The fifth and sixth grade room is now 100% in the sale of thrift stamps. All rooms including the fourth grade and above are 100%. The children are making a special effort to have people pledge themselves to purchase a specified amount of stamps each week during the year.

The seventh grade is planning a trip to the Field Museum next week with Miss Goddard.

1825 Hours of Kitchen Work

This is the average time spent in the average kitchen in a year. The figures are conservative, too. Doesn't the call for every modern convenience to make life easier for the worker there?

Put an Electric Fan in Your Kitchen

It is as much a part of the home equipment in the summer as the ice chest. It is adjustable to any position, shelf, wall or table. Can be attached to any electric light fixture. Turns on and off like electric light.

You would pay ten cents for a half-hour ride AFTER the work of the humid summer day to "cool-off."

A trifling amount for electricity would keep you cool DURING your work at home. Let us show you these summer luxuries.
