Official News Notes on all War Work

Battle Cry of Feed 'Em
Yes, we'll rally round the farm, boys,
We'll rally once again,
Shouting the battle cry of Feed 'em,
We've got the ships and money
And the best of fighting men,
Shouting the battle cry of Feed 'em.

The onion forever, the beans and the
corn,
Down with the tater—it's up the next
morn.

While we rally round the plow, boys,
And take the hoe again,
Shouting the battle cry of Feed 'em,
—Fred Emerson Brooks in "Patriotic
Toasts."

The war work goes more or less
serenely on its way despite zero
weather, and seemingly bottomless
snow drifts. We have our Chamber-
lins, and Teddys, to be sure, and now
and then one or another of us have
to come to the sturdy defense of our
"department". Only this week we
were told that someone thought our
pbor attempts in this column—
"flippant". We assure you nothing
is further from our intention. We
have tried only to make a rather
heterogeneous bumble of facts inter-
esting reading. Surely we need not
wear crepe in order not to be misun-
derstood!

But, as we have said, by and large
the work goes on steadily. The Red
Cross continues to live up to its rep-
utation of delivering the goods
promptly, and in praise-worthy con-
dition and amounts. The Navy Rel-
ief sends to The Great Lakes its us-
ual good quota of bathrobes and com-
fort kits, as well as another phono-
graph to make the time pass more
happily for the boys in the hospital.

The Daughters of the Flag will
meet this coming Saturday at Mrs.
Millers for their regular monthly
meeting.

The Army and Navy center has
sent between 50 and 75 gift bags left
over from the Christmas party, each
containing a card from the Center,
to the boys at the Great Lakes thru
the Navy Relief. These bags will be
distributed thru some of the nurses,
who are in a position to know best
were a little extra cheer is most
needed.

On Monday night Mrs. Jacobson
entertained some of the officers and
their friends with a dance at her
home. The officers could not say
enough in praise of the Center and
its influence.

The patriotic poem written by our
fellow townsman, Mr. Elisha Morgan,
dedicated to Capt. Moffett of the
Great Lakes, and illumined by Ralph
Fletcher Seymour of Ravinia, has
been framed and hung in the rooms
of the Center.

The following calendar for hostess-
ing the Saturday and Sunday after-
noons has been arranged:

First Saturday and Sunday of each
month—The Ossoli Club.

Second Saturday of each month—
Daughters of the Revolution.

Alternate second Saturday or third
Sunday of each month—St. Mary's
Court, Woman's Catholic Order of
Foresters.

Third Sunday of each month—
Luther League of The Zion Lather-
an church.

Fourth Saturday and Sunday—
Highland Park Women's Club.

The hostesses for the coming week
end will be, Saturday, Mrs. Anson
Morgan, Sunday, Mrs. George A. Ma-
son.

"While we are knitting for the
boys," said Mrs. Moran in her talk
on War Literature before the Womens
Club Tuesday—we regret that we
are not able to quote her exactly,
"they are knitting for us, into the
very fabric of our lives, ideals of
bravery, courage and devotion, mak-
ing for us "comfort kits" of heroism
and self-sacrifice with which to face
the future more bravely in the hard
days ahead of us all.

FEBRUARY TO BE FATLESS

"February is to be the fatless
month" reports Miss Isabel Bevier
chairman of the Thrift and Conser-
vation committee. She has recently
returned from Washington where she
has been doing work with the Hoover
Bureau, and comes back to Illi-
nois with the slogan "Fatless Feb-
ruary." Letters have recently gone
out from her office to every county
in the state urging the necessity for
food conservation, with this special
emphasis on fats.

Many other methods of spreading
the conservation lessons have been
planned and used, notably among
them that done by the Evanston
schools, which was accomplished by
Supt. A. N. Farmer. He has adopted
the arithmetic instruction in the sixth
seventh and eighth grades to prob-
lems arising in connection with food
conservation. Mr. Farmer has used
as the basis of his work, data secur-

Drawers 22c, 29c, 39c

New Gingham—Tissues—Percales—being shown

ed from bulletins issued by the gov-
ernment and several state institu-
tions.

In Peoria a community kitchen has
been started in a small way in the
poorer districts of the city. In many
counties in southern Illinois, notably
Williamson, Randolph, Wabash, and
Richland, conservation study clubs
have been organized using the Hoover
Lessons as a basis. A food show
in Quincy, Adams County, em-
phasized the use of other foods in
place of meats, wheat, sugar, and
fats.

"The reports are encouraging" said
Miss Bevier "but there remains
very much yet to be done in the fix-
ing of individual responsibility and
in cooperation of all agencies."

CARD OF THANKS

We wish to thank our many friends
for their kindnesses during our re-
cent bereavement.
Mr. Adam Ohlwein.
Mrs. Edward Eichler.
Mrs. Charles Geminer.
Miss Anna Ohlwein.

LITTLE THRIFTERS

Make our heatless days hot for the
kaiser—Buy War Savings Stamps.

America boys are dying for their
country. Surely you can save for it.

There is just one way to get out
of this war; that is to win it. Every
time you invest in a thrift stamp you
are hastening peace.

No one ever got really rich by mere-
ly saving money. You must invest it.
Let your money commence to work
for you as soon as you get the price
of a War Savings Stamp.

Money out at interest takes no holi-
days on account of coal shortage.
War Savings Stamps earn interest for
you Sundays and holidays.

War savers are life savers. Buy
War Savings Stamps.

\$6875.00.

What the Bell System Is Doing

SPEED is the essential element of the times
and the hour.

The telephone operator is a trained public
servant. Before she is allowed to take her place at
the switchboard she undergoes a systematic course
of instruction, so arranged as to develop alertness
of thought, concentration on the work in hand, re-
sourcefulness in emergency, and speed of action.

To handle the great volume of business pass-
ing over its long distance lines alone, the Bell
System has specially trained 12,000 operators in
long distance methods and practices.

Upon the speed in handling messages, de-
veloped by these thousands of operators, depends
the usefulness of the Bell System to the Govern-
ment and to the public.

Speed, in the transmission of messages which
have to do with the construction of air-craft, ships,
munitions, and the like—with all Government
activities in fact—will be a factor in saving human
lives, since these appliances will bring nearer the
end of the war.
