Charm of Prahova.

No traveler who has visited Rou mania returns without pealsing the wonders of Prahova. Here, after one has passed the heights of Predeal, is a charming valley in the midst of for ests, of great rocks and spouting waters. The landscape evokes recollections of Switerland, with architecture that recalls the orient. Azuge, Bustena, ous river. Farther away is Sinaia. The Campina appears, the chief city of the mals that are at liberty assemble about a block of salt to lick it, for salt, like petroleum, is everywhere,

Population by Sex. About half the probable population of the world has been enumerated with relation to sex. About 50,3 per cent male, 49.7 per cent female, is the result of this count. Only in Europe. turning over in the road and crushing among continents, do the females outnumber the males, the proportion being: Female, 50.6 per cent; male, 49.4 per centi In most parts of the worl. of which we have information the reverse is true. The percentage of males in British India is 50.9; in the tributary states, 51.7; in Japan, 50.5. In the United States by the last census there were 106 males to 100 females, the divisions of native, foreign, etc.,

being as follows: Native white of native parentage, 104 males, 100 females; native white of foreign parentage, 99.5 males, 100 females; foreign white, 129.2 males, 100 females; negro, 98.9 males, 100 females; all other, 185 males, 100 females.-New York Times Russians Light Drinkers. The Russian realized perfectly well the evil effect of the use of vodka upon his fellow countrymen. We must

Such were the Mo-Allah had forbidden the thice of the the orthodox, who refrained on principle. Many others as well did not indulge, either from distaste or from conscientious scruples. In fact, sta tistical evidence shows that the peop of the Russian empire consumed decidedly less alcohol per capita than the peoples of many other European coun

Automobile Tops.

tries.-Robert P. Blake in Atlantic.

The practice of running an automo bile with the top up when it is not needed is costly, according to tests Popular Machanies. When the back of the top cannot be rolled up the resistance is especially great. Six miles more were obtained from a gallon of gasoline with the top rolled and covcitizenship papers. Eighty-two ered as compared with having the top up with the back closed. When going against the wind this extra pull is especially beavy, and difficulty in mak ing a hard climb may often be relieved by lowering the top. Careful regula tion of the top, using it only when es sential, will be found to be a worth while factor in reducing the gasoline
