

\$100,000.00

Ready to Loan on Improved Real Estate in Lake County

Our announcement of two weeks ago to the effect that we had ready \$100,000.00 to loan on Real Estate brought many inquiries.

We repeat the announcement because our deposits represent the accumulation of funds deposited by the people of Highland Park and Lake County and we therefore are desirous of loaning these funds on safe security in the same territory.

If you are interested, we suggest that you favor us with your application at the earliest possible date.

HIGHLAND PARK 1917

If you are interested in Gardening it will be to your advantage to read this advertisement and a number of others which will follow from week to week and if you are not interested, it won't do you a bit of harm to read them just the same, who knows but what they may be the means of bringing you in touch with the great out doors and all the good that goes with it.

Never before has there been a greater interest taken in Gardening in general. Everybody is getting into it, and it would be wrong to be doing business in a beautiful town like Highland Park and not do our part in helping the good work along.

We want to help get you started early this season, just a few more days and the Robins will be with us again, the Lilac buds begin to swell and the first Snowdrops and Crocus will pop their heads through the ground.

We want to help you get the Lawn into shape, it needs Fertilizer and Grass Seed. We handle both the best money can buy and as reasonable as you can purchase elsewhere. It was our Grass Seed which helped to make the Exmoor Putting Greens, it is used in Ravinia Park, the Moraine Hotel Grounds and hundreds of private places along the North Shore.

We want to help you make your whole place attractive

for the coming summer, beautify it and make it homelike. With all the frightful things happening in Europe we should think more than ever of our Home, of the Trees and shrubs and the Flowers around it.

We want to help you to make Highland Park the most beautiful town along Lake Michigan, there shouldn't be a yard without Flowers—no, it doesn't cost much—a whole lot of other things you spend money on without getting near the enjoyment out of.

We want to help you to get into Gardening and get acquainted with every Flower, Shrub and Tree that grows and whether you wish to just sow out a package of Poppy seed or intend to lay out the most expensive Grounds, we like to get in touch with you—purchase where you like, but let's be your Information Bureau on any and everything pertaining to Gardening. Whenever you are not quite sure, call up 44, 78 or 85 before you go ahead.

When you have been in business in the same town for 24 years and still keep on going and growing, it looks as if you were going to stay, it looks as if you had pleased a lot of people—that is us—busier than ever, the present year will be the greatest we ever had and for all of us in Highland Park. Are you going to do your part around the home? Are there going to be any Flowers? Are you going to plan and plant? If so, you want us.

Highland Park Greenhouses

Fertilizer for the Lawn is more effective than stable manure, is not unsightly when applied, contains absolutely no weed seeds and is by far cheaper. May we quote you lowest prices?
