Announcement

Pasteurized Milk is Good Clean Milk heated to approximately 145 degrees Fahrenheit and held at that temperature for 30 minutes, then cooled suddenly.

This process in no way destroys the nutritive value of the Milk. It does however, destroy harmful germ life that Milk may contain.

We say "May" because there is always a chance that Milk "may" contain harmful bacteria no matter how carefully handled before it reaches us. So to Safeguard you we Perfectly Pasteurize it—then cool it—then automatically bottle and cap it. So it comes to you untouched by human hands.

What the Bell System Is Doing

WITH a view to carrying out the admonition of President Wilson to organize for greater efficiency, the Bell Telephone System has issued to its employees instructions and inspirational messages such as these:

"Keep alert every moment of your time on this Universal Service."

"You members of this great unseen army of girls will serve the country as no other army can."

"Every call represents a responsibility which must be met as promptly as possible. You may be handling messages of international importance."

"It has never been so necessary to stick to your job."

We ask the public to work with our operators for a realization of the national purpose. Consulting the directory before calling, answering the telephone promptly, and making your conversations as brief as possible—all will help.

Protect Yourself!

HORLICK'S THE ORIGINAL MALTED MILK

Made from clean, rich milk with the extract of select malted grain, malted in our own Malt Houses under sanitary conditions. Infants and children thrive on it. Agrees with the weakest stomach of the invalid or the aged. Needs no cooking nor addition of milk.

Nourishes and sustains more than tea, coffee, etc. Should be kept at home or when traveling. A nutritious food-drink may be prepared in a moment. A glassful hot before retiring induces refreshing sleep. Also in lunch tablet form for business men. Substitutes Cost YOU Same Price. **Take a Package Home**

HIGH SCHOOL NOTES

By the Students

Last Monday morning the campaign among the boys of the High School for a Y. M. C. A. fund ended. Solicitors had been busy for a week among the members of their own classes securing pledges for ten dollars which the subscribers must earn before the first of May. A parent's approval on each pledge was required. A graduated chart posted on the main hall and kept constantly up to date indicated the keen rivalry which developed between the classes and divisions of classes. On Monday in a general assembly Mr. Sandwick announced a total of \$700 pledged and the gift of \$25 by a parent. He then called upon the girls, who are already busy with Junior Red Cross work, to pledge from their own money any sum, however small, which they felt they could give. In response to this appeal \$37.70 was immediately pledged, raising the subscription to the very satisfactory total of \$737.70.

Although a few students have already secured work, the majority are like Mr. Micawber—hopefully waiting for something to "turn up." Consequently householders in and about Highland Park are reminded of the considerable number of willing workers that will be available for all sorts of odd jobs upon application at the High School.

There will be no classes at Deerfield-Shields on Friday of this week, to enable the teachers to take advantage of the Illinois State High School Conference at Urbana. Those who do not attend this will visit other high schools.

Last Wednesday an event of great importance was celebrated by the Senior girls—Pig Tail Day. All the girls wore their hair down and many curls, braids and big bows were in evidence.

GOOD-BYE U. S.—GOOD-BYE STATES

The following was written by a local citizen who is in the service of Uncle Sam. It was taken from a Springfield paper of recent date.

Good-bye U. S.—good-bye States, We're going to make the Cockney and the Frency, too, our mates. We're going right up forward to the gates of old Verdun. Up in front you'll find us camping when the war is won.

We're fighting for democracy and we will surely win. We'll make up with the pepper where the lines are thin. We'll make the U. S. safer than it's ever been before. We'll make the ones who enter just knock on our front door.

Good-bye U. S.—good-bye States, We're going to make the Cockney and the Frency, too, our mates. We're headed with Old Glory straight for the picket line. And soon she'll be floating in the breezes of the Rhine.

We're fighting for democracy and then we've left behind, We'll kick the Kaiser off his stool, yes, make him change his mind. We'll make the world a safer place for all who want to live. And you can help, who can't come long, by the gifts that you can give.

Good-bye U. S.—good-bye States, We're going to make the Cockney and the Frency, too, our mates. We've started with Old Glory and we'll finish with her, too. And then we'll come a marching home, to you and you and you. —H. Burton, Highland Park, Ill.

SPECIAL ASSESSMENT NOTICE

Special Warrant Number 235

Public notice is hereby given that the County Court of Lake County, Illinois, has rendered judgment for a special assessment upon property benefited by the following improvement:—Construction of a one hundred and fifty (150) foot reinforced concrete bridge including abutments and retaining wing walls in St. Johns Avenue, spanning the ravine which exists in St. Johns Avenue between Bloom Street and Moraine Road, all in the City of Highland Park, County of Lake and State of Illinois, as will more fully appear from the certified copy of the judgment on file in my office. That the warrant for collection of such assessment is in the hands of the undersigned.

All persons interested are hereby notified to call and pay the amount assessed at the Collector's Office, City Hall, Corner Green Bay Road and Central Avenue, Highland Park, Illinois, within thirty (30) days from the date thereof.

Notice is further given that the said assessment is divided in five (5) installments. That the amount of the first installment is \$1500.00 and that each of the remaining installments is \$1500.00. That all installments draw interest at the rate of 5 per cent per annum from August 3rd, A. D. 1917. The first installment is payable on the 2nd day of January, A. D. 1918. The second installment one year thereafter and so on annually until all installments are paid.

Fred W. Rubly, City Collector. Dated at Highland Park, Illinois, this 15th day of November, 1917.

In the Percolation Process, a stream of vaporized water traveling continuously through the coffee grounds, takes on its journey, part of the essence of the berry until finally all is extracted. It is quite true good coffee can be made by boiling—if a real expert handles the operation. But if you would have a beverage free from all deleterious qualities, of grateful fragrance and delicious to the taste, it can be secured by using

Electric Coffee Percolators

Made in Copper and Nickel. Some with sugar bowl and cream jug to match.
