

VOTE YES

For County Good Roads Bond Issue

at the election

Tuesday, October 30, 1917

Failure to VOTE YES means the forfeiture of Federal and State appropriations of \$325,000. Failure to VOTE YES will militate against the early improvement of Belvidere Road.

Failure to VOTE YES means a delay of years in the improvement of Lake County Highways and precludes any opportunity to build that portion known as Rand Road through Ela and Wauconda and a delay of years on Fox Lake Road through the townships of Warren, Lake Villa and Grant.

Failure to VOTE YES means continued taxation greater than the cost of the County Bond Issue.

Failure to VOTE YES will deny the Government as represented at Fort Sheridan and Great Lakes the protection which they have requested of Lake County in the matter of improved highways and which in the minds of all they should have.

If you vote no you vote against all the above improvements, forfeit \$325,000 and approximately 60 miles of improved highway made possible under the proposed Lake County Bond system. The opposition has not offered you anything constructive in its stead. They would have you continue to spend hundreds of thousands of dollars in maintaining chuck holes in the same roads year in and year out—THEREFORE

Failure to VOTE YES is a vote against the best interests of all, the farm, rural community, town, city, State and Nation.

Failure to VOTE YES will please the real Road Hogs who prefer to wallow in the mud at a greater cost than the method provided by the bond issue.

The opposition is against the improvement of Belvidere Road within any reasonable time and would prevent Ela, Wauconda, Warren, Lake Villa and Grant from securing any permanent road improvement for years and maybe for all time.

Men and women of Lake County VOTE YES, and you Vote for Economy, Progress and the Development of Lake County.

VOTE YES

For Nation, State and County

Lake County Good Roads Central Committee
