MRS, EDDY The revelation of Christian Science as she relates, she was injured so seriously as to be entirely disabled. A physician was called. He found that he could do little more than relieve the pain and suffering, and could give her no hope of recovery. When she was left alone, with an abiding faith she sought comfort and help in her Bible. She read from the ninth chapter of Matthew, second verse, and as she read of the man sick of the palsy who was healed by Jesus, the spirit of Truth and Love, that divine influx of light, came to her and restored her to perfect health. She arose from her bed healed. It was the word of .God which healed her. Her family and of God for some wise purpose, friends were filled with astonishment. They considered it supernatural and unexplainable. After this remarkable experience her life was devoted with untiring love and unceasing labor to developing and presenting her discovery to the world. ures until the Science of her discovery was fully revealed to her.
