DR. DILWORTH'S ADDRESS
 (Continued)

The medical gentleman has told you about brain tumor. The recognition of that condition is just as easy for the trained optometrist with the use of the ophthalmoscope as for me to see the charm attached to your excellency's chain—in fact, easier.

We are interested in diseases of the eye, not for the purpose of treatment, or diagnosis, but for recognition so that if per chance a diseased condition presents itself, we can give timely advice to the patient to consult those whose duty it is to treat diseases.

Remember however, that out of the millions who wear glasses, very few have diseased eyes."

The regular monthly meeting of the Board of Directors will be held Tuesday morning, May 8th, at 10:30 a. m.

The clubs of the Y. W. C. A. are busy every day of the week sewing on material sent out from the Navy League and from the Red Cross shops in Chicago. This is the time for every patriotic girl and woman to do her share in preparedness. We may not go to war, but we can help to provide comforts for those who are called to protect our country in its extremity. Now is the time for clubs to be formed to further patriotism and put into practical use our loyalty to our country and its defenders.

Brand will play for us.
