Safeguarded Investments

Are your dollars *Loafers* or *Workers*? Money that is not invested pays no returns, any more than grain in the bin will grow crops unless planted. Every man or woman with money should put that money to work. Jay Gould once said that \$100 invested in the right thing at the right time would earn as much as a man steadily employed. He died worth hundreds of millions. The average man or woman knows nothing about how or where to invest money to get good returns from it. It is our business to advise investors where and how to invest, where investments can earn the best returns with the utmost of safety.

Brokerage Department

We buy or sell listed or unlisted stocks and bonds. If you are anxious to buy or sell let us help you. We can probably buy the stock you want cheaper than you can. We can sell your stocks at the best price or we can exchange non-dividend-paying stock for stock that is paying dividends. Write to us about it.

Underwriting Department

We underwrite the selling of the stock of companies but before accepting an issue of stock for sale we make a most thorough and complete investigation of the proposition. It has to grade up A-1 or we will not handle it. It is this type of investment that Jay Gould alluded to in the quotation above—"The right thing at the right time."

How to Buy Stocks

We will purchase stock for you for cash or on the deferred payment plan. We make a moderate charge for carrying stock on the deferred payment plan, but you become entitled to all dividends, bonuses, etc., the stock you buy earns from the date your first payment is recorded. Let us explain this plan fully.

Two Unusual Opportunities

We have at present two exceptionally attractive opportunities. Both are gilt-edge investments with large profit possibilities. Ask for offer B-2.

RECEIVES INSTRUCTIONS ON FOOD CONSERVATION

Mr. Thomas Welsh of C. N. S. & M. R. R. to observe "Less" Days.
Last week Mr. Thomas Welsh superintendent of the Dining Car Department of the Chicago North Shore Line received instructions from Mr. Howard Boardman, secretary of the Dining Car Superintendents Association, in which he recommended the following rules regarding food conservation.
To observe, (1) Monday and Wednesday as wheatless days, (2) Tuesday as meatless days, (3) Saturday as porkless day, (4) one wheatless meal per day, and (5) one meatless meal per day.
The instructions included the serving of not more than two ounces of wheat bread at one meal to each customer.

GOLDBERG CASE HEARD BY APPELLATE COURT

Decision of County Court Convicting Him on 50 Counts for Selling Liquor, is Upheld

The Appellate court at Ottawa on Monday affirmed the action of the Lake County court in the case against Philip Goldberg of Highland Park, the county court action consisting of:
1. Sentence of 100 days in jail.
2. Twenty five hundred dollar fine.
The charge upon which Goldberg was convicted was the sale of liquor without a license.

The Goldberg case was tried at the April term of court. Goldberg was found guilty on 50 counts. The jury having held he had sold liquor contrary to law on 50 different occasions. The county court judge P. L. Persons, sentenced Goldberg to ten days imprisonment on each of ten counts and fined him \$50 on 50 counts thereby imposing the most severe punishment ever imposed on a man in Lake county for violation of the liquor laws.

It is almost certain that Goldberg will move for a new trial and that the case will be carried to the supreme court.

A Letter From Over There

The following extracts from a home letter written by a Highland Park boy of the 149th Field Artillery in France, discloses that all is not gloomy in that battle-torn country.

December 30th, 1917

Packages are arriving nearly every day, and up to date I have received one package of cookies, one of candy, two of cigarettes, one of socks, six or seven magazines, and probably several I can not think of. Please don't stop the smokes, tobacco is scarce—that is American kind—and Omars are more than scarce, all stories to the contrary.

If you happen to think of it, you might let me know how the war is going, for the news in our papers is so meagre and so censored, we know practically nothing about it. It is strange to be writing clear over to the U. S. for news, isn't it?

Christmas has come and gone. In the morning first call sounded at seven-thirty—a wonderful luxury, though it cut off an hour and a half from the day. Breakfast—of which we were sparing so as not to spoil our dinner—consisted of hash and bread and coffee. Then at ten minutes of nine we went to the stables to water and groom the horses, getting back to the barracks about eleven. Cheerful news awaited us—no dinner till three-thirty and our interiors getting more and more hollow. If it hadn't been for our boxes from home, I think some of us would have mobbed the kitchen. At three we watered horses again, getting back just in time to help decorate.

Holly and mistletoe grow wild over here, the former in bushes three to five feet high, and the latter in the apple trees just as it used to grow in the live oaks in Florida. These were placed on the side of the shack, and draped over the lights (electric) and it brought back hosts of other Christmas memories.

Down the middle ran a long improvised table, decorated with holly, bits of ribbon, and various colored tissue paper covered candle-sticks (candlesticks in disguise)—a table that tried its best to outdo in gayety the group around it. Each mess kit was filled to overflowing—turkey, dressing, jelly, cauliflower, potatoes, biscuits—waiting to be emptied so that apple pie, crullers, chocolates, candy, dates and nuts could be substituted in their places. Each cup was full of "Tom and Jerry" and many were the toasts that helped to empty them.

Our thoughts were mostly of you people back in the States but no one was allowed to spend much time with them on account of their dampening effect. This life has taught one to appreciate the comforts of home as never before, but more than that, to realize what our own folks mean to us, how wonderful they are in their sacrifices to our comforts, and how little we appreciated them when we were home.

L. V. B.

When I first knew my son would be "over there" for several months, I had printed some labels with his name and correct address on it. It may have been only coincidence, but I attribute the regular arrival of his packages to the plainly printed address.

Miss Olga Brown returned on Monday from Fort Leavenworth, Kansas, where she has been the guest of Lieutenant and Mrs. James Brierley for a week.

Sixteen registrations by German aliens were made in Highland Park. The period of registration, from Feb. 4 to Feb. 9, was extended to the 12th.

LODGE HOLDS SECOND MONTHLY MEETING

Fraternal Aid Union Meets at Witten Hall on Friday. Good Attendance

Highland Park Lodge Number 2006 Fraternal Aid Union, held its second regular monthly meeting on Friday evening, February eighth at Witten Hall.

The meeting was well attended in spite of bad weather conditions. Charles M. Olk, Supreme Deputy and organizer and Frank Ryan, Supreme Deputy were present and gave instructive talks on the American 4 per cent certificates. These talks were very much appreciated by the members present.

Secretary Ritter read seven new applications, and three candidates were initiated into the Lodge as members. It was voted to hold a card party after Lent. A committee was appointed to look into the matter. After the meeting refreshments were served by Mr. T. E. Piereson. Ladies will be admitted as members to the Lodge.

MOTOR TRUCK LINE FOR GREAT LAKES

Twenty Machines to Operate Between Naval Station and Chicago for Freight Transportation

A "jackie line" of motor trucks soon will be in operation between Chicago and Great Lakes naval training station according to Capt. William A. Moffett, commanding. Twenty auto dories to carry freight, provisions and coal cars are to help solve the car shortage and transportation problems of Chicago by doing the work hitherto performed by the railroads.

It is only one of Captain Moffett's numerous conservation measures in housing and feeding 20,000 bluejackets in training, which, along with a \$400,000 cold storage warehouse, to be constructed next summer, and a government-owned railroad composed of lines operated between the seven camps of the station, it is expected will save the nation many thousands of dollars monthly.

Six training ships attached to this naval district, Captain Moffett announces, will not be sent on long cruises this summer, but will be confined to short runs between Great Lakes and Chicago and Great Lakes and Milwaukee and liberty parties of jacksies on shore leave will be carried back and forth, thereby relieving the congestion of rail and electric lines.

And that's not all on conservation. The ban on the sale of candy to sailors in camp canteens has been raised by the Navy Department, but candy at Great Lakes will be sold only two days in the week. Fresh fruits will be substituted for sweets the remaining days, not only to save sugar but to better the health of the jacksies.

FIRE DEPARTMENT

The members recently were presented with cigars by Mrs. Cobb, as a gift for the splendid service rendered at the time of the Cobb fire. The "boys" all appreciated the smokes to the fullest.
