Guaranteed Tire Vulcanizing WILL IT PAY?

It Pays, Mr. Owner

Reasonable attention to your tires will often double the milage ordinarily received. Cuts, blowouts, fabric breaks, stone bruises, if not repaired promptly, gradually get more serious and have but one ultmate result—costing more to fix and requiring the inner tube to be repaired as well. One day of prompt attention will eliminate weeks of expense and trouble.

Satisfaction or your money back.

LECTURE ON CHRISTIAN SCIENCE

(Continued from page 6)

never waken from a fact! The night of materialism has been long, and the sleep has been deep and troubled; but thanks be to God, we are slowly awakening! At least, the dream is losing for us its terror,. and, hearing the voice of Truth cheerily bidding us to be not afraid, and to judge not according to the appearance, we are anabled more and more to look past the shadows, past the seeming, to the kingdom of Mind, where all is harmony and all is law.

You are not asked to take the word of Christian Scientists for all this. You are urged rather to take the text-book, and study it with open heart and teachable thought, and prove for yourself the truth of these statements.

Disease More Than Imagination

In teaching mortals to look beyond the material appearance and anchor their thought in the great truth that God's creation is good, Christian Science by no means lightly proclaims to one in the clutch of adversity that he only imagines that he is in trouble. At this point it might be interesting to hear what Science and Health has to say on this subject. We read: "Sickness is neither imaginary nor unreal, —that is, to the frightened, false sense of the patient. Sickness is more than fancy; it is solid conviction. It is therefore to be dealt with through right apprehension of the truth of being" (p. 460).

The use of the word imagination in connection with the ills of the average mortal is as open to question as it was in the case of a small boy whose mother discovered him at the top of a step-ladder, suspiciously near the shelf whereon reposed his favorite conserve. "Well, mother," said he pleasantly, in an heroic effort to make the best of the situation, "I *imagine* you want me to come down." The mother, however, didn't imagine anything about it; she knew. And with equal fervor the sick man will assure you that he *knows* that he is sick. And therein lies his trouble. When through the understanding of Christian Science he learns to *know* that man in God's image is whole and harmonious, he will find to his delight that the sense of disease and discord which has seemed so real and so true has lessened, and will ultimately disappear.

Evil Unreal

The following illustration may help to throw more light on the Christian Scientist's attitude toward sin and disease. Before studying Christian Science, and while a member of an orthodox church, I was asked by a friend to "use my religion" as he expressed it, in the effort to reclaim a brother seemingly enslaved by drink. I accepted the commission, and proceeded to "use my religion." I found my subject in a most repentant mood, and he agreed almost tearfully with my ringing condemnation of his evil ways. I asked him if he did not realize the depths to which he had fallen, how wicked he was, and how terrible was that evil power to which he had submitted. Yes, he realized it all, but evil had been made so real and so powerful to him that even the hope of divine deliverance, with which I finally endeavored to inspire him, was of no avail, and he sank even deeper in the mire of sin.

Let us now consider another picture: A slave to a false appetite is brought to one endeavoring to be a scientific Christian, or a Christian Scientist. The Scientist sees before him no bad man, no perpetrator of sin, but a victim of sin. He sees behind the fleshly appearance the man of God's creating, who is not a sinner, who has no pleasure in sin and no sinful desires, but who is eternally pure and free. He therefore bids the sufferer to awaken from this mesmerism. He shows him that the bondage which to him has seemed real and powerful, is a lie; for, as Jesus said, there is no truth in the devil, or evil; and he is assured that God has given man dominion over all error. And in thousands upon thousands of cases where these good tidings have been preached, have the victims of wrong desire risen in the glory of a new-found manhood. And through the same process, in numberless instances, has the sick man been awakened from his nightmare of invalidism and pain. Thus Christian Science does not teach the ignoring of sin and disease, but by revealing their unreality, heals them.

God's Word Never Fails

"But," say you, "Christian Science treatment is not always effectual." Ah, but it is, it is! A Christian Science treatment consists of thinking God's thoughts, seeing creation as God sees it; and a God-invested thought never fails! Suppose you are confronted with the task of breaking a great rock. You seize a hammer and vigorously start your work. Blow after blow descends, and you note with some discouragement that even the surface of the rock has not been cracked. A friend comes to your assistance. He hammers sturdily, but apparently makes no headway. Again you are led to resume the work, and keeping steadily at it you at last see the rock reduced to small pieces. Which blow did it? The last? No, every one of them did the work. Not one was wasted, not one failed.

The work of Christian Science is the work of eternity. It is spiritual education. During this process of education some students pass from our sight. Did God's' word fail? Were the blows of truth on the rock of error in vain? No, a thousand times no! Ask those who fought side by side with them in the battle. They will tell you of the victories won, of the peace realized, of the pain subdued, and the attainment of that spiritual vision of Life eternal which enabled them all to say, "O death, where is thy sting? O grave, where is thy victory?" Mrs. Eddy writes in Science and Health (p. 348):

"I have never supposed the world would immediately witness the full fruitage of Christian Science, or that sin, disease, and death would not be believed for an indefinite time; but this I do aver, that, as a result of teaching Christian Science, ethics and temperance have received an impulse, health has been restored, and longevity increased. If such are the present fruits, what will the harvest be, when this Science is more generally understood?"

The Reward of Patient Persistence

Some one may say: "I have worked and studied, but my healing seems so slow." Yes, some rocks are harder to break than others, and much patience and perseverance are necessary in a majority of cases in order to win the day. But oh, my friends, what dividends are paid in return for an earnest, patient seeking after Truth! How self is subdued and universal love enthroned! How much purer becomes desire, how much dearer the goal of spiritual sense! "Let us not be weary in well doing," explained the apostle Paul, "for in due season we shall reap, if we faint not."

Let us attack our problems each day as though we had never seen them before, putting behind us the memories of yesterday's struggle. Let us realize that as our understanding of Science grows, we are able to speak to evil with more and more authority, and consequently day by day are being equipped to be more efficient Christian warriors. Let us claim the joy and peace which is your heritage and mine, today and here and now! Let us not be unmindful of the stupendous fact that Christian Science, in teaching the divinity of the Christ, teaches the divinity of man! Beloved, now are we the sons of God."

Conclusion

You who are bowed down with sorrow or disease, with failure, poverty, or sin, take away with you tonight this message: You are God's beloved child! You have dominion over evil! You are not a member of the sinning race of Adam! You have been victimized by the lying arguments of the carnal mind, by the false education of generations!

Hear these ringing truths from the text-book (p. 227):

"Christian Science raises 'he standard of liberty and cries: 'Follow me! Escape from the bondage of sickness, sin, and death!' Jesus marked out the way. Citizens of the world, accept the 'glorious liberty of the children of God,' and be free! This is your divine right. The illusion of material sense, not divine law, has bound you, entangled your free limbs, crippled your capacities, enfeebled your body, and defaced the tablet of your being.'

And the whole message of Christian Science may be found in these two verses from our Hymnal:

God made all His creatures free;
Life itself is liberty;
God ordained no other bands
Than united hearts and hands.

So shall all our slavery cease,
All God's children dwell in peace,
And the new-born earth record
Love, and Love alone, is Lord.
(Christian Science Hymnal, p. 159).

Special Assessment Notice No. 228

Notice is hereby given to all persons interested that the City Council of the City of Highland Park, County of Lake and State of Illinois, having ordered that an eight (8) inch sanitary sewer with manholes, connections and branch "Y"s, located and laid in, along, and under Cedar Avenue and Wade Street as follows: Beginning at a point in Cedar Avenue fifteen (15) feet south of the north line thereof in the line between lots one (1) and two (2) in block eighty-seven (87), produced northerly, extending easterly in a straight line to a point fifteen (15) feet south of the northerly line of Cedar Avenue, and twenty-one (21) feet east of the west line of Wade Street thence on a line extending easterly in a straight line a distance of three hundred and ninety (390) feet to and connecting with the existing ten (10) inch sanitary sewer now in the ravine east of Wade Street, at a point fifteen (15) feet south of the north line of said Cedar Avenue, and beginning at a point thirty (30) feet north of the north line of lot seven (7), block seventy-nine (79) in the City of Highland Park, and twenty-one (21) feet east of the west line of Wade Street, thence south parallel to the west line of Wade Street, a distance of three hundred and fifty (350) feet to and connecting with the aforesaid eight (8) inch sewer to be laid in Cedar Avenue, the ordinance for the same being on file in the office of the City Clerk of said City and having applied to the County Court of Lake County for an assessment of the costs of said improvement according to benefits, and an assessment thereof having been made and returned to said court, the final hearing thereon will be had on the 2nd day of October, A. D. 1916, or as soon thereafter as the business of the court will permit.

Said assessment is payable in five installments, with interest at the rate of five (5) per centum per annum on all installments from and after date of issue of first voucher. All persons desiring may file objections in said court before said day and may appear on the hearing and make their defense.

THOMAS MORTON,
Officer appointed to make said assessment.

Dated at Highland Park, Illinois, Sept. 14th, 1916. (29-30)

Special Assessment Notice No. 229

Notice is hereby given to all persons interested that the City Council of the City of Highland Park, County of Lake and State of Illinois having ordered that a cast iron lateral main water supply pipe, with fire hydrants, special casting and shut-off valves, be constructed and laid in, along and under St. Johns Avenue from the south end of the present water main at the intersection of St. Johns Avenue and Beech Street and extending from thence south parallel with the easterly line of St. Johns Avenue and twenty-one (21) feet westerly therefrom for a distance of four hundred and seventy (470) feet to a point twenty (20) feet south of the north line of Cedar Avenue and for the construction of a cast iron lateral main water supply pipe four (4) inches internal diameter with fire hydrants, special castings and shut off valves, from the last above mentioned point, thence east in a line twenty-one (21) feet south of and parallel with the northerly line of Cedar Avenue for a distance of seven hundred (700) feet to and connecting with the existing six (6) inch water main now laid twenty-one (21) feet east of the easterly line of Wade Street, the ordinance for the same being on file in the office of the City Clerk of said city and having applied to the County Court of Lake County for an assessment of the costs of said improvement according to benefits, and an assessment thereof having been made and returned to said court, the final hearing thereon will be had on the second (2nd) day of October, A. D. 1916, or as soon thereafter as the business of the court will permit.

Said assessments is payable in four (4) installments, with interest at the rate of five (5) per centum per annum on all installments from and after date of issue of first voucher. All persons desiring may file objections in said court before said day and may appear on the hearing and make their defense.

THOMAS MORTON,
Officer appointed to make said assessment.

Dated at Highland Park, Ill., September 14th, A. D. 1916. (29-30)

Notice

Public notice is hereby given that the Board of Local Improvements of the City of Highland Park, County of Lake and State of Illinois, has filed in the County Court of Lake County, Illinois, a certificate that the following improvement has been completed, and that it conforms substantially to the requirements of the original ordinance for the construction of the same, to-wit:

For the construction of a cast iron lateral main water supply pipe six (6) inches internal diameter to be constructed and laid in, along and under St. Johns Avenue from and connecting with the present four (4) inch water main now laid in St. Johns Avenue and ending at a point in the line of the southerly line of Lot Nineteen (19), Block Seventy-five (75) of F. P. Hawkins' addition in the city of Highland Park, extended westerly across said street, and from thence extending southerly parallel with and twenty-six (26) feet west of the easterly line of St. Johns avenue for a distance of five hundred and fifty-two (552) feet at which point it shall connect with the existing six (6) inch water main, together with shut-off valves, fire hydrants and special castings, all in the city of Highland Park, Lake County, Illinois.

Highland Park special assessment of said Court Docket No. 225, and that application has been made to said court to consider and determine whether or not the facts stated in said certificate are true. That a hearing will be had upon said application on Saturday, the 30th day of September, A. D., 1916, at the hour of ten (10) o'clock in the forenoon of said day, at the County Court Room of said Court in the County Court House, at Waukegan, in said Lake County. Objections may be filed to said application on or before the hour of ten (10) o'clock in the forenoon of said day.

Special Assessment Notice
(Special Warrant No. 225)

Public notice is hereby given that the County Court of Lake County, Illinois, has rendered judgment for a special assessment upon property benefited by the following improvement: Constructing a cast iron lateral main water supply pipe six (6) inches internal diameter to be constructed and laid in, along and under St. Johns Avenue from and connecting with the present four (4) inch water main now laid in St. Johns Avenue and ending at a point in the line of the southerly line of lot nineteen (19) block seventy-five (75) of F. P. Hawkin's addition in the City of Highland Park, extended westerly across said street, and from thence extending southerly parallel with and twenty-six (26) feet west of the easterly line of St. Johns Avenue for a distance of five hundred and fifty-two (552) feet at which point it shall connect with the existing six (6) inch water main, together with shut-off valves, fire hydrants and special castings, all in the City of Highland Park, Lake County, Illinois, as will more fully appear from the certified copy of the judgment on file in my office. That the warrant for collection of such assessment is in the hands of the undersigned.

All persons interested are hereby notified to call and pay the amount assessed at the Collector's office, City Hall, corner Green Bay Road and Central Avenue, Highland Park, Illinois, within thirty days from the date thereof.

Notice is further given that the said assessment is divided into three (3) installments. That the amount of the first installment is $223.00 and that each of the remaining installments is $200.00. That all installments draw interest at the rate of five per cent per annum from August 18th, 1916. The first installment is payable on the 2nd day of January, A. D., 1917. The second installment one year thereafter and so on annually until all installments are paid.

FRED RUBLY,
City Collector.

Dated at Highland Park this 14th day of Sept. A. D. 1916. 29
