HIGHLAND PARK CLUB

The evening dinners for the R. O. T. C. boys are just as popular, and even more so than ever. The number of visitors is increasing daily.

Relatives of the boys from Michigan and Wisconsin are taking advantage of the club facilities, and appreciate such a delightful place to which they may go to visit their sons, husbands, brothers and fathers. Their appreciation has been expressed in many ways.

Mr. Mitchell was host on Tuesday evening to 30 guests, members of the A. T. O. alumni and Mr. E. R. Smith entertained 15 guests last evening.

The boys are kindly asked to make dinner reservations for Saturday evenings. The club house will be opened for dancing, with use of the music rooms, as well. It is the desire of those in charge that the boys and their ladies make themselves at home in the club house.

Pasteurized Milk is Good Clean Milk heated to approximately 145 degrees Fahrenheit and held at that temperature for 30 minutes, then cooled suddenly.

This process in no way destroys the nutritive value of the Milk. It does however, destroy harmful germ life that Milk may contain.

We say "may" because there is always a chance that Milk "may" contain harmful bacteria no matter how carefully handled before it reaches us. So to safeguard you we Perfectly Pasteurize it—then cool it—then automatically bottle and cap it. So it comes to you untouched by human hands.
