

Has He Kept Us Out of War?

"HE KEPT us out of war" is offered by the Democratic Party as a statement of a supreme accomplishment. That slogan is false. To accept it without thought or reason is dangerous to the life of the nation.

For months we have been conducting a border war with Mexico. At Vera Cruz we demanded that our flag be saluted. The demand was refused. We landed troops; a battle followed. **We withdrew without the salute, bringing nineteen of our dead with us and leaving our honor behind; and to this day the salute demanded has not been fired.**

The weakness of Mexico, not the strength of the United States, is all that has prevented our act of war from being turned into the serious fact of war.

If the slaughter of American citizens—men, women and children—by armed troops, if

the killing of American soldiers by the soldiers of another nation, if the sacking of our towns is not war, what is it?

The Truth is that it is more than war. It is war without honor and murder without reparation. **It is a condition that makes every true citizen ashamed of the spectacle we have become in the eyes of other nations.**

We have been at war; we are now at war; many lives have been lost; our honor has been besmirched, and yet the Democratic Party cries to the nation "He kept us out of war," "He has protected me and mine." The fact is that he has neglected our greatest treasures—the lives of our citizens and the honor of our country.

Just prior to the outbreak of the war there was forming a combination of European nations to demand of us that we stop the disorder in Mexico, to demand protection of the lives and vast property of European citizens in Mexico, to declare that these European nations would give protection by force of arms if we did not.

What would that have meant? It would have meant that we must adopt a determined policy to enforce

order in Mexico, which was the only duty consistent with the stewardship which we assumed under the Monroe Doctrine; or it would have meant war or the surrender of the Monroe Doctrine.

It was the accident of war in Europe which then prevented retribution for the policies of the administration in Mexico.

When the war is over those nations will again press their claims and we will face the consequences of the Wilson policy of watchful waiting.

Have we sunk so low that we can approve such a policy? Have we become so morally flabby that we will tolerate its continuance.

This administration has created war. It has created causes for future serious international friction.

Notes and words and shades of meaning born of rhetoric rather than straightforward patriotic sincerity, have marked the course of our relations with foreign nations.

Force of character, a fair and honorable course, would have closed the debate which facility of language kept open. Force of character would have stopped murder on the high sea.

Mr. Wilson is making war upon the moral fiber of this nation.
