Your Income Tax, Due in 1919 In every well regulated business a fixed sum is set aside out of monthly earnings and maintained as a reserve to take care of taxes when

due and payable. Your Country's share in financing and winning the world war necessitates a substantial

increase in taxes on incomes. Hence, it behooves individuals as well as firms and corporations to make proper and adequate provisions for payment of such taxes.

Can you conceive of a safér, a more sensible plan than to open a savings account in this bank for that FIXED PURPOSE approximating your tax and placing into that account a proportionate sun each month? While without pinch or hardship you accumulate the required fund you receive 3 % interest on the same.

Will you make the decision today?
