Guaranteed Tire Vulcanizing

It Pays, Mr. Owner
Reasonable attention to your tires will often double the mileage ordinarily received. Cuts, blow-outs, fabric breaks, stone bruises, if not repaired promptly, gradually get more serious and have but one ultimate result—costing more to fix and requiring the inner tube to be repaired as well. One day of prompt attention will eliminate weeks of expense and trouble.

TELEGRAPH WITH LIGHTS.

Battleships Can Send Signals Twelve Miles in Daylight.
Although searchlight signaling between battleships was a means of communication at sea long before the introduction of wireless telegraphy, it is still utilized.

Oil Wells in the Ocean.
One of the most novel and interesting sights along the California coast, especially to tourists, are the oil wells in the ocean at Summerfield, southern Santa Barbara county. Long wharfs carry the scores of derricks which mark the location of these unique wells. The field is small, covering about 125 acres.—Argonaut.

No Game.
Pat and I were watching a game of chess. Suddenly I turned to him. "Have you the time?" I asked, glancing at his watch pocket. "Sure," replied Pat. "I have the time, but not the inclination."—Princeton Tiger.

Sometimes.
Willis—What is it called when two people are thinking of the same thing at the same time—mental telepathy? Gilla—Sometimes; other times just plain embarrassment.—Judge.

Couldn't Get at Him.

Grubbs—Young Blower tells me that at the trial of the last case in which he participated he moved the jurors to tears. Stubbs—Yes, so one of the jurors told me. He said that they were bawled in by a high railing and two ballifs were constantly on guard. The tears were tears of rage.—Richmond Times-Dispatch.

How it Was.
Landlady (sympathetically)—Why, how did you fall downstairs, Mr. Lanks? Boarder (with dignity)—Unexpectedly, ma'am.—Pall Mall Gazette.
