What is Pasteurized Milk?

Pasteurized Milk is Good Clean Milk heated to approximately 145 degrees Fahrenheit and held at that temperature for 30 minutes, then cooled suddenly.

This process in no way destroys the nutritive value of the Milk. It does however, destroy harmful germ life that Milk may contain.

We say "may" because there is always a chance that Milk "may" contain harmful bacteria no matter how carefully handled before it reaches us. So to Safeguard you we Perfectly Pasteurize it—then cool it—then automatically bottle and cap it. So it comes to you untouched by human hands.

Business Appointments

Can I see you at Three?

A TELEPHONE call paves the way for a personal business interview. It establishes your identity in advance, which is an advantage. It enables you to arrange for a definite appointment, thus avoiding the possibility of a long wait in the outer office.

The practice of making appointments in advance by Local or Long Distance telephone keeps your schedule of business calls running smoothly at all times.

A Dollar An Hour Instead of A Dollar A Day

Do you realize what this means to you and those depending on you?

Don't be satisfied with a small salary all your life—do as thousands have done; let the International Correspondence Schools show you how your pay can be increased. It matters not where you are, in the factory or in the shop, in the mine or in the mill, in the office or store, the I. C. S. can and will increase your earning capacity.

The I. C. S. imparts to you just the knowledge needed to advance you in your present position or to an occupation more to your liking.

A dollar an hour is not out of your reach, if you will only let us help you. It will cost you nothing to ask us—HOW? Simply send us the coupon below and it will bring to your aid all the resources of that great institution, the I. C. S., an establishment backed by a capital of six million dollars and founded and maintained for the benefit of poorly paid men and women. If you want your pay increased, say so—once.
