

## "Ere Man is Aware That Spring is Here the Flowers Have Found it out"

There is more to the Homegrounds than having a Lawn, Trees and Shrubs and keeping everything in order, by far more, and we are just beginning to realize it.

You should make your Homegrounds and the Home surroundings a big, delightful out-door living room, that is when you will get the most out of it—the House with its little square partitioned off rooms is all right during the Winter months, but get out doors now, out in the open. Come along, Spring time with the lover of plants and flowers means planting time.

There are so many Homes in our town which could be made more Homelike and attractive by having the grounds remodeled, each type of Building demands a particular setting, a matter, by far too often entirely overlooked and so we find grand mansions, cold and uninviting on account of poorly arranged or laid out grounds and the modest cottage in the midst of Foliage and Flowers an attractive Sweet Home.

You can't have too many Flowers—they never interfere in any setting no matter how costly or humble the Home they belong and should go with it both in and out doors. "A Flowering Plant for Every Home" should be the slogan for every uplift society and the whole yard full of Flowers should be the rule with those who dwell in our good town, plant flowering shrubs, Perennials, Biennials and Annuals, plant around every nook of the out-of-doors part of your Home, in

the flower beds and borders, the porch and window box, the rustic vase and the hanging baskets.

If you can't afford plants, get seeds, but plant. Get busy and interested in the great out-doors for your own sake, your health and happiness—cheer things up, make your grounds friendly, attractive and beautiful. Everywhere you find people taking up gardening and to them the Home ground afford more real pleasure and recreation than any other amusement and they live longer and happier on account of it.

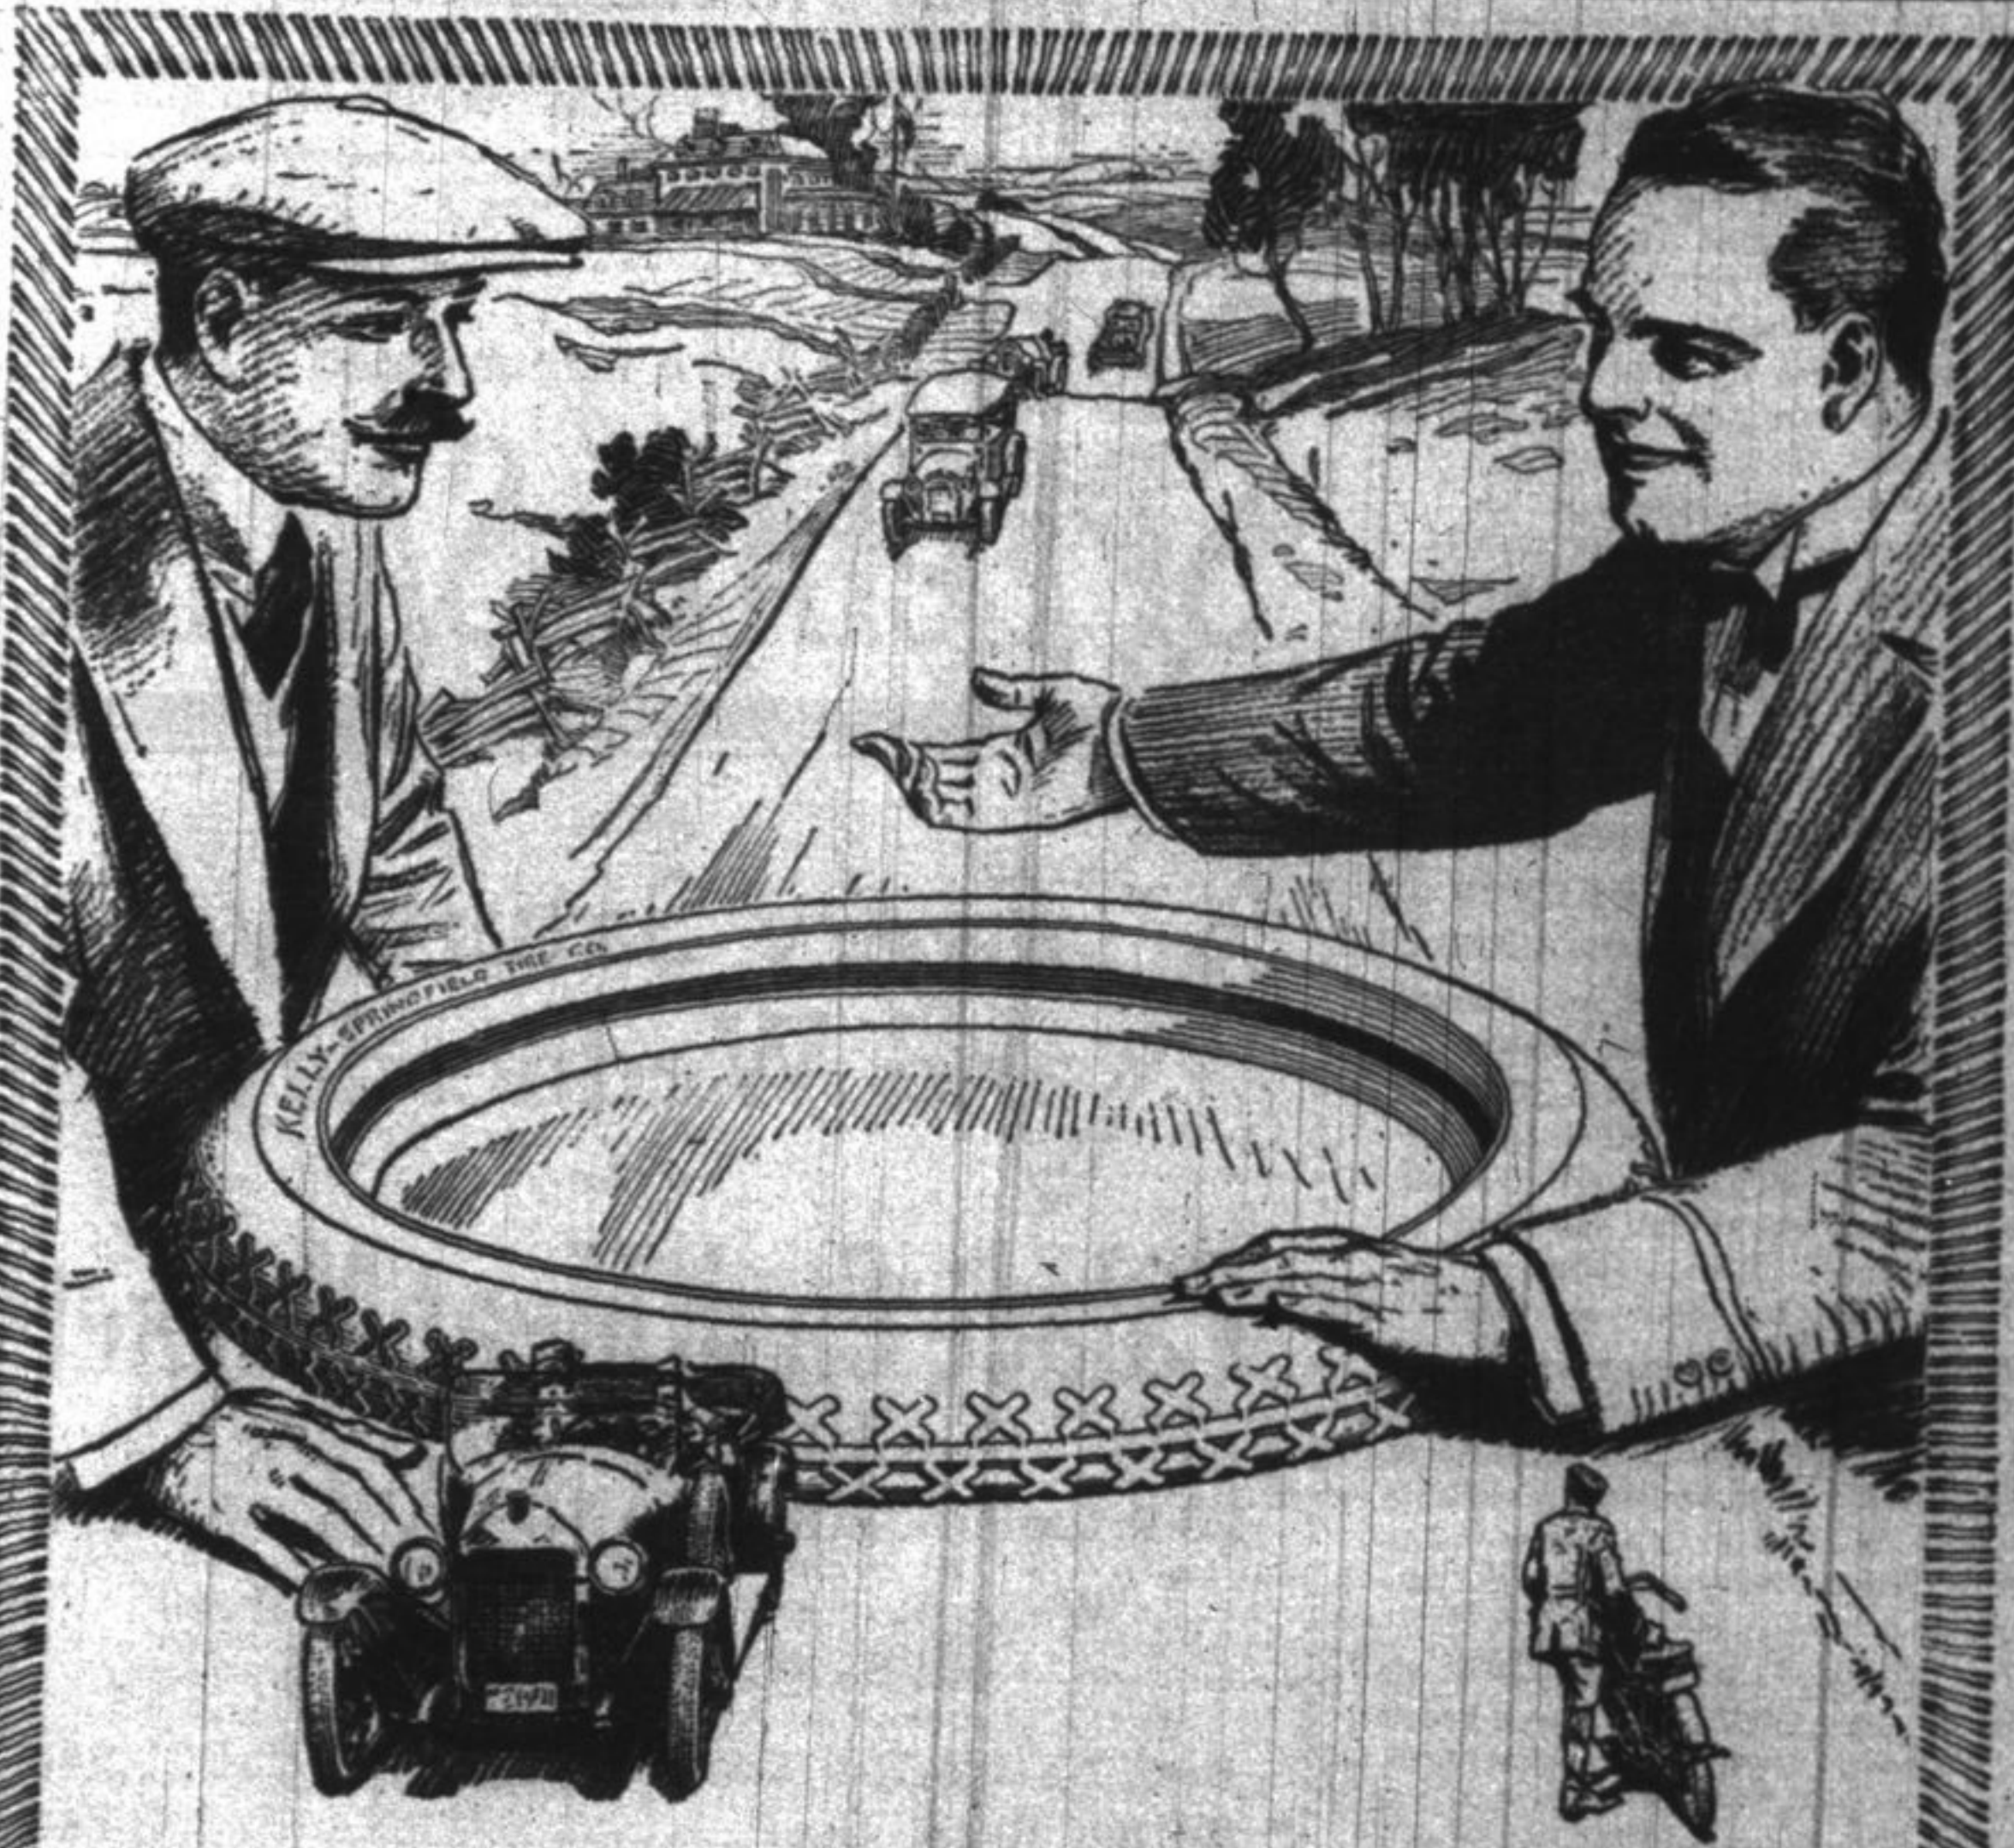

Won't you let us help you to get the most out of your ground this year? Get you started right no matter how little the work you contemplate doing this spring we can help you. "Things that Grow" and "What and How to Plant" has been our study for almost 40 years. The experience gained abroad and here during that time is at your command, suggestions and correct answers to any question pertaining to Gardening are free to you. We will prepare for your own particular requirements a sketch or plan absolutely free and should it not compare favorably with your own ideas there is no harm done. We will tell you what Fruit trees, Hardy Plants and Vines do best here, what shrubs will flower most freely and when they should be planted for best effect.

We will tell you how to lay out Beds and Borders and a whole lot of other things. Three phones for your benefit 44, 78 and 85.

# Highland Park Greenhouses

FRITZ BAHR, Proprietor

Would you like to see the greatest Easter display ever shown here? We have it at the Greenhouses on Laurel Ave. and some more at the store next to the Post Office. We are also members of the Florists Telegraph Delivery Association.

The technicalities of tire construction do not interest you. It isn't what goes into a tire, but what comes out of it, that counts.

## Kelly-Springfield Tires

go their guaranteed distance on the road—not over the adjustment counter, and 7000, 8000 or 10,000 miles on the highway is a common Kelly-Springfield performance.

CENTRAL TIRE CO., Tires of Quality  
118 East Central Ave. Phone 904

## Economy
