Announcement

Pasteurized Milk is Good Clean Milk heated to approximately 145 degrees Fahrenheit and held at that temperature for 30 minutes, then cooled suddenly.
 This process in no way destroys the nutritive value of the Milk. It does however, destroy harmful germ life that Milk may contain.
 We say "May" because there is always a chance that Milk "may" contain harmful bacteria no matter how carefully handled before it reaches us. So to Safeguard you we Perfectly Pasteurize it—then cool it—then automatically bottle and cap it. So it comes to you untouched by human hands.

HAPPINESS INDUCES OLD AGE

Human Body Demands Enjoyment, and Like a Rose, Will Not Thrive in Shadow.

A woman has declared that at one hundred and six she is in better health and happier than at any previous time in her life, according to the Christian Herald.

Surely a woman who is healthy at one hundred and six ought to be happy. She would have to be happy to be healthy.

None but a happy disposition could carry one through so many years. A gloomy temperament would strangle life out of the body long before the age of one hundred and six.

The human body can no more thrive in shadow than can a rose.

We live by desire to live. Enjoyment of and zest in life are a constant source of life supply.

Old age ought to be the happiest period of life, particularly for a woman. If she has kept her mind active and has wisely refused to settle into the dull rut that people always have ready for her, she can begin in old age to enjoy life in earnest.

In old age there is no more worry about the babies, no more suffering for others. The children are grown up, and, if her part has been well done, they are a prop and a solace to her. Grandchildren are a delight without the bitter, constant worry.

The woman grown old in years should be at her best mentally. She is free to indulge her tastes, enjoy a good book and the conversation of genial minds.

Women retain their vitality and spirits longer than men do. The burdens of life fall from them gradually, and the peace of retirement from active duties comes upon them little by little and almost imperceptibly.

CONFUSING CITY OF CAGNES

Tourists Find It Advantageous to Learn to Distinguish From Similar Name—Cannes.

American and English visitors to the Riviera soon come to know Cagnes by name, according to Harper's Magazine. It is a challenge to their ability to pronounce French—a challenge that must be accepted, if you are in the region of Grasse or Nice or Antibes. Two distinct tramway lines and several roads lead from Grasse to Cannes and Cagnes. Unless you are very careful you may find yourself upon the wrong route. Once on the Cagnes tramway, or well engaged upon the road to Cannes, when you had meant to go to Cannes, the mistake takes hours to retrieve.

At Nice chauffeurs and cochers love to cheat you by the confusion of these two names. You bargain for the long trip to Cannes, and are attracted by the reasonable price quoted. In a very short time you are at Cagnes. The vehicle stops. Impossible to rectify your mispronunciation without a substantial increase of the original sum of the bargain. Antibes is between Cagnes and Cannes. Cagnes is nearer, and it is always to Cannes that you want to go. Spell the name or write it on a piece of paper if you are to be sure that you will be taken west instead of east.

Catherine Long on Blessing.

Catherine, who lives in the same town with numerous relatives, was wont to remember them all separately in her prayer each night. A few nights ago she was especially tired and sleepy and when she began to enumerate them, evidently the task looked hard, for she ended up with "and bless everybody in the telephone book."

Miscalculation.

"Why, didn't that widely advertised safe open?"

"Well, you see, after putting in a dancing floor, an ice skating rink, dressing-rooms for the cabaret performers and a platform for the orchestra, there was no room for tables."
