get together talk matters over and get busy, clean up, feed the lawn, seed down the bare and weak spots, get the drive into shape, plant hardy flowering plants, evergreens, cut out shrubs in one place and plant others somewhere else; there is no finish to any of that work, that's what makes it so interesting. The owner of a home ground today, isn't satisfied with the way things were kept up years ago, he demands the best, his lawn, walks, driveways, shrubs and flower borders are kept up to correspond with the best room in the house.

The Beauty of the Home Should start at the Gate

isn't this true? Well then, why don't you call up 85 for seasonable suggestions—absolutely "no charge for that". If you and the hired man want to do the work, go ahead, let us furnish fertilizer and seed and perhaps some plants and if you have them already let's give you helpful hints, free. Any way to help along to make our home town just a little more attractive than it was last year.
