

Banking At Home

A recent census gives Highland Park a population of 6932. Three banks are established here, one private and two state institutions. Few communities enjoy such adequate banking facilities and there is every reason why the people of this community should do their banking at home. About 3000 loyal Highland Parkers carry accounts with us. We extend a welcome and offer our service to 3000 more.

HIGHLAND PARK HOSPITAL

(Continued from Page 1)

by the roadside for the care of people who may be injured in parades, picnics or other large gatherings. An Emergency Hospital is not what Highland Park needs and certainly is not what Highland Park wants. What we need here is not a shack or a tent but a permanent hospital established on the most approved lines and providing opportunity for our people to send those in need of care to their own home hospital rather than to risk the long trip to Evanston or Chicago. Instances could be quoted of lives that have been sacrificed in the course of a trip from Glencoe to Evanston. It is because of this great and grave need of a hospital right here in Highland Park that the business men who are back of this movement are giving their time and their best efforts towards making this project a success. Highland Park deserves the best and wants the best for its people. We will not be content to take second place. Also, we want to build our own hospital, and we want to pay for it ourselves. One man, a multi-millionaire, who could well afford to do so, said to me: "Mayor Hastings, I could give Highland Park its hospital but I think I would be doing Highland Park an injustice by so doing. I think the hospital is a civic need and one in which the people will take a far greater interest if they help build it, than they would if some summer resident subscribed the entire amount necessary." I know that the public wants to help in this project, and never a day passes but I meet someone who says, "When you are ready for the hospital, Mayor Hastings, send someone around and I'll have some money ready for you."

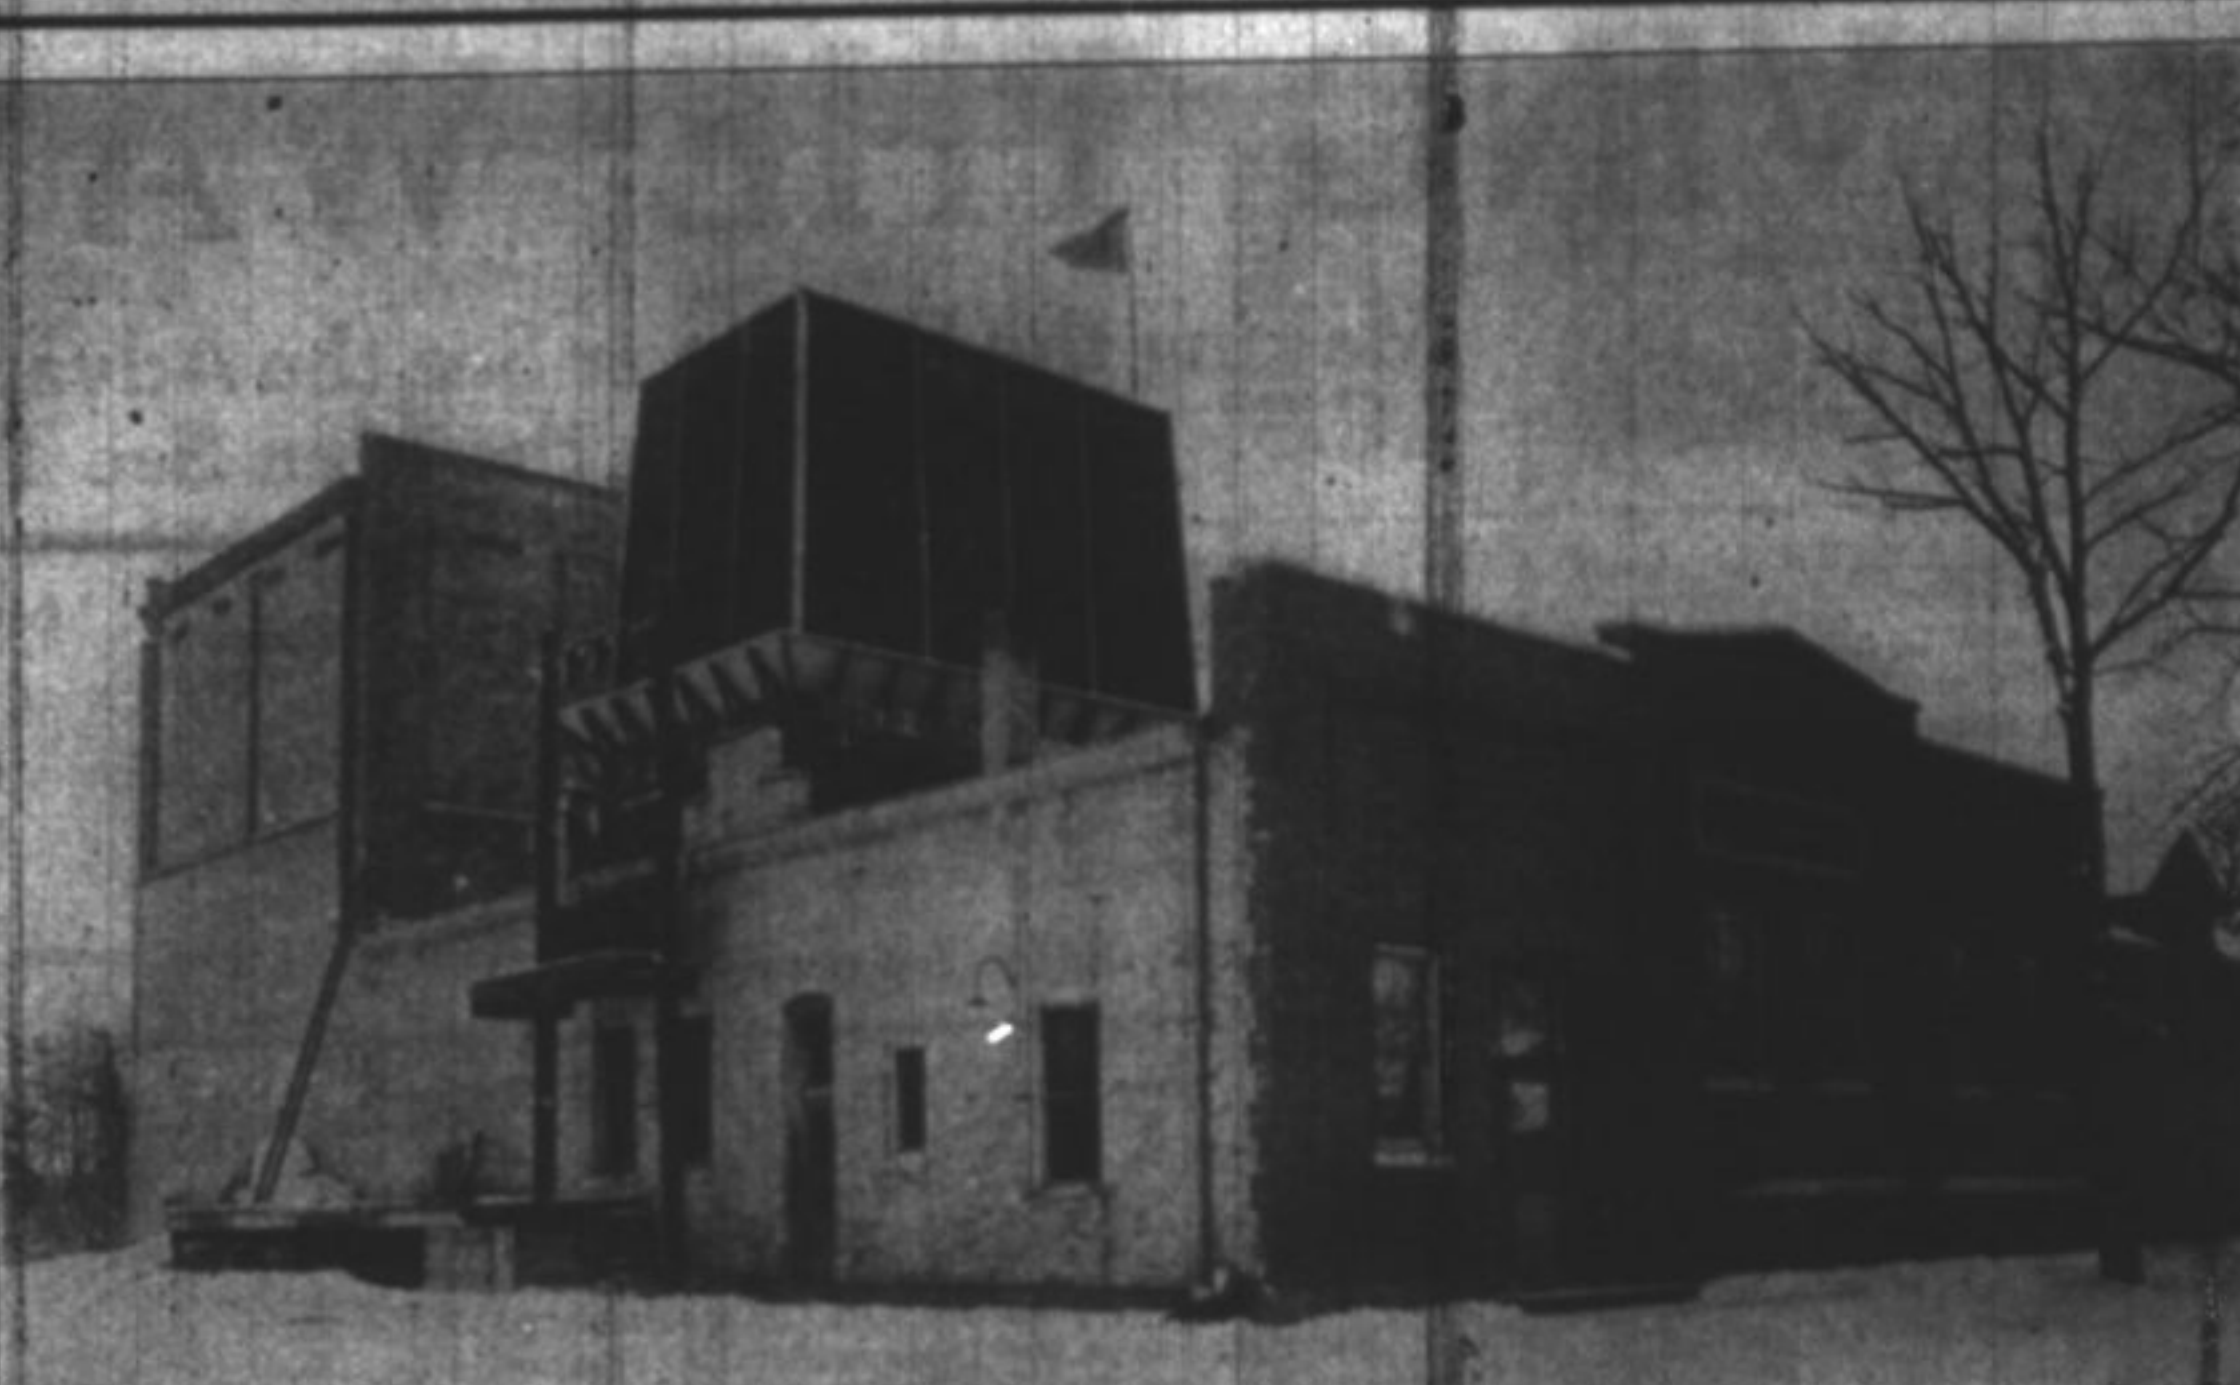

"As for the surgeons from out of town coming here to operate! Why, of course they will come to Highland Park to operate. No matter how great or how eminent a surgeon may be, it is always a compliment to him to be asked to journey to another town for the purpose of performing an operation. He knows it is because he is especially gifted in his own particular field, that he is called upon by out of town people, and it is a high compliment that we pay to any out of town surgeon when we ask him to come to our city to operate. Someone has said that even if surgeons do come to operate that they would not come here also to care for their patients afterward; to which I can reply that the surgeon when he finishes with his operation has practically finished his work, except for giving instructions as to the treatment and care of the patient, which instructions are carried out by the family physician. Besides that, we must not lose sight of the fact that right here in our midst we have surgeons and physicians whose skill is so great that they are being called constantly to Chicago, Evanston and other cities to operate in the large hospitals.

"The charity question is one that is being brought up. I know of no more independent community anywhere than Highland Park. There are few here who will accept anything that they cannot pay for, at least in part. We will find that the great majority of our patients are full pay patients. We know in some instances there are likely to be those who can only pay a very small amount or perhaps who cannot pay at all. Surely no one will object to their being received, in fact, they will be received even if it means that the amount of their expenses is personally made up by other persons."

Mayor Hastings paid a high tribute to the work of the physicians of Highland Park in his acknowledgment of the willingness with which they answer calls in all cases whether they know the patient can pay or not. "Our physicians here very seriously regard it as their duty to save lives. In our hospital we will not stop to ask the creed of any sufferer and our physicians do not now stop to ask whether the patient can pay or not. They have given and are giving willingly of their time, their best efforts and service for the people of Highland Park, rich and poor, and I am glad indeed to be able to pay this slight public tribute to their generosity and self-sacrifice."

Mayor Hastings' talk was followed by an open discussion in which a number of excellent sites were suggested by those present. It was suggested that any other residents of Highland Park who have in mind sites that would prove especially excellent for the hospital, will write these suggestions on a postal card, either signed or unsigned as they prefer, and send them to Mayor Hastings at No. 8 Sheridan Block. Every suggestion received will be carefully considered.

Mrs. Carqueville requests that all organizations, church societies and churches that have not sent in their committees will kindly mail them to her at the earliest possible moment.

Gentlemen:
The sample of water which you submitted, to us for analysis taken from our Water Purifier and Filter showed that it contained four grains of lime per United States gallon. The mud, silica, organic matter and bacteria was all removed, that the water is absolutely pure and is ice that you are making is better than any that is made in the city of Chicago or any suburban town.

Very truly yours,
The Greer Chemical Co.

The Epworth League will begin an efficiency contest this Sunday, which will last until the end of August. Different features of Epworth League work will count as points in the contest. Attendance, punctuality, interest and help are all to be considered in the contest.

Elm Place School Notes

The financial report of the school picnic is: Balance on hand after all expenses were met, \$93.42, this is \$9.60 more than last year's picnic made. The fund is for the school playground. The committee in charge was fortunate in getting supplies at a reduced rate, and was ably assisted by a number of the mothers and the boys. Messrs. Beck, Sweetland and Geiser furnished the supplies. Six hundred and fifty lunches were prepared and served.
