KEEP THE HOME KETTLES BUSY PRESERVING FOOD

Drying by Sun, Oven or Electric Fan Strongly Advocated. Sugar or No Sugar, Can!

The importance of canning does not diminish with the diminishing sugar supply. The country needs every pound of fruit and vegetables that can be put up for winter use, and if sugar cannot be obtained for preserving, other methods must be resorted to, for the canning must be done.

Experts are suggesting several sugarless ways of preserving fruit. Canning in water, canning fruit juices without sugar, to be made into jelly later or used for sauces and flavorings, canning fruits in fruit juices, canning fruit butters without sugar, substituting syrups for sugar, and, of course, drying.

All these methods are effective, and are little additional trouble, so those who have tried them declare. Extra care must be taken to sterilize and seal. Sugar or other sweetening may be more plentiful after the next sugar crop, and it may be added when the fruit is used.

Drying by sun, oven or electric fan is also strongly advocated by all conservation officials. The sun-dried method is the best because it conserves fuel, but oven or electric fan may be used by those who live in cities.

LAW AND ORDER LEAGUE PROTEST AT RACES

Gambling, in All Its Forms Would be Prohibited, Says the Attorney General

The protest of the Law and Order League against the proposed running meet at Libertyville has caused an announcement by the Attorney General that gambling in all its forms would be prohibited. Four hundred horses were expected and it was looked upon by many as a method of fleecing the Jacks. It is thought that this announcement by the Attorney General will make it impossible to hold the races.

BOB-O-LINK CLUB
Saturday, August tenth: Second round Club Championship. Eighteen holes, Match Play. Eighteen holes. Match Play against Par. Handicap. War Savings Prizes.

EBENEZER EVAN. CHURCH

The church services and Sunday School will be suspended with this Sunday on account of the Naperville Park meetings which are being held.

OPTOMETRY DON'TS

Don't waste a minute in starting for the nearest doctor in case of injury. A small particle of matter penetrating the eye, if neglected, may cause the loss of one or both eyes. An hour may make all the difference between safety and disaster. Manson Optical Co. Opticians and Optometrists Highland Park and Chicago 25-adv

DEATHS

Mr. Henry Jeppesen
Mr. Henry Jeppesen, father of H. P. Jeppesen, Grocer in Highland Park died at his son's home August 2nd. Funeral services will be held today at 1:30 p. m. from the residence of H. P. Jeppesen, 228 N. Sheridan Rd. Interment at Rose Hill Cemetery.

How Language Grows

"Cad" and "fad" were at first only localisms, struggling for existence and getting slowly into use sporadically in England, until at last they achieved a peaceful penetration into the United States; then they ceased to be mere Britishisms; they were recognized into standard English. A like fate has fallen "boss" and "hoon," the first a localism of New York (descended from the days when the Empire City was New Amsterdam), and the second spontaneous creation of the lumber camps of Michigan. In time these two words were in common use all over the United States; they were then merely Americanisms; and after a while they made their way into the British empire, until now they bid fair to be lifted into standard English.

Best Method of Memorizing

In committing a text to memory by consecutive readings better results can be obtained by allowing a fair period of time between readings. If a text be read a number of times on a given day, and another the same number of times on consecutive days, much more of the latter will have been memorized.

The girl who expects to manage a husband should first learn how to feed the brute.

Russia's redemption will come when she adopts the American slogan "work or fight!"

Beautiful Line of Wash Ties at reduced prices
50c ties at 25c
35c ties at 20c
R. W. SCHNEIDER
Men's Furnishings
393 Central Avenue Telephone H. P. 331

Bell System
The Line Is Busy
WHEN a telephone operator tells you that the line called for is busy it means that someone is already using the telephone with which you desire connection.
A busy telephone line is one of "life's little irritations." However reasonable we may be, we are inclined to resent the necessity of waiting until someone else finishes a leisurely conversation.
Not infrequently a telephone reported busy is in use by a child at home or some minor employe in an office who is taking advantage of the parents' or employers' absence to "visit" over the wire. Subscribers can help to improve their own service and that of all other subscribers by making reasonable rules governing the use of the service in their offices and homes.

REGENTED TRIBUTE TO DEY
Jefferson's Action in Tripoli Set Example That Was Followed by All Christian Nations.
HOW SHE REMEMBERED HIM
"Such a Friendly Face," Said Woman of Man Whose Name She Had Temporarily Forgotten.
The first treaty with Algiers, which was negotiated during Washington's administration, cost the United States, for the ransom of American captives, \$1,000,000, in addition to which an annuity was promised. In 1800 President Adams claimed that the United States had to pay three times the tribute imposed upon Sweden and Denmark.
But this temporizing policy only made matters worse. Captain Bainbridge arrived in Algiers, bearing the annual tribute for the dey in a national frigate, and the dey ordered him to proceed to Constantinople to deliver Algerian dispatches. "English, French and Spanish ships of war have done the same thing," said the dey insolently, when Bainbridge and the American consul remonstrated. "You pay me tribute because you are my slaves," replied the dey, who was playing the role assumed in later years by the Kaiser. Jefferson had expressed his determination of the mettle of his favored for pacifying these pests of commerce; and, availing himself of the present opportunity he sent on Commodore Dale with a squadron of three frigates and a sloop of war to make a naval demonstration on the Barbary coast. The Barbary powers were for a time overawed, and the United States thus set the first example among the Christian nations of making reprisals instead of ransom, the rule of security against these marauders. Tripoli declared war against the United States June 10, 1801.
Exit the Raw Egg.
One of the latest anathemas of medical erudition is heaped upon the head of the hitherto considered benign raw egg. Its sin, according to the New York Medical Journal, is chiefly plain caused worthlessness. The Medical Journal goes on to say that the raw egg white leaves the stomach unchanged and only feebly stimulates the flow of gastric juice. Cooked egg white, however, calls forth a generous flow of gastric juice and readily unites with the hydrochloric acid. In addition raw egg white leaves the stomach much too rapidly. It is the only protein which acts in this peculiar way; the only one to leave the stomach unchanged. However, in spite of these multitudinous inequities, "raw egg white," concludes the medical journal, "is not really harmful, but it must be remembered that in keeping it with never finishes it must be cooked."
