The Reasons for the Club

- To provide a way for those of moderate and even small means to bank their money.
- To teach "the saving habit" to those who have never learned it.
- It makes your pennies, nickels and dimes, often foolishly spent grow into dollars; dollars grow into a fortune. Start your fortune today.
- To give you a Bank connection and show you how our Bank can be of service to you.

For Young and Old

The sensible thing for all parents to do is to join our Christmas Banking Club and also put every member of their family into it. This will teach them the value of money and how to bank and *Have Money*. Maybe this little start you give them now may some day set them up in business or buy them a home. How often have you wished that your parents had taught you early the value of banking your money. You would be well-off today. Don't make the same mistake with YOUR children

We pay **THREE** per cent interest in our Christmas Banking Club

VAST AREA OF TEXAS.

Some of the Magnificent Distances in the Lone Star State.

Those who live in the east and north have little or no conception of the magnificence of distances in Texas. Here are just a few figures that will help to illustrate the vastness of area of the Lone Star State.

The distance from Houston to El Paso by the nearest rail route is 833 miles, which is only 114 miles less than the distance from New York to Chicago, 947 miles.

It is 820 miles by rail from San Antonio to El Paso. This is 114 miles greater than the distance from Chicago to Pittsburgh.

The distance from Echo, Tex., the most eastern point on a direct railroad route, to El Paso, is 944 miles, or three miles less than the distance from New York to Chicago.

The distance from Brownsville, Tex., on the gulf coast, the easternmost point on the Texas-Mexican border, to El Paso, the western terminus of the border, is more than 1,200 miles. This is greater than the distance from New York city to Tampa, Fla., or to Springfield, Ill. It is greater than the distance from New York to St. Louis by 140 miles.—Philadelphia Ledger.

How Big Was the Baby?

I had heard great stories about the pyramids, but after seeing the stones at Banbek those of the great pyramid looked like children's building blocks. In the quarry is a stone on whose upper surface a troop of cavalry could stand if it were a small enough troop. It is squared on four sides, but is not yet detached from mother earth.

The crude Arab story has it that a female giant was carrying it when she heard her baby cry. She dropped it there, and no one has moved it since. If that baby hadn't drawn its mother's attention from her work there would be today in the walls of the temple a stone seventy feet long and fifteen feet square. It is a large stone and will no doubt some time justify the amount of work that has been done on it. At present it helps six hotels, a dozen curio shops, a score of muleteers and a station master.—Christian Herald.
