GOLDEN WEDDING WILL BE CELEBRATED

On Sunday at Javveh Institute, Chicago by Mr. and Mrs. Isaac Goldberg, Old Residents of This City

Mr. and Mrs. Isaac Goldberg will celebrate their golden wedding anniversary on Sunday afternoon, March eleventh at Javveh Institute, Chicago, of which Mr. Goldberg is President. The ceremony which will take place at three thirty will be in charge of Rabbies Cordon, Cohn and Markus. Supper will be served at six o'clock followed by speeches and dancing. Mr. and Mrs. Goldberg have been residents of this city for the past thirty six years and are well known among Highland Park people.

LAKE WATER SAFE

(Continued from Page 1)

land Park during the past week. However, we are informed by members of the local Health Department that there is no cause for alarm here. The lake water pumped at Highland Park is absolutely safe for drinking purposes and has been ever since its treatment with chlorine gas process. The only real danger we are subjected to is from those who visit these towns and drink their lake water. The Board of Health urges upon the residents of Highland Park the necessity for extreme caution in this respect if we wish to avoid an epidemic such as is gaining in force daily in these towns.

At the present time there is but one case of typhoid fever in Highland Park and that one is over two weeks old. Dr. E. S. Godfrey, of the state board of health, who has been detailed to make investigations as to the cause of the epidemic in Waukegan and North Chicago, finds that suspected cases are not reported early enough. He claims that in many cases the spreading of the germs could be prevented to a considerable degree if this were done.

In his investigations Dr. Godfrey has found that chlorination plant at North Chicago has been out of commission repeatedly since December and that the septic tank has been improperly used. He also found that the sewerage of North Chicago is emptied into the lake within 2400 feet of the intake pipe.

The cases in Waukegan were also found to be due to impure water. Although the hypo treatment, which is used there, may not be killing all of the typhoid germs in the water, a large enough percentage is being eliminated to prevent the disease in the normal body in many cases.

It has been practically confirmed that the milk supply is not responsible for the epidemic, as was at first suspected, as the cases known cover a dozen different sources of milk supply.

Play Safe! Don't drink lake water while in North Chicago or Waukegan.

PARENTS AND TEACHERS ASSOCIATION

The Parents and Teachers Association of the Lincoln School met yesterday afternoon at the Ravinia Village House. The subject for discussion was "The Meaning of Vocational Education." Mrs. Montgomery of Chicago was the speaker of the afternoon.

MANUFACTURERS INSURE MEN BY THE THOUSANDS

Some Policies Provide For Payment of Old Age Pensions. GROUP PLAN FAVORED

Part of General Campaign For Industrial Betterment—Some Concerns Adopt Plan to Give Their Employees a Share in Prosperity.

GROUP PLAN FAVORED

A striking evidence of the willingness on the part of manufacturers as a class to do something material for the benefit of their employees is to be found in the growing popularity of the group insurance plan. Industrial concerns all over the country are insuring their workers against death, sickness, accident and old age under the group system, and insurance companies are garnering in millions of dollars in premiums.

This new manifestation of the employer's concern for the members of his industrial family may not be founded entirely on altruism. If it were it would probably revolt the self-respecting worker. It is better than that however; it is indisputable proof of the employer's willingness to go more than half the necessary distance to meet his employees on the common ground of mutual helpfulness, and thus help to wipe out any misunderstandings that may have existed between them.

The group plan has had a remarkable growth since its inauguration about five years ago and has recommended itself not only to industrial concerns but to banking and mercantile establishments in all parts of the country. Many of these establishments adopted it instead of giving a bonus at Christmas time; others gave both bonuses and insurance.

**Policies Total Millions.**  
 During a few weeks before Christmas the Traveler's Insurance Company wrote group insurance policies aggregating \$6,000,000. Both the Traveler's and the Equitable Life Assurance Society did a larger business in group insurance during the year 1916 because of the willingness of manufacturing and other concerns to grant their employees a share in their prosperity. Among the manufacturing concerns insured within the past few months by the Travelers are:

- Bullard Machine Tool Company, Bridgeport, Conn.—\$500 and upward; 750 risks; about \$500,000.
- Raybestos Company, Bridgeport, Conn.—\$500 and upward; about 300 employees, totaling \$300,000 of insurance.
- James S. Fuller, Inc., Kingston, N. Y., shirt manufacturers—Insurance according to length of service; 150 risks for about \$100,000.
- Benton Harbor Malleable Foundry Co., Benton Harbor, Mich.—Insurance on unmarried men, \$500; married men, \$1,000; total insured of \$400,000 on 450 risks.
- Buffalo Gasoline Motor Company, Buffalo, N. Y.—108 risks for \$116,000.
- F. E. Byers & Brothers, pump manufacturers, Ashland, O.—According to length of service; 650 risks for \$325,000.
- Faultless Rubber Company, Ashland, O.—According to length of service; 440 risks for \$220,000.
- Sperry Gyroscope Company, Brooklyn, N. Y.—Each man insured for one year's salary; 750 risks for \$700,000.
- Kellogg Toasted Corn Flakes Company, Battle Creek, Mich.—According to service; 400 risks for \$250,000.
- Le Barth & Son, hotel fixtures, New York City.—100 risks for \$100,000.
- Neptune Meter Company, water meters, New York City.—According to salary; 400 risks for \$300,000.
- Michigan Lubricator Company, Detroit, Mich.—275 risks for \$150,900.
- Adams & Westlake Company, Chicago, Ill.—According to service; 450 risks for \$225,000.
- Frank L. Hall Company, Buffalo, N. Y.—According to service; 100 risks for \$75,000.

**Many Other Policies Written.**  
 Among many other industrial concerns the Equitable insured the following:  
 William M. Crane & Co., New York.—From \$500 to \$3,000, covering approximately 1,000 employees.  
 Favorita Silk Company, Paterson, N. J.—Life insurance to all employees to amounts ranging from \$500 to \$1,000.  
 Garber Print Works and Bleachery.—Life insurance aggregating over \$1,000,000, covering thousands of employees at the plants at Garnerville and Wappinger Falls, N. Y.

Sohmer & Company, Piano Manufacturers.—Life insurance of \$500 for each employee.

Other manufacturers who have adopted the group system of insurance for their employees are Montgomery Ward & Company of Chicago and Kansas City; the B. F. Goodrich Company, Akron, Ohio; the Standard Cloth Company of New York; Robert Gair Company of Brooklyn; the Studebaker Corporation of Detroit and South Bend; Roos Brothers of San Francisco; the Union Oil Company of California and the Simmons Company of Kenosha, Wis.

The group insurance policy as offered by various companies covers death, disability, ill health and even annuities. Each policy is arranged to suit the particular case.—Industrial Conservation, N. Y.

It's Really Surprising

how many new things a trip of exploration through the North Shore woods will show you—new things that are new to everyone and old things that may be new to you. Step onto a North Shore Electric train and get off nearly anywhere.

Some people might live a stone's throw from the U. S. Naval Training Station without ever wondering what its purpose is. But you're too patriotic an American to let your interest lag that way. Make up your mind to take systematic sightseeing journeys to all points of interest and amusement roundabout. This is a good time to begin. And of course the simple, sensible, inexpensive, comfortable way to go is via the scenic, all-electric

Chicago, North Shore and Milwaukee Railroad

From Evanston to Milwaukee and including all intermediate points—Highland Park, Fort Sheridan, Lake Forest, Waukegan, Zion City, Kenosha, Racine, etc. Local and limited trains—frequent service.

Ask your nearest North Shore Electric ticket agent for folders and descriptive matter. Make more use of the conveniences for shopping, for visiting, for business trips that this new Electric line provides.

Double track nearly all the way from Evanston to Milwaukee. Commodious, comfortable cars, many of them all-steel. Prompt, convenient connections at Central Street, Evanston, with fast express trains on the Chicago Elevated Railroads—direct to any part of Chicago.

SIGNS OF SPRING SEEN THIS WEEK

Mr. Robin Makes His Appearance Back of Press Office on Tuesday Noon

Sure signs of spring have come, and even if the calendar does register twenty-one days before the opening of spring Mr. Robin has already been seen, and likewise other signs such as the brave little har-binger, the furry pussywillow. On Tuesday noon our attention was called to a fine robin enjoying the sunny space afforded by the open lot just south of the Press office. No doubt others have seen the same signs.

You are Cordially Invited to make use of the privileges of the CHRISTIAN SCIENCE READING ROOM 119 East Central Avenue Hours 9 a. m., to 6 p. m. Every Day except Sunday

**GARDEN CLUB**  
 The Garden Club met on Tuesday afternoon at the home of Mrs. Robert Smith. Professor Wade McNitt of the High School spoke most interestingly on "Preparation of the Soil." Mrs. Frank Gardner read a paper on gardening which was very delightful. The next meeting will take place on March 20 at eight p. m. at the home of Mrs. E. L. Millard.  
**EVAN. LUTHERAN CHURCH**  
 The regular lenten services will be held at eight o'clock on Thursday evening. After this service or about nine the Luther League will meet.
