

A Heap More Electric Light

If the largest manufacturer of furnaces in the world should perfect a new furnace giving three times as much heat from a ton of coal as the furnaces now in use, you would buy one.

This new furnace would heat your house a great deal faster and better without burning any more coal than your present furnace. Or select any other homely comparison that will illustrate putting in a little and getting out a lot and you describe the effect of

Highland Park's Honor Roll

The following names and addresses are those of Highland Park's "Honor Boys." Nearly two hundred boys from this city have answered their country's call and are now in service of Uncle Sam and allies. If you find a mistake in this list go to the nearest telephone, ask for Highland Park 557 or 558 and there will be some one here with a pencil and paper to make the needed correction.

Council of National Defense WOMAN'S COMMITTEE Official News News on all War Work

Fund for the French Wounded "Here's a box of little 'bits.' Don't start in and give me fits. Saying they are all too coarse. Only fit for an army horse. That you want them finer still. As if run thru hopper mill. Fine as milk, or maiden's blush (Wife's just here and bids me hush) Benedict.

All odds and ends to the rescue! Our poet is again low on scraps. No scraps—no poem. Perish the thought! Turn your rag bag into filling for ambulance pillows (and poems) by delivering it by hand, if need be, to Trinity Church on Wednesday.

The Y. W. C. A. Since the Highwood schools have closed, due to lack of coal, not to reopen until Feb. 1, the Patriotic League rooms have become a haven of comfort for the children, and indirectly their mothers. The little folks as well as the older children fill the rooms all day long, while Miss McQuillan keeps everybody happy and incidentally teaches them how to do various sorts of war work. The boys knit, and the girls clip, and soon there will be a really, truly Red Cross auxiliary for the grown ups, for officers have already been elected, and preparations are going forward in a most business-like manner.

The French Class of the Patriotic League, taught by Mrs. Spencer, has moved down to her own cheery home, where the girls gather one evening each week to struggle with the irregularities of that most irregular of all concepts, the French verb. The Association at Highland Park reports a Red Cross hospital garment department to be opened this Thursday evening for all willing workers. Also a class in English to meet under Mrs. George Taylor, an experienced teacher, on Thursdays at 3 in the afternoon. This class is free, of course, to all who care to take part in it.

The Army and Navy Center The Center would like to share with its many friends two letters recently received. The first from the present chaplain at Fort Sheridan: "My Dear Mrs. Jones. Permit me to express my sincere gratitude to you and to all active members of the Army and Navy Center. Although deep satisfaction must be yours for the noble work you have done and are doing, I want to thank you personally. Every day I hear words of hearty appreciation spoken by the hospital patients, the prisoners, and by other soldiers. May every true joy and every lasting blessing be yours in the New Year. Yours sincerely, F. H. Reiner, 40th Inf. Chaplain. The other from our friend, the Rev. Myron Adams: "My Dear Mrs. Jones. As I visit the different camps to see the Ft. Sheridan officers now in charge of troops, my admiration for the Army and Navy Center at Highland Park increases. I find a larger and more expensive one, but none that equal it for comfort, hospitality, practicality and spirit. At the close of the second camp many of our men told me that the Center had been the nearest influence to their home life they had found. The majority of them, now in France, will always remember it. Men in Colorado, Kansas, Missouri, Wisconsin and Michigan will remember the people of Highland Park for the kindness they received here, and their troops in the line will have greater consideration because of it. I hope you will keep up the Center, and that its good influence will encourage you to face the work ahead. Yours very truly, Myron E. Adams, Executive Mgr. Ft. Sheridan Assn.

Parents and Teachers The meeting of the Elm Place Parent-Teacher Association was held yesterday afternoon. The thought of the day was "The Function of the Home in the Education of the Child" and Mrs. John W. Welch was the speaker. In order to have time for important reports, the program, and the social hour, a business meeting was called at two-thirty.

Lincoln School The Parent-Teacher Association meeting scheduled for Friday evening, January eighth has been postponed. Miss Marie Shedd is the speaker, the place is the Village House at Ravinia. Announcement of the date will be given later.

To Dedicate Service Flag - Libertyville's service flag will be dedicated in the high school auditorium on Thursday evening, January 17. An impressive program is being arranged. Senator Rodney B. Swift will act as chairman, and the Rev. C. A. Montanus will call the roll of honor. The Rev. T. E. Ream will respond, giving the present address of each of the young men whose name is called.

Notice to Contractors Sealed proposals will be received by the Council of the City of Highland Park, Illinois, until 5 o'clock p. m. on Friday, January 25th, 1918, for furnishing all tools, labor and materials required in making the necessary repairs to the two wooden bridges located in Sheridan Rd. between Broadway and Maple Ave. Plans and specifications may be seen and bidding forms obtained at the office of the undersigned in the City Hall. All proposals must be accompanied by a certified check payable to the Treasurer of the City of Highland Park for the sum of not less than ten per cent (10 per cent) of the aggregate of the proposal. The Council reserves the right to reject any or all proposals should they deem it best for the public good. By order of the City Council on the 4th day of January 1918. R. A. Warren, City Clerk

The Red Cross Shop "One pair of socks a week, or one plain sweater, or one helmet, or two pair of wristlets, or two trench caps, or one alpsthitch sweater in ten days" should be the smallest output of an average knitter, according to Mrs. Conger of Chicago. In a call for greater productivity. It would be interesting to note how far we have passed this standard. With our "pair of socks a day" slogan it would seem we had left it far behind. The hospital garment department statistics of work produced from Dec. 20 to Jan. 15 are: 24 hospital bedshirts, 24 bed jackets, 15 pairs of pajamas, 60 convalescent robes. This with an average of six to eight workers daily. With fifteen we could supply a base hospital! Two more motors have been ordered for this department to lend speed to the work. The chairman's heart was warmed last week by receiving the following note from the general chairman in Chicago on the receipt for a shipment of garments: "Good work, beautifully folded. Such work

Our Stock of Gold The gold monetary stock, (coin and bullion used as money) in the United States on November 1, 1917, is estimated in Secretary McAdoo's annual report at \$2,041,500,000. The increase in the past 10 months has been \$174,500,000, and in the past three years \$1,236,500,000. In five years the portion of the world's gold monetary stock held by the United States has increased from approximately one-fifth to more than one-third.

Largest Service Flag in the World The largest service flag in the nation will soon float from the staff at Great Lakes. The flag will honor 43,986 men who have been trained there and sent to sea since war was declared. This number does not include men sent to shore stations. Capt. Moffett has leased every available foot of land within two miles of the station. "I am a great believer in preparedness, and if we are called to train 100,000 men at Great Lakes next summer we will be prepared to do so," he said.

Soldier and Sailor Insurance To the man who has gone to the colors the United States Government offers the safest, the most liberal, and the cheapest insurance on the face of the earth. Approximately 300,000 men have already accepted the Government's offer, applying for insurance of about two and three-quarter billions of dollars. The average amount applied for per man is more than \$5,000 which is very close to the \$10,000 maximum provided for by the law. This insurance total, great as it is, should be only a beginning. Every person in the military and naval forces of the Nation owes to himself and to those he loves to avail himself of the full insurance protection. But the time in which he can do so is limited. Prompt action is imperative.

Those who joined the service before October 15, 1917, must apply for the insurance on or before February 12, 1918. After that, it will be too late. The automatic insurance which is provided until February 12, 1918, is only partial protection. Parents, brothers, and sisters, who have a representative of their family in the Army or Navy should, for their own sake, and for his, write to him at once urging him, if he has not already done so, to buy the Government insurance. They should urge him to buy the full \$10,000, and, above all, to buy it now.

The Liberty Loan and Germany The military masters of Germany have maintained an attitude of assumed great contempt for America's war preparations and America's participation in the war. The Kaiser, Hindenburg, and Hertling have all voiced this contempt. Yet there are evidences in plenty that in fear of America's entry in force into the war next spring Germany is massing tremendous forces on the western front, is preparing to hurl masses of men into the jaws of death in a desperate effort to reach a conclusion before the might of America becomes effective.

The two Liberty Loans in this country no doubt had a great physiological effect upon the German mind. The ease with which the tremendous sums of money were raised, the enthusiasm of the workers and of the subscribers and of, indeed, the whole Nation, and the heavy over-subscription to both loans are evidences that cannot be disregarded that the American people are in earnest, that they are behind the American army and the American Government, and are willing to make the sacrifices required and to support to the utmost our Nation at war.

That money talks is an old proverb, and the voice of the billions of dollars representing the First and Second Liberty Loans was heard across the sea and carried conviction even to the obsessed Germans.

How's This for a Daily Menu? Captain Moffett says the amount of food consumed by 27,000 men at the Naval Station every 24 hours is three and one-half tons of roast beef, one ton of mashed potatoes, 500 quarts of gravy, 15,000 radishes, 4,000 tomatoes, 100 pounds of green peas, 7,000 pounds of milk, 6,000 loaves of bread and 5,000 quarts of coffee.
