Let Everybody Help

All patriotic men and women of Illinois are hereby invited to enlist for a state-wide patriotic educational campaign under the direction of the State Council of Defense Neighborhood Committee.

Not all can join the army or navy, drive an ambulance or man a machine, or serve the Red Cross. We CAN help in the no less important work at home without which the Army and Navy will be paralyzed. The strength of the fighting line simply reflects the strength of purpose and of effect behind the lines. Russia is a reminder.

The purpose of this campaign is twofold:

- (1) To provide an arena for all who feel the call to service in the national cause without having found an opportunity to answer the call.
- (2) To organize, mobilize and put into action the patriotic sentiment of Illinois, which needs only direction to become irresistible.

If you can lead, if you can organize, if you can speak or write even if you can do no more than enroll yourself as one who believes in the United States this is an opportunity to take

part worthily and effectively in the highest enterprise of all time, namely, the Winning of the World War.

Teachers of Illinois are especially invited to enlist in this work. There is the opportunity to make the lessons of the war contribute to better citizenship in the future, and to the greater strength of our country.

The call is for volunteers, wholeheartedly in earnest. Send your name and address, with an expression of preference for the kind of work you would undertake, to the State Council of Defense Neighborhood Committee, 120 West Adams Street, Chicago.

To The Young Men Who Are Called

To the young men called to the colors the State Council of Defense has addressed the following:

"America is in a war which she must win. She is justly in it to preserve the right and liberties upon which the nation rests. Being in it, it is her duty to wage it as becomes a great nation—with all the force and power she commands.

"To win the war we must smite the enemy. The harder he is hit the sooner will our purpose in the war be achieved; the sooner lasting peace will come. To such a peace America has dedicated the best she has, her young men now called to the colors.

"The men going to the training camps are the men America has chosen to win the war for her. They are selected for a very high duty; they carry the hopes of the nation; they represent the power of the homeland.

"Illinois sends her quota forth with confidence in their courage and their fidelity; assured that they will acquit themselves with honor and credit. And Illinois pledges to them that loyal support at home, without which their efforts in the field, however valorous, and their sacrifices, however great, would be in vain."

Don't Throw Away Your Coffee Grounds!

Save your coffee grounds. Put them in your vegetable and flower gardens. They contain valuable fertilizing properties, including a large percentage of Nitrogen and a fair amount of Potassium and Phosphorus.

Mrs. C. T. Brewer, of Powersville, Kan., decapitated a snake with her scissors. What a pity Mother Eve had no scissors.

The bumper crops this year are just as important and potent towards winning the war, as a bumper crop of soldiers.

Will the chancellorship of Mich-aellis last 90 days?

The prevailing attitude toward the I. W. W. indicates that the world is tired of it.

Presently the pro-Germans will assert that America started the war and pushed the Teutons right through Belgium, etc.
