DOUBLE DUTY
A Dairy Ration Has Two Main Uses—
Life and Product.
(National Crop Improvement Service.)
A ration is divided into two parts:
1. The part needed to maintain or keep the animal alive.
2. The part needed to make stored up material like wool, fat, meat or milk.
Milk is roughly in solids, one-third each casein (protein), fat and sugar. The casein in milk can only be furnished by the protein in the food. The fat and sugar may be derived from either protein, fat or carbohydrates.
If a cow has the ability to give 50 pounds of milk containing two pounds of casein, and only gets enough protein to make one pound of casein, then she will only give 25 pounds of milk.
A balanced ration is one that has just the exact amount of protein, fat and carbohydrates that the cow needs. Just what this is we cannot ever say exactly, because the amounts vary from week to week and no two cows are alike, nor are feeds alike.
A practical ration is one that has sufficient protein and enough total food to make the greatest amount of milk without the cow losing weight.
A commercially successful ration is the one that makes the cow healthy and enables the use of the most roughage.
All the hay and ensilage a cow can eat will keep her alive and make about 15 pounds of milk. Any more milk has to come from grain or grain feed.
The farm can usually raise carbohydrates cheap in the form of hay and ensilage, and, outside of clover, peas, etc., protein can usually be bought cheaper than it can be raised.
The average price of protein feeds with 20 per cent digestible protein was about \$25 to \$35 per ton before the war, but the prices are much higher now, while hay (clover) with 5 1/2 per cent digestible protein has been rated at \$10 per ton, so the protein feed at \$40 would furnish protein about the same as clover at \$10.

A Million Dollar Bank

We take great pride in submitting herewith in condensed form, copy of our sworn statement rendered in response to call to the Auditor of Public Accounts as required by law.

The statement proves that Highland Park is forging to the front as a banking center, that the people of this community appreciate and give their support to a firmly established, up-to-date, well managed banking institution and that we have reached a goal for which earnestly and faithfully we have been striving, namely, a million-dollar bank.

LAKE COUNTY AND NEARBY NEWS NOTES

TO DISCONTINUE POSTOFFICE

Aged Flagman Killed at Sacred Heart Crossing. A. V. Smith to be Colonel. K. of C. to Erect Building

Great Lakes Postoffice Discontinued

The Waukegan postoffice, as a result of orders issued last week, officially became the postoffice of the naval training station and from now on will handle all mail addressed to the station.
Postmaster William Ward who has been postmaster at Great Lakes for two years automatically lost his position as a result of the discontinuation of the postoffice at the station.
P. C. Golden, master at arms at Great Lakes, becomes the official head of the handling of mail in the matter of collecting it and distributing the incoming mail at the naval station.
It is said the chief desire of the navy for a long time has been to have all mail handled at the station by navy men entirely; and Mr. Ward was a civilian as were also a few of his assistants whom Postmaster Grady of Waukegan had to send down to Great Lakes to assist in handling the big amount of mail that suddenly swamped the station as it jumped so in population.

Aged Flagman Killed

Patrick Gallagher, aged 74 years, a resident of North Chicago since its foundation over 25 years ago, was instantly killed while following his duties as a flagman on the Chicago, North Shore and Milwaukee electric crossing at Sacred Heart station at the south end of Lake Forest, Saturday evening.

When Picked Up He Was Dead

According to the train crew the aged man stepped aside to permit a local train to pass and then unaware of the approach of a limited train, stepped directly in front of it.
When picked up he was dead. It developed that he had sustained a severe fracture of the skull and one of his legs was cut off.
When struck he was thrown ahead on the track and the car passed over the prostrate form.
Gallagher had worked as flagman at the crossing but three days. It was the first regular position he had held for some years as age was telling on him and he was not able to do any heavy work.

A. V. Smith to be Colonel

That Lieut. Col. A. V. Smith of the 149th artillery, now encamped at Camp Mills pending embarkation to the firing line in France, will receive promotion to the post of colonel is stated in the dispatches from the east. His promotion will be included in the general orders, it is believed, that will order the promotion of Col. Reilly, in command of the 149th, to the position of brigadier general.
The scores of friends of Lieutenant

Colonel Smith in Highland Park will be pleased to hear of his advance or further promotion which seems to be assured.

K. of C. Erecting Building

A large building which the Knights of Columbus are to erect at the naval station is now under course of construction.

This Building Will be Conducted

along similar lines to the Young Men's Christian Association, and is one of a large number which this organization has constructed or will construct at every military camp. A fund of \$3,000,000 is being raised for this purpose by the Knights. The building at the station will be so large several carloads of lumber will be required to construct it. The building will be equipped with a library, reading and writing tables, stationery, comfortable chairs and other things that will make the life of the soldiers more pleasant. It will be not only for members of the order but also for others. A similar building has just been completed at Rockford.

DEFENSE COUNCIL HOLDS MEETING TUESDAY EVE.

(Continued from Page One)

3. Exmoor Club. Complimentary

dinner and dance. F. Edson White, chairman, \$190.00 army Relief Society.

4. Young Women's Christian Association.

Active as housing bureau providing rooms in city for families of candidates. At present maintaining large hospitality home for that purpose.

5. Entertainment by people of

city in their homes on Saturday and Sunday, of many men in training camps.

6. Providing funds to make it possible

to give candidates recreation and improved education in camp.
These activities on the part of the good people of Highland Park, acting through the Highland Park Defense Council, is a material evidence of their patriotic desire to assist in every way in the conduct of the war. It gives me deep satisfaction to acknowledge the great assistance you have been in promoting the welfare of Fort Sheridan and of the men and officers stationed here. I speak for them, as well as for myself, in voicing the thanks of all for your generous and heartfelt patriotic assistance.
I am,
Very sincerely yours,
(Signed) J. A. Ryan,
Colonel of Cavalry Commanding.

PARENTS AND TEACHERS ASSOCIATION

The first meeting of the Elm Place Parent-Teacher Association will be an informal social affair on Friday evening, October fifth. Something entertaining and refreshing is assured. Further announcement will be made next week.

DIFFERENT COWS, DIFFERENT FEEDS.

(National Crop Improvement Service.)
No suggestions that we can offer nor any other formula that can be made can be followed to the letter as a druggist follows the prescription of a physician. Feeds vary in their nutritive values, some being better than the average and some not as good, and cows vary in their ability to digest and transform nutriment. These conditions make it necessary for the feeder to use a good deal of judgment and not follow too blindly the suggestions of others. Any good stock feed is recommended as a base, to be supplemented by home-grown roughage.

CONCENTRATES FOR RATIONS

Taken From an Article by E. S. Savage, Professor of Animal Husbandry, New York College of Agriculture.
(National Crop Improvement Service.)
A good rule to follow in all rations is to have at least three plants represented in the ration. There are seven factors which should be considered: (1) Bulk, (2) Digestibility, (3) Relation between the digestible protein and carbohydrates and fat, (4) Variety, (5) Suitability of the feeds to the animal and product, (6) Palatability, (7) Cost.

SALT FOR CATTLE.

(National Crop Improvement Service.)
Professor Henry says that a cow requires three-quarters of an ounce per day per 1000 lbs. of weight and six-tenths of an ounce per day per 20 lbs. milk. Therefore, a cow which weighs 1200 lbs. and gives 30 lbs. milk should have 1 1/2 ounces salt. It must be remembered, however, that salt is generally included in high-grade dairy feeds: It is well to give cows access to extra salt. They will take what their roughage demands.

THE PRICE OF FEED.

(National Crop Improvement Service.)
Feed is handled on a smaller margin than coal, ton for ton. The retail feed dealer who buys in carload lots can sell as cheap as the manufacturer can in less-than-carload lots, the difference in freight rates being the dealer's gross profit. In nearly every instance, a group of farmers can order their feed, through a dealer, in carloads and make a material saving. The difference in freight alone will show a good profit.

Take the chill off the drinking water

in cold weather and cows will drink more and produce more.
Don't figure too fine on rations. Be liberal but don't overfeed. You can kill all of your profit by feeding more than the cow can assimilate.

The human element in dairy feed is important.

Two men may have the same equipment, one make good money, the other fail, while both are supposed to be feeding by the same system and the same tables.
Horse sense is good cow sense.

EYES OF THE WORLD PRODUCTION DELAYED

Redecoration of Auditorium Theatre Not Completed. Picture Shows First Today

Failure of Decorators to complete

the task of painting the ceiling of the Auditorium at the specified time caused the postponement of the opening of "The Eyes of the World," W. H. Clune's photoplay masterpiece at that theatre on Friday, September 21. Huge tiers of scaffolding remained in the theatre for several days following the date set for the opening and caused the management of the theatre and the picture to delay the Eastern premier to the picture until today.

EPWORTH LEAGUE TO GIVE SUPPER OCT. 6

Young Peoples Organization of Highland Park M. E. Church Will Entertain

On Saturday evening, October sixth

the Epworth League of the Highland Park M. E. Church will give a supper at the church. There will be a charge for the supper and all proceeds will benefit the League.

Mr. Julius Laegeler of Highwood,

is chairman of the committee on arrangements. His committee is composed of Mrs. McGath, Mrs. L. G. Stoker, Miss Beattie Waterhouse, Miss Margaret Webster.

PRESS MAKES CHANGE OF EMPLOYES THIS WEEK

Guy Lehman, Linograph Operator Since Last November Leaves Position This Week

Mr. Guy Lehman, our Linograph

operator who has been in our employ since last November, left this week for his home in Britt, Iowa. Mr. Lehman has been drafted into the United States army and is now awaiting a call to go into training at some military camp. In his place comes Mr. W. F. Schwenker, of Moline, Ill., who took up his duties yesterday.

EBENEZER EVANGELICAL

The services for this week are as follows:
Sunday school at 10:00 a. m. The lesson will be Review of the lessons of the past Quarter.
Morning worship at 11:00 a. m. At this service the pastor will continue his series of sermons on the Book of Job. Dr. R. H. Good, of River Forest, will sing. Dr. Good is well known throughout the country as a specialist for diseases of the eye, ear, nose and throat. But, aside from his extensive medical work, he devotes much of his time to singing. It will be worth while hearing him.
Evening worship at 7:45.
Missionary prayer meetings on Wednesday and Thursday nights.

BAPTIST CHURCH

William Nelson Thomas, Ph. D. Minister
Sunday Services
Sunday School, 10:00 a. m.
Preaching Service, 11:00 a. m.
Evening Service, 7:00 p. m.
Prayer meeting Wednesday evening at 8:00 o'clock.
All are cordially invited to be present at these services.

On Tuesday evening of last week

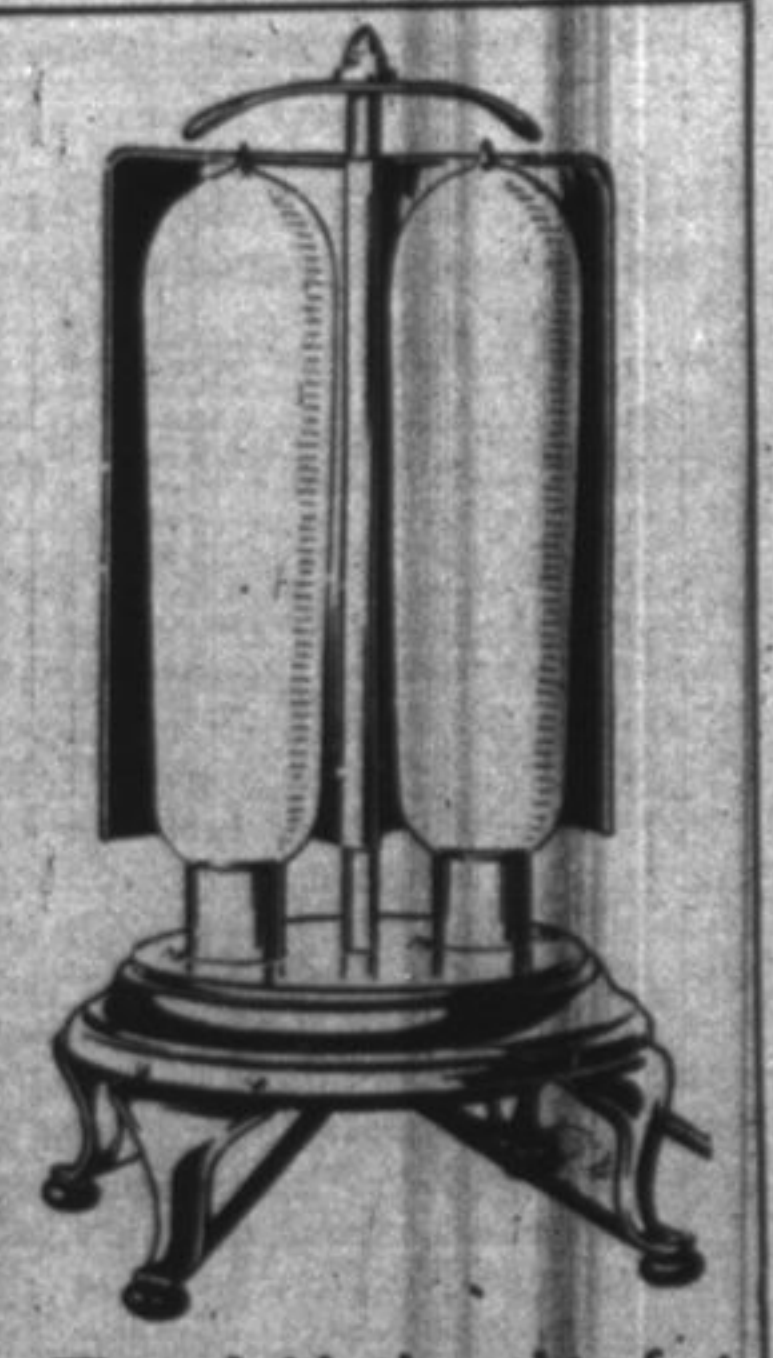

the first of a series of speaking contests was held at the Baptist church under the auspices of the local W. C. T. U. of which Mrs. John Christman is president. Five young ladies, the Misses Johnson and Moler of Waukegan, Isabel Butler of Lake Bluff and Mary Fay and Kathleen Krueger of Highland Park, were introduced by number by Mrs. Young, Superintendent of contest work in the Lake Co. organization, each in turn giving a recitation bearing a temperance lesson. Rev. E. M. Umbach on behalf of the judges, in a few well chosen words, presented a silver medal to Miss Butler, expressing the regret that there was only one medal to give. A small admission fee was charged and the proceeds totalling somewhat over twenty dollars was given to the Red Cross.

REAL ESTATE TRANSFERS

Wilhelmine Borchardt to J. E. Borchardt, Lot 25, blk 7, Highland Park, W. D. \$10.00.

Mr. and Mrs. O. B. Brand, who have

been motoring in the east, with friends, returned last night, having been gone sixteen days.

Though it's thought of at that season—just before furnace fires are lighted for the winter, the cheery aid of

The Electric Radiator

is available at all times in those rooms most houses contain that somehow wont heat up.
Moderately priced.
