FIRE BROKE OUT FRIDAY IN REV. TETREAU'S HOME

Damage Amounted to \$500. An Insurance Covers the Loss. Credit Due Fire Department

Fire broke out last Friday noon in the home of Rev. E. Tetreau on Laurotta Place. It was discovered by a neighbor who saw smoke pouring thru the shingles. The fire which was caused by a defective chimney started in the attic and spread over the entire upper part of the house before being discovered. A call to the Highland Park fire department brought immediate response. The damage done amounted to about five hundred dollars. The house and furniture were both insured. Much credit is due the fire department for their quick response and also to the many friends who so willingly and carefully helped to remove the household belongings. A remarkable thing was that not one article was broken, and a great deal of cut glass had to be removed.

PUPILS GIVE SPLENDID CENTENNIAL PAGEANT

NINA LAMKIN IS DIRECTOR

Friday's Ideal Weather is Factor in Success of Pageant Given by Elm Place Children. Credit Due Workers

Never before, it seems had Lake Michigan been so beautiful as it was on Friday afternoon when Elm Place pupils presented the Illinois Centennial pageant. No better place than the bluff overlooking the lake, about which so much Illinois history has been made, could have been chosen. The day was ideal; the lake and sky so clear and blue, the trees so green and fresh, that it was a joy to just be out doors. Aside from all this the pupils presented a pageant well worth praise.

Nina B. Lamkin, the writer, directed the production, and with the untiring help of the teachers and friends of the school, made a very splendid showing.

The pageant was divided into episodes, showing how each element helped to develop the state idea. The Indians, the English and French explorers, all gave the pageant a beautiful dash of color. The days of Lincoln with the Lincoln-Douglas debates brought the spectators from the early times to the stirring civil war period. Then came the episode of interest to all Highland Parkers, the founding of our city, signing the charter and the building of the railroads. After this, the present day times were depicted in the singing of patriotic songs, and the greeting of Highland Park and Illinois by America. Boy Scouts and Red Cross nurses also took part.

Music was furnished by four pieces of the Chicago Symphony orchestra. Taken all together the pageant was surely very pretty and a great deal of credit belongs to the promoters. Mr. Jesse L. Smith and all the teachers for the work done in connection with the pageant. The audience was large and enthusiastic.

Our Flag

By Samuel M. Hastings

RED--"Love" WHITE--"Purity" BLUE--"True"

Those who designed the flags of the United States, England and France certainly must have been inspired. They must have known that these three great nations would eventually band together to uphold righteousness and to oppose with all their power those who disregard the principles embodied in the RED, WHITE and BLUE emblems as enumerated above.

Therefore, in this year's celebration of Flag Day, Americans should bear in mind the significance of the colors which our forefathers and the forefathers of our brethren across the sea chose to adopt as our guide to everlasting peace and liberty.

BATHING BEACH TO OPEN HERE NEXT SATURDAY

New Ladies Dressing Rooms to be Added this Year. Other Equipment Added

Oh Skinnay, c'mon over, run like everthin'. Highland Park's bathing beach's goin' to open on Saturday next.

Those in charge of the bathing beach this year have done a great deal of planning during the past few weeks and now everything is ready for the bathing season.

Among the new features on the beach this year is the refreshment stand to be operated for the use of visitors. Twelve new dressing rooms with convenient lockers for the use of ladies will be added. A check room will be opened on the beach and will fill a long felt want.

During the winter the action of the severe northeast storms wore away much of the beach and so the equipment has been moved back. Breakwaters will be built toward any further trouble in this line during the present season.

Mr. Hobart Pakula, for many years on the Clarendon beach is to take charge of the beach this year. Adequate accommodations will be provided for all. The East Park Board has been asked to cooperate with the city in keeping order and looking after the affairs of the north beach. Swimming is to be prohibited on this beach as there will be no life saver in charge. Everything is ready now, equipment in place, search lights and other lights are all ready for use, a pleasant season is looked forward to.

Under the Honor System

Prepare for the Red Cross drive! The War Chest plan having failed to meet the approval of all departments of war activities, our regular drive for the Red Cross was not launched until this week. And it will be conducted entirely by mail. If we are successful in raising our quota by this far simpler and less arduous means, we have relieved our tireless workers of that most tedious and thankless test of devotion—the house-to-house canvass, and we have made a step in advance.

Meanwhile, for this once, we are on the honor system and, like those young officers who are permitted to censor their own letters, we must see to it that our answering cheques can conscientiously be "passed as censored".

"But I have just put all I can afford into bonds", says the man conscious of virtue and a slackened purse. All right, that was a good investment. Now you are asked to give. But don't "give until it hurts". The expression is bad. Give until it feels good to be giving. If you have properly exercised that giving muscle in your right arm so far in this war, you will find it working by this time with an astonishing facility. In other words, if your patriotism has been functioning properly, you will begin to be conscious of some of the spiritual returns of giving.

A man recently back from the front tells how our soldiers pool their small earnings in clubs of twenty to feed and care for the little suffering children every where in evidence. As always, the world looks to those enduring hardships and privations for tenderness and mercy. Men of Highland Park—before you draw your cheque for the Red Cross, measure it against the standards that prevail at the front and see if it has any resemblance to generosity.

SOUTH END CITIZENS AGAINST ANNEXATION

ASK PEOPLE TO VOTE "NO"

Following Letter Signed by Investigating Committee Shows Negative Attitude of Ravinia Citizens

Highland Park, Ill. Highland Park Press, Gentlemen:

The undersigned have been appointed a committee to investigate the proposed annexation of the so-called Ravinia Highlands, Sub-division to Highland Park.

We find that the Bartlett Company, which has been promoting the sale of lots in this sub-division, presented a petition through its attorney, Mr. George A. Mason, to the Highland Park City Council signed by some 205 persons who represented that they were owners of property in the sub-division. This petition was presented to the City Council during the latter part of March and it requested that a special election be called. The City Council had already gone on record that they were opposed to the annexation of this property to the City of Highland Park, chiefly for the reason that the Bartlett people had ignored the suggestions of the City in the manner in which they had laid out their sub-division. If we understand the situation correctly, the Bartlett people had not considered the best interests of Highland Park.

After receiving this petition Attorney Mason was notified to this effect by the City Council. He replied that the city had no option; that under the statutes they must call an election. It was found that this is correct, and the election has been called accordingly.

We earnestly urge upon the voters of Highland Park that they VOTE "NO" at the election, which will be held on Monday, June 24th.

We shall ask you to print next week a statement in detail giving our reasons for opposing the admission of these sub-divisions to Highland Park.

Respectfully yours, Joseph L. Fearing, Walter W. McNeil, Ralph F. Seymour

OFF TO FRANCE FOR "Y" CANTEN SERVICE

Mrs. Mary Louise Sedgwick, Well Known in Local Society, Goes East Next Saturday

She is a member of the 13th Hospital unit for over-seas duty, and has been active in Red Cross and Belgian relief work here.

RED CROSS DRIVE IS ON IN HIGHLAND PARK

WAR CHEST IS GIVEN UP

Abandonment of Community Chest in No Way Relieves Highland Park of Duty to the Red Cross

When Lieutenant Dinsmore Ely, that brave young aviator said that giving up one's life for one's country is an investment, just as buying liberty bonds is, he struck the keynote of real patriotism. As his airplane soared above earthly objects, so did his thought, his reason. When we can so separate our thought from self, as to consider giving our all, as an investment, we have risen above the sordid, selfish thought and have soared higher into the realm of unselfishness, which at this time means real patriotism.

When we give to the American Red Cross, the greatest of humanitarian organizations we are investing our "bit", and the return, not in material objects, but in the feeling of having done for others; will bring us nearer that glorious thought of the gallant young aviator, who gave his "all"—and called it an investment.

And now Highland Park is calling upon you for your Red Cross subscription. When you give, remember Lieutenant Dinsmore Ely.

Since the organization of the Patriots War Service League and the adoption of the Community War Chest Plan, the State Council of Defense has announced that it is opposed to the War Chest idea as applied to National War Activities. The Red Cross and Y. M. C. A. have also gone on record against it. The Board of Governors and Financial Trustees deem it advisable to continue a plan which is contrary to the judgment of these organizations. It has, therefore, been decided to abandon the War Chest except for local activities.

The quota of Highland Park to the Red Cross War Fund would have been paid from the "War Chest". Many citizens have subscribed to the "War Chest", thus making their contributions to the Red Cross through its agency. Many have also sent their pledges to the Red Cross direct. But many more have subscribed to neither, as they were awaiting the call of a solicitor.

The necessity of abandoning the "War Chest" plan in no way relieves Highland Park of the duty to support the Red Cross. This duty will be performed voluntarily, as soon as knowledge of the situation is obtained.

If you have not subscribed, fill out Red Cross cards, and leave them at any of the Highland Park banks. You may pay the whole or a part of your subscription at the same time for which a Red Cross receipt will be given.

Our duty to the Red Cross is conceded by all. The medium of performing that duty is immaterial. Since it has been necessary to abandon one agency, we must adopt another. The responsibility being recognized, a prompt response should be given. If not received, a personal call will be made upon you.
