**Guaranteed Tire Vulcanizing**  
It Pays, Mr. Owner  
Reasonable attention to your tires will often double the mileage ordinarily received. Cuts, blow-outs, fabric breaks, stone bruises, if not repaired promptly, gradually get more serious and have but one ultimate result—costing more to fix and requiring the inner tube to be repaired as well. One day of prompt attention will eliminate weeks of expense and trouble.  
Satisfaction or your money back.

**ELECTING A PRESIDENT**  
George Washington Elected First President in 1789.

**WASHINGTON.**  
THE first presidents were chosen by electors who were chosen by the legislatures of the various states. The person having the majority of these electors was declared president. The person having the next greatest number was declared vice president.  
The first election took place on Jan. 7, 1789, in the states that had ratified the constitution. The electors chose the president on Feb. 4, 1789. The vote, counted on April 6, 1789, was:  
George Washington, 69; John Adams, 34; Samuel Huntington, 2; John Jay, 9; John Hancock, 6; R. H. Harrison, 6; George Clinton, 3; John Rutledge, 6; John Milton, 2; James Armstrong, 1; Edward Telfair, 1; Benjamin Lincoln, 1. Ten states voted, but there is no record of the popular vote.  
In the election of 1792 Washington received 132 votes and Adams 77.  
(Watch for the election of Adams in 1796 in our next issue.)

**Burial Customs of the Hittites.**  
Although the tombs of the necropolis had been rifled at an early date, a great deal that is new was learned about the burial customs of the Hittites. Graceful vases, simple in design and undecorated, held the ashes of the cremated body, together with any trinkets the person was wearing at the time of death. A small vase about a foot high was inclosed in a footed vessel of cylindrical shape, which was beautifully decorated in patterns like those of Crete and Cyprus. Around the middle vessel were grouped various dishes containing burial gifts or oil, most of them plain, but some of beautiful shape and as thin as modern china, though unglazed. It can well be seen that these vessels would protect the ashes from dampness from below, but as both were open at the top there was a large cover, like an enormous bowl, interposed over the other two vessels.—Christian Herald.

**"SPEED UP!"**  
to 60 minutes an hour by taking the "grind" out of typeuriting!

**AND smile!** For here at last is the master machine that makes it easy for any stenographer to turn out MORE letters with LESS effort in the ordinary working day. The new Royal Master-Model "10" speeds up the day's work and sets the pace that pays!

**Built for "Big Business" and its Great Army of Expert Operators**  
These new features of the Royal add to the sensitive fingers of the typist, the one vital thing that the old-style typewriter subtracts—**speed!**  
The speed with brains behind it—the all-day speed of the expert typist in the day's work. **Errorless speed is the kind of speed that counts.** Common sense has punctured the illusion of the other kind.

**Get the Facts!**  
Send for the "Royal man" and ask for a DEMONSTRATION. Or write us direct for our new brochure, "Better Service," and book of facts on Touch Typing—sent free to typewriter users.
