The Sunday School will have its annual picnic on July 19th.

The Eyes of the Nation

are turning more and more to the optometrist for relief. Constant use of the eyes calls for greater eye protection and guidance. The optometrist, or eyesight specialist, is the man to take care of weak and over-worked eyes. We are optometrists with many years' experience. We examine the eyes, write the prescription and make the glasses—for one charge, a reasonable one.

"Is this the Gas Company Office!"

"Yes, Madam."

"This is Mrs. Modern speaking. I called at your showrooms yesterday and looked at the new Cabinet Gas Ranges you have on display. I want you to send out to my residence at once that beautiful Range with the glass panelled doors, the self lighter, the porcelain splash back and tray, and the warming oven.

"We will be very glad to send out the Cabinet Range and have it installed for you today, Mrs. Modern."

"Thank you. I decided last night that I would have this new Cabinet Range and enjoy the kitchen independence, and the freedom from cooking drudgery which I have so long wanted. You know the Fourth of July is Wednesday and I want to declare my independence too.

"That's the spirit, Mrs. Modern. The Range will be out on time. It will be a great comfort and convenience to you this summer."

"Oh, I realize that. In fact, I'm waiting with my preserving until the Range is installed. My friends say it is so easy to make good preserves on a Gas Range, and I know from experience that the other way is so unsatisfactory."

Why don't you declare your independence from solid fuel stove troubles as Mrs. Modern has done. Just telephone 194 or call at our showrooms.

North Shore Gas Co.

Mrs. Albert Clapper and son of Chicago spent the week end with her parents, Mr. and Mrs. Segert.

Telephone Unpreparedness

"WAIT a minute, Central, I'll get the number." That means delay which, when it occurs often, will slow up the whole service.

To avoid such delays, the telephone user should always be sure of the number wanted before taking the receiver from the hook.

By this sort of telephone preparedness the telephone user gets quicker connections, the switchboard operator's work is lightened and good telephone service is greatly facilitated.
