Latin-America sees neither dignity nor advantage in changing to German-America.

Germany made her greatest move for peace when she forced the United States into war.

The Democratic party and the Republican party take a back seat in Congress while the "All-American" party assumes complete control, to pass any and all measures that Uncle Sam needs to prosecute this war to its finish, a complete victory.

We are at war because Germany murdered us and interfered with American business, because she tore up the moral code, a double cause.

Latin-America seems to be a pretty good sort of a hypenate.

At this rate pretty soon there will not be a king left in the deck.

Those German submarines in the Gulf of Mexico are going to find themselves pretty soon a long way from home and mother.

Any young man who would marry to avoid the war is likely to get what he deserves.

More crops and more crops are needed by the nation.

The fact that the two men once appeared on friendly terms does not prevent Col. Roosevelt from wanting to fight the German Emperor.
