OUR BUSINESS MEN ASK FOR PUBLIC CO-OPERATION

Leaders Point Out Partnership Between Capital and Labor.

SAY INTERESTS ARE MUTUAL

Our Future Prosperity Depends on a Better Understanding and More Practical Application of Get-Together Spirit in Industry—Must Eliminate Trouble-Breeders and Agitators.

A better public understanding and appreciation of the needs and problems of our American industries is conceded on every side to be one of the important national requirements for the development of our future industrial prosperity. Few people seem to understand that the majority of our business men are fair minded, reasonable beings, legitimately engaged in the development of our economic resources.

The Work That Men Do.

The nation is confronted with more work than ever before—ships to build, factories to enlarge, railways to complete, new foreign business to be attracted and help to be extended to the unfortunates on the other side.

Labor and Capital Are Partners.

The manufactured output of the United States amounts to \$28,000,000,000 in value per annum. This is three times the amount of the yearly output of the ranches, farms, orchards and gardens; it is a dozen times the output of the mines; it is larger than the combined manufactures of any two foreign nations.

DEATHS

There will be no school tomorrow on account of Washington's birthday.

Dr. Anderson began the work of examining the children of Lincoln school Tuesday morning.

The children of the eighth grade class are planning to bring Dr. Moulton of the University of Chicago, out to lecture on Astronomy at the school at an early date in March.

TO OUR CUSTOMERS

Highland Park, Glencoe, Ravinia, Highwood, Lake Forest and Lake Bluff.

Beginning Saturday, February 10th, 1917 the retail price Bowman Rich Cream will be 12c per half pint.

This is the first advance in the retail price of Cream in over seven years in spite of the fact that the prices of other food articles have risen repeatedly during that time.

We regret very much that this raise is necessary but hope you will believe that our higher milk cost makes it quite unavoidable, if we would maintain our high fat content in the cream. As it is against the policy of this Company to lower the quality in order to reduce the costs, we trust the necessity of this increase of two cents a bottle will be apparent to you.
