

JUDGE BEN LINDSEY TO SPEAK TOMORROW

MASS MEETING AT D. S. H. S.

Program Arranged by War Camp Community Service Board Includes Concert Quintette from Gt. Lakes

Judge Ben Lindsey, the boys' judge of Denver, Colorado, who has recently returned from France, will be the chief speaker at the mass meeting Friday night, September 6th, at the Girls' Gymnasium, Deerfield-Shields High School.

The program as arranged by the War Camp Community Service Board includes a musical program by the famous Concert Quintette from the Great Lakes Naval Training Station, a group in which every member is a musician of national repute.

Lindsey, the Boys' Judge

Judge Lindsey, known throughout the United States as Judge of the Juvenile Court and called "the boys' judge," was present at the battle of Chateau Thierry. He was retreating with the French when he heard a Yankee band playing familiar music, and in the distance saw the American flag with troops advancing. As the body of soldiers came nearer, he could distinguish the song, "The Yanks Are Coming." On they came, ten thousand strong—the United States marines. They opened ranks that the refugees and French soldiers might pass through but never turned their faces from the enemy.

In another column of this issue will be found a description of this battle by a Highland Park boy who helped fight it.

The Great Lakes Concert Quintette

This organization is composed of five regularly enlisted men of the United States Navy, who were sent to Great Lakes for their training. They are musicians of national reputation, men whose musical training and association has been of the finest.

Their programs include the works of the best modern composers, as well as those of the older masters. Skillfully arranged and with excellent musical discretion, their concerts will be found delightful both by those who are thorough students of chamber music and those who are "just music lovers."

The work of the Great Lakes Concert Quintette has been most favorably received by critics and by those people whose musical adventures have included the most masterly exhibitions to be heard in this country or abroad.

Captain William A. Moffett, U. S. N., Commandant of the Great Lakes Naval Training Station, has granted special permission for this organization to play in the leading educational and musical centers of the United States. The entire proceeds of the tour are to be devoted exclusively to the work of the Navy Relief Society.

Jackie All Star Cast at the Ravinia Park Pavillion Saturday and Sunday Evenings

The Bluejacket Vaudeville Show which holds the boards at Ravinia Park this coming Saturday and Sunday nights promises to be one of the liveliest entertainments imaginable. A host of variety talent has been found among the sailors in training at Great Lakes and these men have been polishing up the acts which they laid aside to join the navy.

The show, as previously announced, is given for the benefit of the war recreation work of the Ravinia Club. The splendid service which this organization has done this summer in the way of providing entertainment for men in service, every week-end, is one that residents of the north shore will wish to see continued.

The stage at Ravinia will be packed with bluejackets from Great Lakes and the performance will be given in much the same manner that entertainments are presented in the big, natural amphitheatre at the station. The sailor "audience will contribute songs to the program. Everything in the way of a variety act from dancing acts to monologues will be presented. The stage at Ravinia that has echoed the haunting strains of "Madam Butterfly" and "Lucia" will resound to the booming choruses of the war songs of our fighting men and the rat-at-tat of clog dancers who "just can't make their feet behave."

The biggest money's worth of variety talent you ever were offered and an opportunity to help a highly practical war recreation work—this will be yours at Ravinia's "Great Lakes All Star Vaudeville Show" this week-end.

By doing better than ever before whatever work I have to do.

By rendering whatever special service I can to my community and country.

By living up to the highest standards of character and honor and helping others to do the same."

Major McCaskey, who consented to lend us an instructor, is interested in this drilling and is planning to come down in about two weeks and see what we really can do, so do not postpone coming. It is the intention of the committee to bring Highland Park up to its full quota of \$20 per capita within the next two weeks. So far we have barely reached the half-way mark. Highland Park should buy \$140,000 worth of thrift stamps this year. So far only \$75,000 has been subscribed.

Owing to a lack of space in this issue to print primary election news, sketches of the candidates, etc., we will print an extra edition on Monday, Sept. 9th. In that edition we shall not attempt to make recommendations but will print a short sketch of each candidate and what he stands for.

My Dear Mr. Quayle: I am just in receipt of your letter of August 22. CHILDREN OF SCHOOL AGE MUST ATTEND

NO WORK PERMITS GRANTED
Only Physical Incapacity Will be Accepted as Reason for Keeping Any Child Out of School

With the announcement of the opening next Monday of the schools in Districts 107 and 108 and of the Deerfield-Shields Township High School, it would seem opportune to remind ourselves that children of school age never seemed quite so valuable a national asset as at the present time and that a community can have no greater concern than the careful conservation of the child life in its midst. It is the children of today that must be reared fit for the democracy of tomorrow. For the important part the schools have in this noble work the fullest co-operation of all the forces in the community is necessary. One form which this co-operation may well take has to do with the matter of school attendance. The community cannot afford to have even one child's opportunities wasted and public opinion should be directed strongly against any practice that contributes to delinquency of this sort. Perhaps a more general acquaintance with the legal safeguards thrown about childhood would insure more definite co-operation on the part of the community.

Because of the importance of each child to the state there is, as everybody knows, a state child-labor law requiring the parents or guardians of each child of school age to send that child to some school, public or otherwise, all the time such school is in session. School age is defined as between the ages of seven and sixteen. The law does not recognize the right of a parent or guardian to keep a child out of school for any reason other than the physical incapacity of the child. The law does not confer upon anyone, either parent or teacher or school official, the power to issue permits which will authorize a child under fourteen to work for anyone during school hours or to be absent from school under any other pretext. The law indeed expressly forbids the employment of a child under fourteen at any time in any "theatre, concert hall or place of amusement where intoxicating liquors are sold, or in any mercantile institution, store, office, hotel, laundry, manufacturing establishment, bowling alley, passenger or freight elevator, factory or workshop or as a messenger or driver thereof." This means that even before and after school hours and on Saturdays and holidays no child under fourteen may legally be employed at any occupation in the above list. There is, however, another provision of this same law to the effect that no child under fourteen shall be employed at any work before the hour of 7:00 o'clock in the morning and after 6:00 o'clock in the evening, and it is therefore assumed that any light occupation is open to children under fourteen provided that it does not come under the above list and provided, further, that it does not engage the child during school hours or before seven in the morning and after six in the evening.

The scope of the law may appear in an illustration or so. Apparently a child under fourteen may deliver papers or distribute bills, etc., provided that this is not done during school hours and provided that the child is not on duty before seven in the morning or after six in the evening. Within these same limitations a child under fourteen may be on the golf links, may run errands, assist in house work, work in a garden, etc. A child under fourteen may not be allowed on the golf links during the hours school is in session. No one is clothed with authority to issue a permit to a child to violate the law in this way. No one can employ such a child in this way without becoming a law-breaker. During the past year several requests came to the office at Elm Place to issue "permits" to do that which is expressly forbidden in the statute and it was necessary to state each time that there is no provision made for setting aside the law in favor of anyone.

What children of school age may receive permission to leave school and take up employment? The law provides that the superintendent of (Continued on Supplement)
