Dancing followed the pictures and refreshments were served by the social committee. A considerable sum was added to the fund for the improvement of the school grounds.

Long Distance Service in Emergencies

A MEMBER of a family in the South was taken seriously ill and it was desired to have a nurse from an Eastern city take charge of the case.

At six o'clock Friday evening a long distance telephone call revealed that the nurse had gone to another city in the East many miles away.

A second long distance call engaged the nurse while a third call made a Pullman reservation for her on a midnight train so that she reached the patient's side early Sunday morning.

It is the universality of the Bell System, coupled with the efficiency of its employes that makes such emergency service possible.
