D. L. & W. Scranton
Anthracite Coal Pittston
Prices on Anthracite Coal for the month of May will be as follows:
Large Egg.....\$8.35 per ton
Small Egg.....8.60 per ton
Range.....8.60 per ton
Chestnut.....8.85 per ton
Pea.....7.60 per ton
Chicago Solvay Coke, "The Fuel without a fault."
Egg and Stove size—for furnaces and boilers.....\$6.85 per ton
Nut size—for stoves and water heaters.....6.85 per ton
There will be an advance of 10c per ton on these prices on the first of each
month from June 1st to September 1st, making prices next fall and winter 40c per
ton higher than above.
Owing to the delay in getting the prices there has not been so much Coal taken
in so far this spring as there was up to the same time last spring and consequently
there will be more Coal that will have to be handled next fall if everyone waits until
then, which with usual car shortage which there always is in the fall will make Coal
hard to get forward.

Makers of dainty lingerie for women and of
fine shirts for men often have a particular

ably it is one that uses
Electric Irons
Because in them the heat comes and goes at
your will and therefore the degree of it is
practically controllable. Injury to the fabric,
scorching or burning can be accomplished
only by deliberate carelessness.
It's a Safe Rule
that a device tested out accepted in a large
mechanical plant is a good thing for the
house if the latter's requirements demand it.
And all houses need the Electric Iron.
It banishes the hot stove as a part of
the operation, likewise the oppressive
atmosphere of the laundry, for it can be
used in any room or on the back porch.
It saves many steps and much energy.
It save time and it costs very little for
the electricity to operate it.
For corroboration, ask your nearest
neighbor who owns an Electric Iron.
