

A Timely Warning

ELEVEN well-known automobiles have advanced in price within the last ninety days.

The Maxwell Company has not increased their prices. We do not know what their plans are, but we do know *and you know* that materials entering into the construction of good automobiles now cost from 20 to 300 per cent more than they did six months ago.

Nothing is to be gained by delay. Much may be lost.

Not only may you lose several dollars in the purchase price, but you are sacrificing the enjoyment, the relaxation, the health-giving properties—everything, in fact, that makes motoring the favorite pastime of the nation.

We urge you to come in and investigate the Maxwell.

Or, we will refer you to any number of Maxwell owners and let them tell you their own story in their own way.

They will tell you what they have told us. That the Maxwell is good-looking—that it is powerful—that it is comfortable—that it is economical—in short, that it is the best investment they ever made. They will tell you more and they will tell you gladly and freely.

That's the way they feel toward us and the Maxwell Car

Whatever you do, don't put this off. We have a few cars on hand and can take orders for immediate or future delivery—at present prices. If you can't come in today, phone us for a Maxwell demonstration.
