## Through the Heart of Chicago in 24 Hours

### A Typical Chalmers Performance

At 12 noon, Monday, March 26, a stock Chalmers seven-passenger touring car with first and second gears removed, was started north on Michigan Boulevard through Chicago traffic.

At noon Tuesday, March 27, the Chalmers was stopped at the starting point. It had gone 586.8 miles through Chicago's densest traffic. The motor had never been stopped. Nothing but high gear was used.

To prove conclusively Chalmers flexibility on high gear, the low and intermediate gears were removed from the transmission.

The car was a standard Chalmers seven-passenger touring model, complete with standard body, top and full equipment. The same model you can buy today.

An average of slightly over 14 miles per gallon of gasoline was attained, an excellent example of Chalmers economy.

586.8 miles, through the famous congested Chicago "loop" district, is a wonderful feat. This performance on high gear is even more wonderful. It is without an equal.

It is an endorsement of the motor. It proves Chalmers reliability. It demonstrates Chalmers cooling. It shows Chalmers flexibility and perfect control. It is a new achievement.

A condensed summary of the signed certificate issued by the Contest Board of the American Automobile Association, under whose supervision the test was made, is reproduced below.

THIS IS TO CERTIFY that the Chalmers seven-passenger car above mentioned was a fully equipped stock car. It was driven for 24 hours through Chicago traffic. Only high gear was used. The motor was never stopped during the run. The mileage obtained was 586.8 miles. The gasoline consumption was an average of slightly over 14 miles per gallon.

*R. K. ...*  
Chairman Contest Board, American Automobile Association.

### Some Other Chalmers Achievements

#### Chicago to New York

On June 7, 1916, a Chalmers stock car shattered all existing road records between Chicago and New York, making the run of 1047 miles in 31 hours. The best previous time was made by a Packard driven by E. C. Patterson, whose time was 35 hours 43 minutes.

#### Wins Pike's Peak Climb

August 11, 1916, a Chalmers carried off first honors in the 230 cubic inch class on the terrific grades of Pike's Peak in Colorado. Its time was within a few seconds of much higher-powered, and specially built machines.

#### Atlanta to Chattanooga

June 24, 1916, a Chalmers lowered all records between Atlanta and Chattanooga. The distance of 125 miles was covered in 3 hours, 53 minutes. This is faster than the time of the Dixie Flyer, the fastest railroad train of the south.

#### Giant's Despair Mountain Climb

On October 6th, 1916, a Chalmers captured the free-for-all event at the Wilkes-Barre hill climb on Giant's Despair mountain, winning the \$1,000 Hollenbeck Trophy and defeating four 12-cylinder cars, several well-known racing creations

#### Detroit to Indianapolis

On June 12, 1916, the Chalmers set a new record over the roads between Detroit and Indianapolis, 305 miles, making the trip in eight hours, 23 minutes.

#### Dallas to San Antonio

Another famous train—the Katy Limited—was beaten by a Chalmers between Dallas and San Antonio. The Chalmers made the run in 9 hours and 22 minutes, 1 hour and 33 minutes faster than train time.
